Legal Deadline: NPRM, Statutory. Final, Statutory. Other, Statutory.
In accordance with 16 U.S.C. 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than one year after such proposal.

Abstract: Regulations will be developed which would list, reclassify, or delist,

as appropriate, certain species of fish, wildlife and plants under the Endangered Species Act, and where prudent would identify critical habitat for endangered and threatened species. Such actions are taken upon determination that species are endangered, threatened, or neither and are based solely on the biological information available to the Department.

1127. PROPOSED DETERMINATION OF EXPERIMENTAL POPULATION STATUS FOR AN INTRODUCED POPULATION OF COLORADO SQUAWFISH

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to introduce Colorado squawfish (Ptychocheilus lucius) into the lower Colorado River in Arizona and to determine the population to be "nonessential experimental" population according to Section 10(j) of the Endangered Species Act. The Service will propose a special rule to allow take in accordance with State law. In the past, Colorado squawfish were more widespread in the State of Arizona, occurring in several river drainages. This action is being taken in an effort to establish an additional population within the species' historic range.

1137. PROPOSED DETERMINATION OF NONESSENTIAL EXPERIMENTAL POPULATION STATUS FOR AN INTRODUCED POPULATION OF THE YELLOWFIN MADTOM IN VIRGINIA

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to reintroduce a small catfish, the yellow madtom (Noturus flavipinnis), into the North Fork Holston River, Smyth County, Virginia, and determine this population to be a nonessential experimental population according to Section 10(j) of the Endangered Species Act of 1973, as amended. The Yellowfin madtom once likely inhabited many of the lower gradient streams of the Tennessee River basin upstream of Chattanooga, Tennessee. Presently, populations are confined to only three stream reaches in the Tennessee River Valley. This action is being taken in an effort to re-establish the yellowfin madtom within its historic range.

Significance: Agency Priority

Legal Authority: 16 USC 1531 et seq; PL 99-625

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service is proposing to amend the Translocation Regulations for southern sea otters, a threatened species of marine mammal. Regulations were promulgated for the translocation of southern sea otters to San Nicolas Island pursuant to PL 99-625. The proposed changes would address certain technical problems identified during the first year of the translocation concerning the age and number of animals released at any one time, the number of animals with implanted radio transmitters, the season for capture, and the retainment of animals in temporary holding pens. The changes are expected to promote survival and reduce dispersal of the translocated otters.

1146. ● SEQUOIA AND KINGS CANYON NATIONAL PARKS: FISHING REGULATIONS

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 7.8

Legal Deadline: None

Abstract: The proposed rulemaking would revise the Parks' fishing regulation. The changes would simplify existing fishing regulation, maintain the existing variety of recreational fishing opportunities, help restore the natural distribution and abundance of native species, help retard expansion of introduced species, and open most streams to fishing which are currently closed. Anglers would have to be able to identify fish they kept, and in some areas they would be required to use single barbless hooks.

Section 8 of the Big Cypress National Preserve Addition Act directs the Secretary of the Interior to promulgate regulations governing non-Federal oil and gas development in the (cont)

Abstract: Several sections of 36 CFR Part 9, Subpart B contain ambiguous language which has caused confusion in interpreting the existing regulations. The NPS wants to make technical revisions to clarify requirements for both applicants and the Service. Also, the existing regulations exempt two classes of operators from compliance. Because of these exemptions, the regulations apply to only 35% of the existing operations resulting in avoidable impacts to park resources and visitor values from unregulated operations. Finally, the Service intends to revise the existing regulations to incorporate Congressionally mandated requirements and timetables governing nonfederal oil and gas development in the Big Cypress National Preserve Addition. Examples of such revisions include: making the regulations applicable to all oil and gas operations within all units of the National Park System; updating terms for consistency with existing policies, practices, and laws; removing the monetary ceiling and floor on bonds and security deposits so that bonds may be calculated and posted commensurate with reclamation costs; revising sections of the regulations to make them consistent with the enabling (Cont)

1150. MANAGEMENT OF MINERAL DEVELOPMENT ASSOCIATED WITH MINING CLAIMS

Significance: Agency Priority

Legal Authority: 16 USC 1901 et seq Mining in the Parks Act of 1976; 16 USC 1 et seq NPS Organic Act; 30 USC 21 et seq Mining Law of 1872

CFR Citation: 36 CFR 9, Subpart A

Legal Deadline: None

Abstract: The existing regulations at 36 CFR Part 9, Subpart A, promulgated in January of 1977, contain several provisions that are either outdated or have proven difficult to understand, enforce and comply with. Most notable is a provision regarding the use of water in connection with mining claims within National Park System units. The current language creates a "catch 22" for miners seeking to use water in connection with their claims. In order to use water in a park, a miner must have perfected water right. However, to obtain a perfected water right, a miner must use water. Herein lies the "catch 22." The National Park Service (NPS) would like to rectify this dilemma through a rule change that would eliminate the perfected water right language while at the same time preserve the Service's ability to protect water quality and quantity. Additional changes sought by the NPS are as follows: Several sections of the regulations refer to a surface disturbance moratorium (mandated by the Mining in the Parks Act of 1976, 16 USC 1901 et seq.) which expired in 1980. Other sections include transitional procedures used temporarily in implementing the regulations.

1151. MINERALS MANAGEMENT: NONFEDERAL RIGHTS OTHER THAN OIL AND GAS

Significance: Agency Priority

Legal Authority: 16 USC 1 et seq; 31 USC 9701; 5 USC 301

CFR Citation: 36 CFR 9, Subpart C

Legal Deadline: None

Abstract: Extensive nonfederal mineral rights exist within units of the National Park System. The Service presently regulates only nonfederal oil and gas activities occurring in those units. Mineral activities, other than those associated with nonfederal oil and gas, are occurring in approximately 13 units of the System. There are also 7 additional units in which nonfederal mineral development is currently proposed or has recently been proposed. The Service is charged by Congress to ensure that the development of nonfederal mineral rights within park boundaries is consistent with the purposes for which the units were established. The proposed regulation would establish procedures and standards governing nonfederal mineral development, other than nonfederal oil and gas, in a manner that protects affected park units until such time that the Service has sufficient funds to acquire the mineral right.

Legal Authority: 16 USC 470a; 16 USC 470dd

CFR Citation: 36 CFR 79

Legal Deadline: None

Abstract: This rule fulfills the Secretary of the Interior's responsibility to issue regulations on the disposition, exchange and curation of federally owned and administered prehistoric and historic archeological artifacts and associated records recovered under the Antiquities Act of 1906, the Reservoir Salvage Act of 1960 (as amended by the Archeological and Historic Preservation Act of 1974), Section 110 of the National Historic Preservation Act of 1966 (as amended) and the Archeological Resources Protection Act of 1979. The regulation will establish (a) minimum standards for repositories that provide long-term curatorial services; (b) guidelines for Federal agencies for entering into contracts and agreements with repositories and other parties for the care and management of collections; (c) guidelines for access to,

loan of and use of collections; and (d) guidelines for the exchange and ultimate disposition of collections.

Legal Authority: 16 USC 3 et seq NPS Organic Act; 16 USC 1901 et seq Mining in the Parks Act of 1976

CFR Citation: 36 CFR 9, Subpart A

Legal Deadline. None

Abstract: The intent of this current rulemaking is to explain that mineral development on mining claims within the boundaries of units of the National Park System is governed by regulations at 36 CFR Part 9, Subpart A without regard to whether the claim is patented or how the claim is accessed. This rulemaking also explains the relationship of the 36 CFR Part 9, Subpart A regulations to those governing access in Alaska in 43 CFR Part 36. This rulemaking is necessary because confusion exists in the mining community in Alaska as to the scope of these regulations due to a regulatory provision that was contained at 36 CFR Part 13.15(d)(1) that exempted operators from compliance with the 36 CFR Part 9, Subpart A regulations if the operators could access their patented claims without crossing federally owned parklands. Because there was no legal basis for such an exemption in either the Mining In The Parks Act or the Alaska National Interest Lands Conservation Act of 1980, the Department eliminated the exemption when it promulgated its regulations at 43 CFR Part 36.

Abstract: The proposed regulation would establish Bureau-specific solicitation provisions, contract clauses and prescriptions for their use. These are necessary to supplement and implement the Federal Acquisition Regulation and the Department of the Interior Acquisition Regulation. This will provide standard contractual language for provisions and clauses not otherwise available in the Federal or Interior regulations that are needed by our operational contracting activities. This action should result in cost savings as this development and standardization will relieve the individual contracting activities of the responsibility of developing their own.

Abstract: The proposed rule revision will resolve problems encountered with existing regulations published almost ten years ago. Revisions will reduce time and resources required to process petitions, clarify terms and definitions, interpret criteria, add a process whereby groups may withdraw a petition, improve the appeal process and respond to changing conditions. The revised rule will be more cost effective for the Department and Indian groups petitioning for Federal acknowledgment. The proposed revisions will be published taking into consideration ten years of experience with the regulations. Revisions will reflect recommendations received from the Congress, Indian groups and tribes, other Federal agencies and national organizations.

Legal Authority: 92 Stat. 1660

CFR Citation: 25 CFR 18

Legal Deadline: None

Abstract: This rulemaking action would permit the Field Solicitor, Pawhuska, Oklahoma, to determine the heirs, devisees and/or legatees of estates under the jurisdiction of the Osage Agency, consisting of Osage headright interest, real estate on which restrictions against alienation have not been removed, and/or funds on deposit at the Osage Agency, all of which do not exceed a valuation of $10,000 on the date of death of a decedent, when requested in writing by one or more of the heirs, devisees and/or legatees; provided, that a court of competent jurisdiction has not proceeded to administer or probate the estate. The administration of such estates by the Field Solicitor would alleviate the necessity of the employment of an attorney by the beneficiaries, approval of the will pursuant to 25 CFR Part 17, and the filing of administration or probate proceedings in State Court. Because of the size of these estates, it is financially impractical for the beneficiaries to employ attorneys for that purpose.

Abstract: The Bureau is amending existing Financial Assistance and Social Services Program regulations to further define the adult care services provided to Indian people. These proposed regulations define the extent of the program, establish eligibility requirements, and establish adult care services as a social services program separate and distinct from the general assistance program. The revision is

needed to specifically define the Bureau's role in the provision of institutional and in-home care to Indian adults who are mentally or physically handicapped or otherwise disabled. The Bureau is also amending miscellaneous assistance provisions to conform with the congressional directive in Public Law 98-473. Miscellaneous assistance will be revised and defined as burial assistance. Emergency assistance previously provided under miscellaneous assistance was transferred to general assistance by revision of 25 CFR Part 20(c) on September 30, 1985.

1195. APPEALS FROM ADMINISTRATIVE ACTIONS

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9

CFR Citation: 25 CFR 2

Legal Deadline: None

Abstract: The present administrative appeal regulations are ambiguous and misleading. It is difficult to tell what issues may be appealed and to whom the appeal should be sent. Most deadlines are uncertain. Those that are certain are often unrealistic. It is also unclear when a final decision will be rendered by the Interior Board of Indian Appeals and when it will be rendered by the Assistant Secretary for Indian Affairs. Alternatives will be developed by reviewing the existing appeal regulations of other agencies.

Consideration will be given to specifying which types of appeals go to the Assistant Secretary and which to the Board. The alternative of providing for the Assistant Secretary to make a case-by-case decision whether or not to refer the matter to the Board will also be considered. The primary benefit should be reduced frustration for both appellants and the BIA officials who handle the appeals. The greatest cost may be that both appellants and BIA officials may have to comply with more specified procedures and meet more deadlines in order for the system to work.

Significance: Agency Priority

Legal Authority: 25 USC 2; 25 USC 9; 25 USC 13

CFR Citation: 25 CFR 11

Legal Deadline: None

Abstract: The present regulations contain a very incomplete criminal code that does not cover many areas of the law that are usually in the laws of the State where the reservation is located. The current regulations also contain very sketchy provisions on criminal and civil procedure. It is proposed to update the sections on criminal offenses, and essentially create new sections on criminal procedures, domestic relations, probate proceedings, appellate proceedings and juvenile proceedings. This will provide the Courts of Indian Offenses with more complete and up to date procedures and rules. Courts will have a six month period from the date of publications of the final rule to the effective date in which to revise their court codes. It is not anticipated that this revision will have any effect on the annual case load for these courts or require additional staffing. Therefore, the initiation of these rules should not result in additional costs.

1200. PREPARATION OF ROLLS OF INDIANS

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9; PL 100-139

CFR Citation: 25 CFR 61

Legal Deadline: Final, Statutory, October 26, 1988.
One year from date of enactment for completion of the tribal membership roll.

Abstract: This rulemaking action is being taken to amend the regulations contained in 25 CFR Part 61. Part 61 contains general enrollment procedures which can be made specifically applicable in the preparation of a particular roll by the Secretary by amending section 61.4 to include the qualifications for enrollment for that particular roll. Under the Cow Creek Band of Umpqua Tribe of Indians Distribution of Judgment Funds Act of 1987, the Secretary has been directed to prepare certain rolls of Cow Creek Indians to be used in the implementation of the Act. The proposed amendment is, therefore, to make the procedures contained in Part 61 applicable to the preparation of the Cow Creek rolls by adding in section 61.4 the qualifications for enrollment for each of the rolls to be prepared.

Significance: Agency Priority

Legal Authority: 5 USC 301; 25 USC 476; 25 USC 13; 25 USC 2; 25 USC 9

CFR Citation: 25 CFR 89.40 to 89.46

Legal Deadline: None

Abstract: The Bureau of Indian Affairs proposes to revise the rule concerning the circumstances under which the Bureau of Indian Affairs, in the performance of the Federal Government's trust responsibility to Indian tribes, may, in its discretion, provide Departmental funds to an Indian tribe or other Indian organization for the payment of a private attorney's legal services. The proposed revisions would not change the underlying policy of the current rule which is to pay for private counsel to represent Indian tribes only in exceptional circumstances. The principal changes involve representation in child custody proceedings, services of tribal court personnel, and non-litigation services. The proposed revision would also provide that when trust resources are involved, tribes and individual Indian allottees are eligible to apply for and receive federally appropriated funds under 25 CFR 89.

Legal Authority: 5 USC 301

CFR Citation: 25 CFR 102

Legal Deadline: None

Abstract: This program was transferred to the Bureau of Indian Affairs in the 1950's and is currently inactive. There have been no funds appropriated for the program; therefore, this part is proposed for removal. The terms and conditions of loans of cattle by the United States Government to tribes, tribal corporations or tribal members were prescribed in 25 CFR 102. The loans consisted of cattle repayable in kind or assignment of cattle under specific agreements.

Additional Information: In May 1982, the District Court for the District of Arizona invalidated the regulation of 25 CFR 167 and ordered the Bureau to publish new regulations. The Bureau published interim regulations on Hopi partitioned lands on September 8, 1982. During the past year several meetings have been held with the Navajo Tribe to obtain concurrence to include Navajo partitioned land in the regulations. The Navajo Tribe expressed the desire for separate regulations and the Bureau has drafted a new regulation for Navajo Partitioned Land within the existing 25 CFR Part 167.

1205. RIGHTS-OF-WAY OVER INDIAN LANDS

Legal Authority: 5 USC 301; 25 USC 323 to 328

CFR Citation: 25 CFR 169

Legal Deadline: None

Abstract: The Bureau of Indian Affairs intends to amend several sections of its rights-of-way regulations which impose a variety of specific requirements on grantees of rights-of-way over Indian lands. These requirements were intended to implement public laws enacted around the turn of the century which authorized the Secretary of the Interior to issue rights-of-way for various specific purposes. In 1948 Congress gave the Department comprehensive authority to grant rights-of-way for any purpose or any term of years without the antiquated restrictions of the older statutes. The regulations continue to reflect the old requirements and the result has been inconsistent application of the 1948 Act. The removal or revisions of these sections would end that practice.

Significance: Agency Priority

Legal Authority: 43 Stat. 476, Sec 5; 45 Stat. 210; 45 Stat. 211; 5 USC 301

CFR Citation: 25 CFR 177

Legal Deadline: None

Abstract: The Bureau of Indian Affairs is amending the pertinent sections of the regulations governing charges and costs assessed the electric power customers for the electric power, energy and associated electric power services provided by the San Carlos Indian Irrigation (Project), Arizona. The purpose of the regulatory amendments is to increase the costs to the public for the services provided by the electric power division of the Project. The proposed rules increase the electric power assessment rates in the residential and general service rate schedules. This action causes the generation of needed additional revenues for the Project. The increased assessment rates reflect the increased operating costs associated with labor, equipment and supplies. The electric power bills for service under the residential and general rate schedules will be increased by approximately 12.4 percent.

1219. SMALL TRIBES GOVERNMENTAL ASSISTANCE GRANT PROGRAM

Significance: Agency Priority

Legal Authority: 25 USC 450; 25 USC 13

CFR Citation: 25 CFR 279

Legal Deadline: None

Abstract: This is a new program which will provide grants to small tribes to enable them to establish, improve or maintain basic governmental functions. This grant program will provide resources needed to allow small tribes to improve their capacity and ability to govern. The program also represents a refocus or redirection of activities previously conducted under the Self-Determination and Small Tribes Core Management Grant Programs. Therefore, Part 278 is proposed for removal from 25 CFR Subchapter M.

Legal Deadline: None

Abstract: The Minerals Management Service (MMS) published new oil and gas product valuation regulations in the Federal Register on January 15, 1988 (53 FR 1184 and 53 FR 1230). If a lessee has a non-arm's-length contract or has no contract for processing or transportation of oil or gas, the new regulations provide for an allowable deduction from royalty payments based upon the lessee's reasonable actual costs during the reporting period. These actual cost deductions allow the lessee to deduct operating and maintenance expenses, overhead, and at the lessee's option, either depreciation plus a return on undepreciated capital investment in the processing plant or transportation system, or a fixed cost equal to the initial depreciable investment multiplied by a rate of return. An amendment is needed to the regulations to establish the method to be used to determine the cost of capital, i.e., rate of return, to be applied to the lessee's investment in a processing plant or transportation system.

CFR Citation: 30 CFR 206

Legal Deadline: None

Abstract: The Minerals Management Service (MMS) published final revised regulations governing the valuation of gas from Federal leases onshore and on the Outer Continental Shelf and from Indian Tribal and allotted leases in the Federal Register on January 15, 1988 (53 FR 1230). The proposed gas valuation provisions of section 206.153, in part, govern the determination of value in situations where the lessee's contract for the sale of gas prior to processing provides for the value to be determined based upon a percentage of the purchases proceeds resulting from processing the gas. However, the inclusion of these percentages-of-proceeds contracts under section 206.153 has created unreasonable burdens on lessees. Consequently, MMS is proposing to amend its regulations to provide for the valuation of gas under percentage-of-proceeds contracts to be under the unprocessed gas valuation standards of section 206.152, rather than section 206.153.

Abstract: Existing regulations governing the valuation of geothermal resources provide insufficient guidance for the valuation of geothermal resources utilized to generate electricity in a lessee-owned power plant. Consequently, the Minerals Management Service has issued a report entitled "Valuation of Federal Geothermal Resources--Electrical Generation" which describes a "geothermal netback procedure" to value these "no sales" resources. An amendment is needed to the existing regulations to provide regulatory guidance after receipt and consideration of comments from the public to the existing geothermal netback procedure.

Significance: Regulatory Program

Legal Authority: 43 USC 1339

CFR Citation: 30 CFR 230

Legal Deadline: None

Abstract: This rulemaking is needed to add new regulations covering recoupment and refunds of excess payments made under Federal offshore mineral leases which are subject to section 10 of the Outer Continental Shelf Lands Act of 1953 (OCSLA), 43 USC 1339. This rule would establish requirements and guidelines for crediting (recouping) excess payments of royalties, rentals, bonuses, or other amounts against a current or future payment obligation or refunding such excess payment to any person lawfully entitled to receive a refund or credit for an overpayment made under an offshore lease. The new regulation is intended to lessen confusion on the part of payors, operators, and the Minerals Management Service.

Abstract: Payors who appeal a bill for payment of additional royalty, rents, bonuses, penalties, or other assessments, are required by the existing appeal regulations to submit payment of the billed amount or to post a bond in an amount adequate to indemnify the lessor from loss or damage. However, some bills for payment that have been appealed have been neither paid nor secured by an acceptable surety. An amendment to the existing regulations is needed to establish a requirement that payment must be made or that an acceptable surety must be posted within a specified period of time as a condition for acceptance of the appeal for consideration by the Director, Minerals Management Service (MMS). An amendment is also needed to permit the posting of letters of credit, in addition to bonds, in accordance with current MMS practice.

Abstract: Amendments to the Department of the Interior (DOI) Air Quality regulation for oil and gas operations will be proposed for all Outer Continental Shelf (OCS) areas. The changes would update requirements and consider the need for current information collection burdens. and provide additional safeguards for those pollutants which could be critical to air quality in areas adjoining the OCS. A determination of potential costs and benefits cannot be made until the final rulemaking has been prepared for RIN 1010-AA61, dealing with amendments to the DOI Air Quality regulation for oil and gas operations adjacent to the State of California. Considerable information has been developed during the negotiations conducted to implement that rulemaking. There have also been revisions to the related Environmental Protection Agency regulations which will affect both of these rulemakings. Timing, content, and format for this rulemaking for all OCS areas will not

be determined until completion of the rulemaking RIN 1010-AA61.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.210

Legal Deadline: None

Abstract: The rules at 30 CFR Part 250 which govern oil and gas and sulphur operations in the OCS will be revised to address in greater specificity training requirements for personnel engaged in oil, gas, and sulphur drilling, development, and production operations in the OCS. Training requirements were addressed in a proposed rule to consolidate into one document the rules governing oil and gas and sulphur operations in the OCS which was published on March 18, 1986 (51 FR 9316). The training provisions of that proposed rule have been revised, updated, and consolidated under a new Subpart O, Training. Other alternatives considered were not revising the regulations and revising only those regulations identified by industry. Promulgation of the regulation is not expected to result in costs significantly more than those incurred through the unregulated use of good commercial practices.

Abstract: The rules at 30 CFR 250 which govern oil and gas and sulphur operations in the Outer Continental Shelf (OCS) will be revised to address sulphur exploration, development, and production operations with more specificity. Sulphur operations are currently addressed through rules applicable to oil, gas, and sulphur and through OCS Order No. 10, Sulphur Drilling Procedures, issued by the Gulf of Mexico OCS Region. Comments received as the result of the publication on March 18, 1986 (51 FR 9316), of a proposed rule to consolidate rules governing oil, gas, and sulphur operations in the OCS included recommendations for the development of regulations which treat sulphur operations in the OCS with greater specificity. Other alternatives considered were not revising the regulations. Promulgation of the regulation is not expected to result in costs significantly more than those incurred through the unregulated use of good commercial practices.

1229. AIR QUALITY - OFFSHORE CALIFORNIA

Significance: Regulatory Program

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.47

Legal Deadline: None

Abstract: Amendments to the DOI Air Quality regulation for oil and gas operations will be proposed for Outer Continental Shelf areas adjacent to California. The changes would provide additional safeguards for those pollutants which could be critical to air quality in the region. The costs have been determined to have a net present value of approximately $25M to the regulated industry; the net benefits have not been quantified but would be a reduction in any effect of emissions from OCS operations on the ozone levels in adjacent onshore areas. This may be expected to yield cost reductions in health services and other related areas. The DOI has conducted a conflict assessment to determine the likelihood of the interested and affected parties being able to reach an agreement on an air quality regulatory program. If the affected parties involved can develop a mutually agreeable set of requirements, then DOI will initiate rulemaking based on that agreement.

Abstract: Proposes the desirability of new regulations to govern lease issuance on the Outer Continental Shelf (OCS) for minerals other than oil, gas, and sulphur under the authority of the OCS Lands Act; and requests comments and recommendations from interested parties. Legal Authority: 43 USC 1334

Legal Deadline: None

Abstract: The rules at 30 CFR 250.126 on the manufacture of safety and pollution-prevention equipment (i.e., surface and subsurface safety valves) are being amended. The amendment would update the American National Standards Institute/American Society of Mechanical Engineers (ANSI/ASME) SPPE-1 standard from the 1985 edition to the 1988 edition and allow compliance with either the updated version of the ANSI/ASME SPPE-1 quality assurance (QA) program (1988 edition) or the proposed American Petroleum Institute (API) QA program (API Spec Q1 in combination with API Specs 14A and 14b). Other alternatives considered were not to amend the rule and to continue using ANSI/ASME SPPE-1 as the only type of certification for the QA program. The costs to lessees under the API program or the updated ANSI/ASME SPPE-1 program are not expected to be significantly different than the costs under the current program. If there is any cost difference, it is expected to be a reduction in cost since the use of the API program is an option to the use of the ANSI/ASME SPPE-1 program. Lessees would not be expected to choose the use of the more expensive of the approved QA programs.

Abstract: There are no provisions in current Minerals Management Service regulations which provide a mechanism for remedy of unlawful discrimination in Outer Continental Shelf (OCS) employment. Rules would be developed to provide a process whereby persons who believed they had been denied employment because of unlawful discrimination would have a forum. These rules would implement the purposes of section 604 of the OCS Lands Act Amendment of 1978. Alternatives considered are no action, issuance of a policy statement and no rules, and proposal of extensive affirmative action rules similar to those rescinded in the past. Very few complaints are expected to arise as there has been no evidence of discrimination to date. Therefore, costs are expected to be minimal. Benefits would be the assurance that the requirements of section 604 are being fully carried out.

Abstract: This rulemaking is needed to redesignate the Bureau of Land Management regulations at 43 CFR 3160 applicable to production reporting and accounting to Minerals Management Service regulations at 30 CFR 216 to reflect the transfer in functions. Also, a requirement will be added for unique information needed to report information by oil and gas well.

Significance: Regulatory Program

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250, (Revision)

Legal Deadline: None

Abstract: The rules at 30 CFR 250 will be revised by consolidating regulations, OCS Orders, Notices to Lessees, and related offshore operating requirements into a unified body of regulations; eliminating burdensome and counterproductive requirements; adding performance standards; and simplifying and streamlining these rules to the maximum extent practicable. Other alternatives considered were not revising the regulations and revising only those regulations identified by industry.

Significance: Regulatory Program

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 280

Legal Deadline: None

Abstract: Proposes the desirability of new regulations to govern exploration on the Outer Continental Shelf (OCS) for minerals other than oil, gas, and sulphur under the authority of the OCS Lands Act; and requests comments and recommendations from interested parties. Alternative is to specify requirements in a permitting document rather than in regulations. Promulgation of regulations is not expected to result in costs significantly more than those incurred through the unregulated use of good commercial practices. The rules will require that hard mineral operations will be conducted in a manner which will ensure safety and protection of the environment.

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 700.11; 30 CFR 870.11

Legal Deadline: None

Abstract: Section 528(2) of the Surface Mining Control and Reclamation Act of 1977, exempted from the requirements of the Act "the extraction of coal for commercial purposes where the surface mining operation affects two acres or less." On May 7, 1987, the President signed PL 100-34 which repealed the exemption. The rule action would remove the exemption provision from the regulations at 30 CFR 700 and 30 CFR 870.

The issue of the relationship between section 522(e) and mining related subsidence will be addressed in the proposed rulemaking. The rulemaking will seek to clarify whether OSM's rules have the effect of prohibiting underground mining operations related to the features and facilities within the distance limitations enumerated in section 522(e) of the Act.

The proposed rulemaking will address the issue of what is a "Surface Impact" incident to an underground mine.

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 816.74; 30 CFR 817.74

Legal Deadline: None

Abstract: The regulations at 30 CFR 816.74/817.74 allow, with the approval of the regulatory authority, the disposal of excess spoil through placement on preexisting benches provided that the standards set forth in sections 816.71/817.71 are met. These standards contain the general requirements for the disposal of excess spoil. Based on the draft study entitled "Encouraging Abandoned Mine Land Reclamation via Remining: A Federal, State and Industry Initiative" and comments received, OSMRE has reviewed these regulations. Based on this review, OSMRE has concluded that excess spoil, when placed on the benches is similar to backfilling and grading of a highwall and bench and therefore could be regulated under the backfilling and grading regulations in section 816.102/817.102, in lieu of the "excess spoil" standards while maintaining the same environmental and safety standards. The proposed rule would apply the backfilling and grading requirements to disposal of excess spoil on preexisting benches.

Abstract: Cases have been identified where coal mine operators have also contracted with a State to conduct reclamation of abandoned mine land. This reclamation is conducted under the Abandoned Mine Land (AML) Reclamation Program and is funded by fees paid by coal operators on productions. Under the proposed rule, a reclamation contract could not be let to an operator with certain outstanding violations of the Surface Mining Control and Reclamation Act. The violations

would include outstanding cessation orders and unpaid civil penalties and abandoned mine reclamation fees. The rule action is being initiated to prevent operators in violation of SMCRA from benefiting from the Act by receiving contracts funded under the AML program.

Abstract: The Surface Mining Control and Reclamation Act (the Act) doesn't specifically define the point at which regulatory jurisdiction ends. Therefore, a regulation is needed to define that point. The regulation in question is specific to the responsibilities of the Department of the Interior, OSMRE, and implements the Act. No other Federal agency is authorized to undertake this action on behalf of the Department. OSMRE has never addressed this issue in a rulemaking. The regulatory authority will issue a written determination ending regulatory jurisdiction under the Act when the following conditions apply. For permanent program operations, it proposed to terminate regulatory jurisdiction under the Act at the time of final bond release or when all regulatory program requirements have been met. For initial program operations, regulatory jurisdiction will end when all requirements of the regulatory program have been met.

1260. PERMANENT REGULATORY PROGRAM DEFINITION OF SUPPORT FACILITIES

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 701.5

Legal Deadline: None

Abstract: The Office of Surface Mining Reclamation and Enforcement (OSMRE) proposes to remove the definition of "support facilities" from its regulations. In reviewing the decisions of regulatory authorities during the time periods when no definition was in effect (prior to the 1983 introduction of a definition and since the 1985 suspension of the definition), OSMRE found that the identification of facilities that support surface coal mining operations has been conducted in a manner consistent with the intent of the Surface Mining Control and Reclamation Act (SMCRA). Therefore, OSMRE has determined that a definition of "support facilities" is not needed in order to ensure that such facilities are regulated under SMCRA. This proposed rule would impose only minor costs to the coal industry since relatively few operations will be affected.

1261. EXEMPTION FOR COAL EXTRACTION INCIDENTAL TO THE EXTRACTION OF OTHER MINERALS

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 702

Legal Deadline: None

Abstract: The Surface Mining Act exempts mining operations that extract other minerals where coal does not exceed 16 2/3 percent of tonnage of minerals removed for sale. Evidence of abuse of this exemption has been identified. Proposed regulations would establish procedures to administer the exemption. The costs of compliance for these operations are undetermined. Benefits would be to the public in terms of protection of health, safety, and environment from detrimental effects of mining. Legitimate noncoal operators would be able to compete fairly with those operations now using the exemption to undersell their legitimate competitors.

1262. REQUIREMENTS FOR COAL EXPLORATION--PERMIT REQUIREMENTS FOR EXPLORATION REMOVING MORE THAN 250 TONS OF COAL

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 772.11; 30 CFR 772.12; 30 CFR 772.14; 30 CFR 815.2; 30 CFR 942.772

Legal Deadline: None

Abstract: The proposed rule would comply with a court order of the District Court for the District of Columbia which remanded OSM reporting requirements for surface coal exploration. The proposed rule would revise existing requirements to include the filing of a notice by all individuals or operators planning coal exploration, and specify the information required on applications for coal exploration. The obligation to report is a standing requirement of existing regulations. This rule would expand the requirement to report. Because affected States already have the expanded requirement in place, no additional costs or benefits are expected to be associated with the rule.

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 736; 30 CFR 740; 30 CFR 750

Legal Deadline: None

Abstract: The proposed rule would govern the collection by OSMRE of application fees for permits to conduct surface coal mining and reclamation operations, and for permits to conduct coal exploration, as well as fees for processing mining plans and for midterm review of surface coal mining and reclamation permits. Recipients of these services would be required to reimburse OSMRE for costs incurred in providing the services.

Abstract: The proposed rule would implement court approved settlements involving OSMRE, the State of New Mexico, and the National Coal Association/American Mining Congress Joint Committee in regard to final Indian lands regulations. The rule would delete the reference to the American Indian Religious Freedom Act and revise the requirements addressing inclusion of surface coal mining and reclamation provisions in Indian leases.

Abstract: The existing rules pertaining to the requirements for permit and permit processing, permit applications and civil penalties are to be amended. The proposed revisions expressly establish an affirmative obligation on permittees and permit applicants to pay uncontested penalties and abate uncontested violations. Permittees and applicants for permits must meet these obligations prior to the issuance of a permit and as a condition of continued operation under existing permits.

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 778

Legal Deadline: None

Abstract: The Office of Surface Mining Reclamation and Enforcement is proposing to revise 30 CFR 778 which specifies what information must be furnished in a surface coal mining permit application. The permit application requirements are being revised in order to conform them to proposed revisions in 30 CFR 773 which govern the issuance of surface coal mining permits. The proposed revisions to 30 CFR 778 will require the submission of more detailed information on the ownership and control of permit applicants. It is not anticipated that the revision will impose a substantial financial burden on those applying for permits.

Abstract: The rule sets a life of permit as the parameter for the determination of the probable hydrologic consequences (PHC) of the proposed operation upon the quality and quantity of surface and groundwater under seasonal flow conditions for the proposed permit and adjacent areas. The rule repromulgates the suspended 1983 rules with an expanded preamble and record to support the rule language. This was requested by the Court as a result of litigation. The rule will result in lower costs to industry and a reduction in their information collection requirements.

Abstract: This rule is being proposed in response to an order of the U.S. District Court remanding several aspects of OSM regulations concerning revegetation which has inadequate support in the administrative record. OSM will propose rules concerning replanting of trees as a normal husbandry practice, the period for revegetation success, and rills and gullies control as a normal conservation practice. Costs and benefits of this action have not been determined since the final scope of the rule is not certain. This analysis will be based in large part on public comments received on the proposed rule.

Abstract: The regulation will address the issue addressed in a district court challenge to OSM regulations. The rule will address the problem of combination spillways and will specify a spillway configuration that must be installed to safely pass the designed precipitation event. In some cases, the rule may allow one spillway to serve as a combination principal and emergency spillway. The proposed action may reduce costs in those cases where one spillway will safely pass the design precipitation event with no corresponding decrease in environmental protection.

Abstract: These regulations are being revised as ordered by the District Court for the District of Columbia. They will amend OSM's permanent program performance standards with respect to prime farmlands by allowing last cut lakes to remain after mining is complete only where they are beneficial or necessary to agricultural activity and allowing for a support facility exemption only for underground mines. These changes are mandated by court order, thus, no alternatives to this action are being considered.

Abstract: This rule will clarify that OSMRE will not require the assessment of civil penalties for notices of violation or cessation orders issued to a permittee who has secured an improvidently issued permit from a State regulatory authority. OSMRE distinguishes this type of violation from an environmental violation, which would be treated differently. However, present rules do not address this type of violation, necessitating this rulemaking.

Abstract: The proposed rule would amend the definition of the phrase "substantial legal and financial commitments" as required by a District Court decision in Round III of the present litigation on OSMRE's permanent program regulations. Abstract: The proposed rule would require operators of surface coal mining operations who operated during the initial regulatory program without a permit to cease mining until they secure a permanent program permit. Only operators who held initial program permits may continue to operate after the Secretary has approved a State regulatory program, if they have submitted an application for a permanent program permit. The proposed rule responds to a remand of previously proposed regulation, in which the U.S. District Court concluded that the rule was inconsistent with the statute.

Abstract: The proposed rule would provide guidance to OSMRE in its evaluation of State responses to ten day notices. It would provide that OSMRE must accept a State's response as constituting appropriate action to cause a violation to be corrected or showing good cause for such failure, unless that response is arbitrary, capricious, or an abuse of discretion under the State program. The rule would also provide a mechanism whereby a State could seek informal review within OSMRE of an initial decision to inspect a mine site when OSMRE rejects the State's response to the ten day notice. Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 870

Legal Deadline: None

Abstract: The present regulations require the weight of coal (for the purpose of calculating the tonnage upon which the AML fee is calculated) to be determined at the point of first sale. This weight includes not only that of the saleable coal, but also that of the extraneous material including the moisture content. Recent action by the Internal Revenue Service (IRS) issued a revenue-ruling for the Black Lung Tax to allow for the deduction of a moisture content allowance from the tonnage upon which the Black Lung Tax is collected. The IRS decision to make this change in its regulations was based on a Federal court decision, Taft Coal Co. v. U.S., 605 F. Supp. 366, (N.D. Ala. 1984). OSMRE proposes to change the existing regulations to create a standard moisture allowance which would be consistent with that allowed by the IRS for the Black Lung Tax program. Regulations dealing with the basis upon which a tax or fee is assessed should be consistent for administrative convenience and equity to the coal operator. Federal action is required since OSMRE is directly responsible for collecting the AML fee and for establishing the regulations promulgating (cont)

1330. NONDISCRIMINATION ON THE BASIS OF AGE IN PROGRAMS OR ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Legal Authority: 42 USC 6103

CFR Citation: 28 CFR 42, Subpart I, (New)

Legal Deadline: None

Abstract: This regulation will implement the Age Discrimination Act of 1975, as amended, in programs or activities assisted by the Department of Justice (DOJ). The statute, 42 USC 6103(a)(4), requires that Federal agencies providing Federal financial assistance promulgate implementing regulations consistent with the general regulations issued by the Secretary of Health and Human Services (HHS), and the statute provides that such agency regulations shall not be effective until approved by HHS. In 1980 the proposed rule was published for comment, modified, approved by the DOJ Office of Legal Counsel, and on November 10, 1980 a draft final rule was forwarded to HHS for approval. On July 13, 1984 HHS conditionally approved the draft regulation. On August 12, 1987 DOJ submitted to HHS a draft final regulation.

Legal Authority: 8 USC 1101; 8 USC 1184

CFR Citation: 8 CFR 214.2(b)

Legal Deadline: None

Abstract: The Immigration and Naturalization Service ("the Service") proposes to restrict the types of situations under which an alien may

apply for an extension of stay as a nonimmigrant visitor for pleasure (B-2). Faced with ever-increasing adjudications caseloads and with resources which fail to keep pace with those increases, the Service must continually seek ways to carry out its responsibilities in a more efficient manner. By limiting the situations under which a visitor for pleasure may seek an extension of stay, the Service will decrease the amount of resources which must be dedicated to this area and will be able to increase its efforts in other areas having higher priority.

Legal Authority: 8 USC 1103; 31 USC 9701

CFR Citation: 8 CFR 103.7

Legal Deadline: None

Abstract: The Immigration and Naturalization Service ("the Service") entertains numerous requests for Verification of Information from INS Service Records, via Form G-641. This form has been misused as a substitute document, while other INS documents are being prepared (i.e., I-94, I-551 or Certificate of Naturalization or Citizenship). Should an applicant need to have his or her status verified while waiting for one of these documents to be processed, and such verification can be satisfied by obtaining a copy of a document (certified if necessary), an FOIA/PA request can be made. If verification is needed to obtain a benefit and a copy will not suffice, the agency needing verification can make a direct request to the INS and it will be handled as appropriate. Discontinuing the use of Form G-641 will also eliminate the need to request Form G-350, Certification of Birth Data. Requests for this document are minimal since foreign-born children are issued an alien registration receipt card or a citizenship document by INS and no other form of identification should be necessary.

Abstract: The Immigration Reform and Control Act of 1986 (IRCA) imposes sanctions against employers who hire aliens not authorized to work. Since many of the nation's agricultural employers have become dependent upon such workers to meet production and harvesting needs, Congress created the Special Agricultural Workers (SAW) Program and the Replenishment Agricultural Workers (RAW) Program to provide permanent resident status to certain agricultural workers. To clarify the process through which employers can employ nonimmigrant seasonal and temporary agricultural workers, Congress moved agricultural employment from H-2 classification into a separate H-2A class, and incorporated a labor certification process into the statute. This interim rule establishes special H-2A regulatory criteria. It supplements the Department of Labor's rules covering the temporary agricultural labor certification process. This rule amends Service regulations relating therefore to temporary alien workers seeking classification under section 101(a)(15) (H) of the Immigration and Nationality Act.

1357. DISPLAY OF CONTROL NUMBERS

Legal Authority: 66 Stat. 173; 8 USC 1103

CFR Citation: 8 CFR 299.5

Legal Deadline: None

Abstract: A new Section 299.5 is being added to 8 CFR Part 299. The new section, titled Display of Control Numbers, will allow the Immigration and Naturalization Service (Service), to compile, in one centralized location within its regulations, a listing of all current Service public use forms and their respective control numbers as assigned by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act. The consolidated identification of public use forms will enable both Service officials and the public to easily identify those public use forms in current use by the Immigration and Naturalization Service.

Significance: Agency Priority

Legal Authority: 8 USC 1101 (Note); PL 99-603; 100 Stat. 3359

CFR Citation: 8 CFR 245a

Legal Deadline: None

Abstract: This proposed rule implements section 245A of the Immigration and Nationality Act ("ACT"), as amended by section 201 of the Immigration Reform and Control Act of 1986, PL 99-603 ("IRCA"). Section 245A(h) of the Act provides that, with certain exceptions, aliens granted lawful temporary resident status pursuant to section 245A(a) are not eligible for a period of five years after such grant to receive benefits from programs of financial assistance furnished under Federal law on the basis of financial need. The Attorney General is required by section 245A(h)(1)(A)(i) of the Act to identify such programs after consultation with other appropriate heads of the various departments and agencies of Government. This proposed rule implements such provision.

Legal Authority: 8 USC 1101 (a)(15)(B); 8 USC 1184

CFR Citation: 8 CFR 214.2(b)

Legal Deadline: None

Abstract: This notice announces the intent of the Immigration and Naturalization Service ("the Service") to set forth, in regulatory form, the special requirements for admission, extension and maintenance of status of nonimmigrant alien visitors for business and visitors for pleasure. Much of the Service's written policy relating to this subject is now contained in the Service's Operations Instructions at O.I. 214.2(b). Because it is more appropriate for interpretations and rules to be set forth in regulatory form, this information will become part of 8 CFR 214. In addition, the proposed rulemaking will clarify the criteria for according B-1 classification to members of certain occupations (such as participants in religious programs and members of foreign film crews). By issuing this advance notice, the Service is providing an opportunity to the public to submit comments and make suggestions at an earlier stage of the process. This will result in a proposed rule which is more comprehensive in its scope and more understandable to the public.

Abstract: Section 101(b) subsection 205 of the Department of Justice Appropriation Act, 1987 (PL 99-591) establishes the collection, payment, and remittance of a specific user fee for the Immigration inspection or preinspection of passengers (with certain exceptions) arriving in the U.S. aboard commercial aircraft or commercial vessels. Subsection 206 of PL 99-591 places the responsibility for physical custody of excludable aliens pursuant to former section 233 of the I & N Act of 1952, as amended on the INS. This proposed rule addresses this change from carrier responsibility to INS responsibility. This rule would also amend present regulations to conform to statutory deletions and amendments.

Abstract: This rule implements a new amendment to section 210 of the INA by deleting the entry cut-off date for eligibility to file applications under section 210 in the United States; and establishing standards and procedures for processing "preliminary applications" at designated ports of entry on the southern land border. This rule clarifies and makes various grammatical and technical amendments to the regulations governing the Special Agricultural Worker Program including changes necessitated by the new amendments to section 210. The rule defines the term "preliminary application"; deletes the limitation on the authority of District Directors to

deny applications at legalization offices; deletes the filing date requirement for eligible aliens apprehended prior to the application period; clarifies the provision concerning where appeals under Part 210 are to be filed; deletes the references to issuance of an Order to Show Cause and Warrant of Arrest in cases where the United States Attorney declines prosecution; clarifies the provision requiring notification of decisions to the applicant's representative; confirms that Special Agricultural Worker (CONT)

Abstract: Beginning November 2, 1987, the Bureau of Human Rights and Humanitarian Affairs (BHRHA) in the Department of State will no longer issue an advisory opinion for each request submitted by the Immigration and Naturalization Service. They will, however, respond to each case

notifying the INS of their disposition. This procedure modifies INS operating procedures/instructions (208.8e) and District Directors of the INS have been instructed to proceed to a final determination on an asylum request when BHRHA has indicated that no opinion will be provided. Asylum adjudicators have been instructed that in cases where they are unable to make a final decision without input from the Department of State, they are to pose specific questions which will be addressed by BHRHA.

1387. ● CERTIFICATION OF STATE GOVERNMENTS AS QUALIFIED DESIGNATED ENTITIES

Legal Authority: PL 99-603

CFR Citation: 8 CFR 245A

Legal Deadline: None

Abstract: The Immigration and Naturalization Service is exercising its option, relating to the INS cooperative agreement with qualified designated entities (QDEs) participating in the Service's legalization program, to request additional QDE applications from State governments and other certain similar entities. This action is being taken by the INS in an effort to reach more potential aliens seeking temporary residence under the Immigration Reform and Control Act of 1986 (IRCA), before the May 4, 1988 deadline.

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Labor.

ACTION: Semiannual agenda of regulations selected for review or development.

SUMMARY: This document sets forth the Department's Semiannual Agenda of Regulations which has been selected for review or development during the coming one-year period. The agenda complies with the requirements of both Executive Order 12291 and the Regulatory Flexibility Act.

DATES: The agenda includes all regulations which are expected to be under review or development between October 1988 and October 1989.

FOR FURTHER INFORMATION CONTACT: Roland G. Droitsch, Deputy Assistant Secretary for Policy, Office of the Assistant Secretary for Policy, Department of Labor, 200 Constitution Avenue, NW., Room S-2312, Washington, DC 20210, (202) 523-9058.

Note: Information pertaining to a specific regulation can be obtained from the Agency Contact listed for that particular regulation.

SUPPLEMENTARY INFORMATION: Executive Order 12291 and the Regulatory Flexibility Act require the semiannual publication in the **Federal Register** of an agenda of regulations.

Executive Order 12291 became effective February 17, 1981, and in substance requires the Department of Labor to publish an agenda, listing all the regulations it expects to have under active consideration for promulgation, proposal or review during the coming one-year period. It also requires the Department to conduct a Regulatory Impact Analysis for all "major" regulations being developed.

The Regulatory Flexibility Act became effective on January 1, 1981. It applies only to regulations for which a notice of proposed rulemaking was issued on or after January 1, 1981, and requires the Department of Labor to publish an agenda, listing all the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities" (5 U.S.C. 602). For any regulation that will have this impact, the Department must conduct a Regulatory Flexibility Analysis to gauge the economic consequences of the rule, and to analyze the availability of more flexible approaches for lightening the rule's regulatory burden on "small entities."

If a proposed regulation will not have a "significant economic impact on a substantial number of small entities," the Department of Labor must publish a certification to that effect at the time of the general notice of proposed rulemaking or at the time of the publication of the final rule. That certification must be accompanied by a succinct statement explaining the reasons for the agency's determinations.

As permitted by law, the Department of Labor is combining this publication of its agendas under the Regulatory Flexibility Act and Executive Order 12291.

The regulatory reform process, of which the Unified Agenda is a part, continues to be an extremely valuable aid in the development of better regulations by the Department. We believe that our regulatory reform program has resulted in improved regulatory management, more clearly written regulations and significantly less burdensome regulations.

Further improvement is certainly needed, and we are constantly seeking new and innovative approaches in pursuit of this goal. All interested members of the public are invited and encouraged to let Departmental officials know how our regulatory reform process can be further improved and, of course, to participate in and comment on the review or development of the regulations listed on the agenda.

The Department of Labor's next semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, will be published in April 1989.

Ann McLaughlin,

Secretary of Labor.

Abstract: The document proposes regulations to implement the Freedom of Information Reform Act of 1986, which requires agencies to promulgate regulations on a schedule of fees and on fee waivers, and Executive Order 12600, which requires predisclosure notification to submitters of confidential business information. The proposal also revises the existing DOL Freedom of Information Act (FOIA) regulations, which currently include interpretive material on FOIA exemptions, to limit the scope principally to procedural matters.

Abstract: Section 3(1) of the Fair Labor Standards Act requires the Secretary of Labor to issue regulations with respect to minors between 14 and 16 years of age ensuring that the periods and conditions of their employment do not interfere with their schooling, health, or well-being. The Secretary also is directed to designate occupations that may be particularly hazardous for minors between 16 and 18 years of age. Child Labor Regulation No. 3 sets forth the permissible industries and occupations in which 14 and 15 year olds may be employed. In addition, this regulation specifies the number of hours in a day and in a week, and time periods within a day that such minors may be employed. The nonagricultural hazardous occupations orders which prohibit the employment of minors in such occupations are also contained in 29 CFR 570. Changes in technology and job content over the years require a review of these regulations. In order to increase job opportunities for such minors, while maintaining essential protection for their well-being, modifications to these regulations may be needed. The Department has established a Child (cont)

Rules implementing Section 481 of the 1982 JTPA (29 USC 1781). The operational aspects of such rules need to be coordinated with the pending revisions to the Executive Order 11246 program

Abstract: These regulations cover nondiscrimination and affirmative action obligations of Federal contractors under Executive Order 11246, as amended, the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 2012), as amended, and Section 503 of the Rehabilitation Act of 1973, as amended. Proposed changes were published in the Federal Register on 12/28/79 and 2/22/80. The resulting final rule was published on 12/30/80 but its effective date was stayed pending review in accordance with President Reagan's Executive Order 12291 of 2/17/81. Subsequently, OFCCP published an ANPRM (7/14/81, supplemented 8/21/81) and a NPRM 8/25/81, supplemented 4/23/82). The NPRM also extended the suspension of the effective date of the 12/30/80 final rule. OFCCP's review of regulatory options continues, and includes consideration of proposed regulations to integrate the requirements of Section 481 of the Job Training Partnership Act of 1982 (29 U.S.C. 1781) with the Executive Order 11246 program.

Abstract: These regulations set forth the criteria used in the determination of the application of the Fair Labor

Standards Act exemption for "executive," "administrative," "professional" and "outside sales employees" from the minimum wage and overtime requirements of the Act. The existing regulation was targeted for review by the President's Task Force on Regulatory Relief. A final rule increasing the salary test criteria was published on 01/13/81 (46 FR 3010) and was scheduled to become effective on 02/13/81. On 02/12/81 (46 FR 11972) an indefinite stay of the final rule was published. On 03/27/81 (46 FR 18998) a proposal to suspend the final rule indefinitely was published with comments due by 04/28/81. As a result of numerous comments and petitions received from industry groups regarding the duties and responsibilities tests as set forth in the regulations, as well as recent case law developments, the Department concluded that a more comprehensive review of these regulations was needed and decided to reopen the comment period and broaden the scope of the review to include all aspects of the regulations. Abstract: This proposed rule would amend the Walsh-Healey Public Contracts Act regulations to provide an alternative regular dealer definition applicable to information systems integration businesses which bid on contracts to furnish the government fully operational information processing ("ADP") systems. The alternative definition would relieve potential contractors in this industry from having to physically maintain inventories from which their sales are made, a custom that is inconsistent with this industry's practices.

Abstract: These regulations govern labor standards applicable to federally funded or assisted construction contracts subject to the Davis- Bacon and Related Acts (as well as contracts subject to the Contract Work Hours and Safety Standards Act). The Department plans to implement provisions in these regulations that would permit contractors to expand their use of semi-skilled "helpers" on Davis-Bacon covered projects at wages lower than those paid to skilled journeymen. Revised final rules were originally published 05/28/82 (47 FR 23658), but were deferred on 07/26/82 (47 FR 32070) due to an injunction issued by the U.S. District Court. Although the U.S. Court of Appeals for the D.C. Circuit has since upheld most of the key provisions published in 1982, the district court injunction remains in effect against certain provisions dealing with helpers. The Department intends to implement the helper provisions in accordance with the decisions of the District and Appeals Courts. A revised proposal was published 08/19/87 (52 FR 31366), and the comment period was later extended to 11/18/87 (52 FR 38473).

Abstract: Certain provisions of Final Rules published April 1, 1987, have been challenged as being promulgated in violation of the APA. Those sections deal with collection of forfeited compensation from on-going benefits. In order to ensure that any doubt as to the procedural validity of the rules is laid to rest, the Department has taken two actions: 1) publishing an interim final rule which reinstates the affected sections without the language which has been challenged; and 2) a proposed rule with an invitation to comment, which in effect would reinstate the April 1, 1987 rule but would assure that any defects in the comment period are corrected.

Abstract: These regulations establish the terms and conditions, pursuant to section 14(c) of the Fair Labor Standards Act (FLSA), under which handicapped workers may be employed, under certificate, at wage rates less than those otherwise required by statute. The 1986 Amendments to the FLSA substantially revised section 14(c) to simplify worker certification by eliminating separate certification for more productive workers, multiple handicapped individuals, and those in evaluation or training and work activities centers. Abstract: This regulation sets forth restrictions on industrial homework and governs the issuance of certificates authorizing the employment of homeworkers in certain industries, pursuant to Section 11(d) of the Fair Labor Standards Act (FLSA). As originally issued, these regulations restricted the employment of industrial homework in seven industries: knitted outerwear; women's apparel; jewelry; buttons and buckles; gloves and mittens; handkerchiefs; and embroideries. The ban was removed on homework in the knitted outerwear industry by the Department on 11/9/81 following extensive hearings and public comment. This action was subsequently upheld by the District Court for the District of Columbia. However, on appeal the ban was reimposed 2/29/84 by the U.S. Court of Appeals for the District of Columbia Circuit. On 3/27/84 the Department published a proposed rule rescinding the ban on homework in the knitted outerwear industry only. In addition to soliciting comments on the proposed recission, the Department sought comments on various alternatives to such action (49 FR 11786). On November 5, 1984, a final rule was published lifting the ban on homework for employers (cont)

Abstract: The Immigration Reform and Control Act of 1986 contains certain labor standards requirements for foreign agricultural workers employed under the H-2A foreign agricultural worker program, as well as for U.S. workers hired by employers who utilize foreign agricultural workers. The standards relate to pay, working conditions, housing, transportation and recruitment. The Employment Standards Administration will issue regulations that incorporate the labor standards issued by the Employment and Training Administration and set forth procedures for enforcement of these labor standards. Abstract: The Immigration Reform and Control Act of 1986 requires employers of special agricultural workers (SAWs) to record and report information about the employment of these alien workers in seasonal agricultural services. The report to the Federal Government includes information such as the number of work days performed. The data reported will allow for estimates to be made in determining whether additional alien workers will be admitted as replenishment agricultural workers (RAWs). Each replenishment agricultural workers is entitled to receive a certificate from the employer regarding the number of work days such worker was employed in seasonal agricultural services. This certificate may be used by the worker in order to qualify for legalization.

Abstract: These regulations are being developed to implement the benefit provisions contained in Sec. 43 of the Airline Deregulation Act of 1978. The Act requires the Secretary of Labor to specify the percentage of prior salary which an "eligible protected employee" would receive as a benefit payment under the Act. An eligible protected employee is a person who has had at least 4 years of employment with a certificated air carrier as of October 24, 1978 and who loses his or her job during the ten years following such date in a bankruptcy or major employment contraction if and only if the Department of Transportation determines that the principal causes of such job loss was deregulation. On May 17, 1984 the U.S. District Court for the District of Columbia held that Section 43 of the Airline Deregulation Act was unconstitutional. On July 16, 1985, the U.S. Court of Appeals decided that the employee protection provisions of Section 43 were severable from the legislative veto provisions. The U.S. Supreme Court ruled on March 25, 1987 that the legislative veto provisions were unconstitutional but the first right-to-hire provisions were constitutional, therefore, rulemaking can proceed on the (Cont'd)

Abstract: This regulation sets out Reed Act requirements for States. It covers: restoration of Reed Act funds used to pay unemployment benefits; appropriation by the States and use of funds for administration; and disposition, reduced usage, and replacement of Reed Act-financed property. The regulation implements P.L. 97-248 and updates existing material issued as manuals. Alternatives being considered include: (1) Issuing a regulation, another type of directive, or nothing; (2) Limiting the scope of the regulation to areas involving compliance with Federal law or not limiting scope; and (3) which rules, if any, should be issued regarding the calculation of Reed Act balances, restorations of Reed Act funds, program income, and sales, other dispositions, and reduced usage of property acquired with Reed Act funds. Issuing a regulation will benefit grantees by reducing their uncertainty as to the applicable rules. No significant additional costs will result.

Abstract: Since 1981, the Congress has enacted major changes in the Federal Unemployment Tax Act (FUTA) and Social Security Act (SSA) with respect to advances to States for the payment of unemployment benefits and the repayment of such advances. A Notice of Proposed Rulemaking governing relief provisions only was published in the Federal Register on October 28, 1987. This proposed rule will address the accrual and repayment of interest associated with advances. States applying for advances will be given formal procedures and guidance to follow in the loan application and repayment process as well as the interest payment process. To date, UIPLs have been issued to SESAs describing the process.

Significance: Regulatory Program

Legal Authority: 8 USC 1182(a)(14)

CFR Citation: 20 CFR 656

Legal Deadline: None

Abstract: Experience in administering the regulations relating to the certification of immigrant aliens for permanent employment in the United States indicates that a number of changes should be made to these regulations. The proposed amendments would be intended to make labor certification process more efficient, to prevent abuse or manipulation of the labor certification process, to clarify some apparent ambiguities in the regulations, and to make the regulations easier to read. Before the Department of State (DOS) and the Immigration and Naturalization Service (INS) may issue visas and admit certain immigrant aliens to work permanently in the United States, the Secretary of Labor pursuant to section 212(a)(14) of the Immigration and Naturalization Act (INA) must certify to the Secretary of State and to the Attorney General that: (a) There are not sufficient United States workers who are able, willing, qualified and available at the time of the application for a visa and admission into the United States and at the place where the alien is to perform work; and (cont)

Abstract: In early 1987, the President proposed legislation for a new Worker Readjustment Program to respond to dislocations caused by plant closings, mass layoffs, international competition and technological change. The Congress is considering worker readjustment legislation as a replacement for the Job Training Partnership Act (JTPA) Title III program for dislocated workers. The Department anticipates enactment in 1988. The new program will incorporate several important new changes. Among these changes are: (1) institutionalizing a State rapid response capability, (2) changing delivery system to mandate the designation of substate grantees, (3) focusing on better resource utilization through reallotment and reallocation provisions, (4) greater emphasis on training in innovative features such as certificates of continuing eligibility and individual vouchers for training. In addition, greater emphasis will be placed upon coordination and linkages among major training and employment program components such as the public employment service, the UI and TAA programs.

Significance: Agency Priority

Legal Authority: Not Yet Determined

CFR Citation: 20 CFR 601; 29 CFR 96; 29 CFR 97; 29 CFR 98

Legal Deadline: None

Abstract: This proposed rule would replace outdated administrative regulations for the unemployment insurance (UI) program grants to States with reference to more current common administrative requirements for State governments codified elsewhere by the Department of Labor (DOL). Because of certain unique needs of the UI program, this action would also cover UI program exceptions to these requirements and clarifications of Employment and Training Administration (ETA) policy in applying requirements to State grantees. As a result, the proposed rule is expected to aid States in understanding and complying with the requirements.

Significance: Regulatory Program

Legal Authority: 42 USC 1302

Abstract: The regulation will provide States with administrative appeal rights before the Office of Administrative Law Judges for final determinations disallowing costs or imposing corrective actions as a result of all audits in the Federal-State unemployment benefit and allowance programs. Currently, no such appeal rights exist and if a State seeks review of one of the above actions the only appeal forum is the Federal Court. Provision of these appeal rights before the Office of Administrative Law Judges should reduce the workload of the Federal Court system and allow the Department of Labor adjudicate the issues in a more informal setting with the Administrative Law Judges, who are more accustomed to dealing with the particular issues involved. The regulation will also correct what is perceived as an inequity, since most Employment and Training Administration programs have administrative appeal rights.

Significance: Regulatory Program

Legal Authority: EO 12073; EO 10582

CFR Citation: 20 CFR 654.5(b)

Abstract: Currently the Department of Labor only classifies civil jurisdictions (counties, cities over 50,000 population as well as townships and towns in certain selected States) as labor surplus areas. This policy has resulted in some employment centers in the nation's large metropolitan areas not being classified as labor surplus areas, even though the entire Metropolitan Statistical Areas or Primary Metropolitan Statistical Areas would meet the labor surplus area criteria if such geographic areas were classified. The proposed rule would grant the Assistant Secretary for Employment and Training the authority to classify Metropolitan Statistical Areas and Primary Metropolitan Statistical Areas as labor surplus areas to help alleviate unemployment in these areas. The change will add some additional labor surplus areas to the current list but it will not increase the funds going to such designated areas.

Abstract: The Consolidated Omnibus Budget Reconciliation Act of 1985 (Public Law 99-272) Section 18003 amended the Small Business Act to require the Secretary of Labor to reduce the population criteria for labor surplus areas from fifty-thousand to twenty-five thousand. Section 18003 of Public Law 99-272 became effective on July 7, 1986. The Department of Labor is in the process of implementing the new requirements of the Law but such data did not exist for such areas on a monthly basis at the time Public Law 99-272 was enacted. Implementation has, therefore, been hampered while the data for hundreds of areas were being developed on a monthly basis going back to January 1984.

1433. REFOCUS OF THE PUBLIC EMPLOYMENT SERVICE

Legal Authority: PL 97-300 Wagner-Peyser Act as amended by the JTPA

CFR Citation: 20 CFR 652; 20 CFR 653

Legal Deadline: None

Abstract: In September 1986, the Department of Labor announced in the Federal Register its review of the public employment service, raising the concern of the employment service capability to meet the current and future labor market needs, particularly the labor market needs that will emerge in the year 2000. The announcement provided the public an opportunity to respond either orally at public meetings held in October, 1986 or in writing directly to the Department. The announcement described the concern of the questions concerning the purpose and role of the employment service. An analysis of the public response to the announcement, as well as other data available to the Department from other research, studies, and papers provides the basis for the Department to propose a refocus of the employment service to address current and emerging labor force trends. Regulations may be proposed to the extent needed, to either implement any new legislation that may emerge or to achieve the new direction.

1434. JOB TRAINING PARTNERSHIP ACT - AMENDMENT CONCERNING FIXED UNIT PRICE PERFORMANCE BASED CONTRACTS

Significance: Regulatory Program

Legal Authority: Not Yet Determined

CFR Citation: 20 CFR 629, (Revision)

Legal Deadline: None

Abstract: On October 13, the President signed into law the Job Training Partnership Act (JTPA) Amendments of 1986. In an Advance Notice of Proposed Rulemaking of January 16, 1987, the Department indicated that, in addition to proposed rules for the JTPA Amendments of 1986, it would review fixed-unit price performance- based contracting to determine the need for regulatory revision. The Department has completed this review with the resulting determination of the need for regulatory revision in this area. Proposed regulatory revisions will be published as a final rule around the latter part of 1988. The revisions will deal with the following critical areas: (1) the definition of the term "training" for the purposes of 20 CFR 629.38(e)(2) the allocation of charges among the several cost categories of the final elements of performance--"placement in unsubsidized employment in the occupation trained for, and at the specific wage"--do not occur; (3) clarification regarding the generation of profits and the use of such profits by contractors and/or (4) the practice of making incremental payments to contractors for achieving interim performance benchmarks rather than full performance.

Legal Deadline: NPRM, Statutory, January 1, 1989.
Section 9342(d) of OBRA 1987 specifically directs the Secretary to issue not later than January 1, 1989, the regulations required to implement this provision.

Abstract: Section 502(c) of the Employee Retirement Income Security Act of 1974 (ERISA) was amended by Section 9342(c) of the Omnibus Budget Reconciliation Act of 1987 (OBRA 1987) to authorize the Secretary of Labor to assess a civil penalty of up to $1,000 a day from the date of a plan administrator's failure or refusal to file the complete annual report required to be filed with the Secretary under section 101(b)(4) of ERISA. This regulation would carry out the requirement of OBRA 1987 that the Secretary promulgate regulations implementing the new civil penalty provision relating to a plan administrator's failure or refusal to file a complete annual report.

Abstract: In response to concerns raised by members of Congress and the mining community about the nature and accuracy of existing reporting obligations, MSHA established an intra-agency task force to review its requirements for reports of accidents, injuries and illnesses in coal and metal and nonmetal mines. The Agency focused on several aspects of the reporting requirements including the definition of an occupational injury or illness, and an expanded audit program. The Agency has determined that the existing regulations in Part 50 should be clarified and improved through the rulemaking process. 1455. REVIEW OF METAL AND NONMETAL ELECTRICAL STANDARDS

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 56.12000; 30 CFR 57.12000

Legal Deadline: None

Abstract: The electrical standards are part of the overall review of regulations dealing with metal and nonmetal mines and mills. General incorporations by reference of the National Electric Code would be eliminated and replaced with standards applicable to metal and

nonmetal mining and mills.These standards would also be substantially clarified, updated, and realigned into functional categories, and would include technological advances in electrical systems.

1457. DIESEL-POWERED EQUIPMENT FOR UNDERGROUND COAL MINES

Significance: Regulatory Program

Legal Authority: 30 USC 811; 30 USC 957

CFR Citation: 30 CFR 18; 30 CFR 36; 30 CFR 31; 30 CFR 32

Legal Deadline: None
Under the Mine act, the advisory committee must submit recommendations within 180 days of convening.

Abstract: MSHA has established a mining equipment approval program, including evaluation criteria, and corresponding safety standards requiring the use of certain equipment. Existing approval regulations do not generally apply to the diesel equipment now being used in underground coal mines. An Advisory Committee convened in January 1988 to make recommendations concerning what standards and regulations would be appropriate for coal mines. The Advisory Committee made recommendations to the Assistant Secretary for MSHA, to write proposed regulations for approval of equipment in July 1988.

1458. RULES OF PRACTICE FOR PETITIONS FOR MODIFICATION OF MANDATORY SAFETY STANDARDS

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 44

Legal Deadline: None

Abstract: On July 10, 1987, the United States Court of Appeals for the District of Columbia invalidated the Agency's existing interim relief regulation based in part, on procedural defects, holding that it was contrary to Congressional interest. (INT. UNION v. MSHA, 823 F. 2d 608 (D.C. Cir. 1987). Therefore, MSHA has issued a proposal addressing interim relief in situations where enforcement of a mandatory standard would result in a diminution of safety to affected miners or in emergency situations.

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 55; 30 CFR 56; 30 CFR 70; 30 CFR 71

Legal Deadline: None

Abstract: This regulation combines 1219-AA21, 1219-AA41 and 1219-AA46. The agency is developing a NPRM which incorporates permissible exposure limits which are applicable to the hazards encountered in metal and nonmetal mines and exposure limits for most noxious and poisonous gases in underground coal mines. The proposal would solicit comment on which means of control would provide the necessary protection from airborne contaminants. Standards for use of respiratory protective equipment would replace an outdated incorporation by reference. The proposal would also update asbestos standards. Other issues being considered are: requirements for exposure monitoring and precautions for handling restricted-use chemicals; notification of workers of overexposures; and access to exposure limits.

Abstract: The Agency published a proposed rule concerning ventilation in underground mines which included provisions for the introduction of new technology for systematic monitoring of explosive methane gas, as well as gases that may indicate a mine fire. Other important issues include ventilation of worked-out areas: timeframes for tests for methane; and using intake air that has been used to ventilate a belt conveyor entry. The existing escapeway standards contained in 30 CFR Part 75.1704 (previously RIN: 1219-AA37) are incorporated into the proposal.

1469. APPROVAL CRITERIA FOR RESPIRATORY PROTECTIVE DEVICES

Significance: Regulatory Program

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 11

Legal Deadline: None

Abstract: Under the 1977 Mine Act, MSHA and the National Institute for Occupational Safety and Health (NIOSH) jointly approve respirators for use in hazardous atmospheres. New technology has been developed which has not been accommodated by the existing regulations. In addition, questions have been raised about laboratory testing and field performance of respirators. The decision has been made for NIOSH to have the lead in approval of respirators. MSHA will be involved with the devices which are uniquely adapted or required for mining. A proposed rule to remove MSHA's regulations upon completion of a concurrent NIOSH rulemaking was published in August 1987. However, further rulemaking is contingent upon NIOSH's timetables.

Abstract: Certain MSHA regulations require persons working in coal mines to be qualified or certified to perform certain tasks, e.g., testing for methane, making ventilation examinations, etc. The existing rule requires operators to submit certification and qualification applications to MSHA every six months for recertification. The proposal eliminates the six-month limitation, permitting persons to remain certified or qualified for as long as they continue to satisfy the substantive requirements and remain employed at the same coal mine or independent contractor.

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 75.523-3

Legal Deadline: None

Abstract: In 1973, the Agency issued installation and performance requirements for automatic emergency brakes on rubber-tired, self-propelled electric face equipment for underground coal mines. However, there was not sufficient technical data to develop criteria for evaluating the designs of these braking systems. On July 30, 1974, the effective dates for compliance with 75.523-3 were suspended indefinitely. MSHA now has sufficient technical date to review the standard. On March 1, 1988, MSHA published a proposed

safety standard that would require automatic emergency-parking brakes for rubber-tired, self-propelled electric face equipment used in underground coal mines (53 FR 6512). The automatic emergency-parking brakes described in the proposal engage when there is a loss of power to such equipment, and be activated by the equipment operator in an emergency situation. The brakes also act automatically as a parking brake when the equipment is intentionally deenergized.

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 55; 30 CFR 56; 30 CFR 70; 30 CFR 71

Legal Deadline: None

Abstract: The Agency is developing a NPRM which would replace an incorporation by reference with updated permissible exposure limits which are specifically applicable to the hazards encountered in metal and nonmetal mining. The proposal would solicit comment on which means of control would provide the necessary protection from airborne contaminants. Standards for use of respiratory protective equipment would replace an outdated incorporation by reference. The proposal would also update asbestos standards. Other issues being considered are: requirements for exposure monitoring and precautions for handling restricted-use chemicals: notification of workers of overexposures: and access to exposure records.

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 70

Legal Deadline: None

Abstract: Permissible exposure limits for most noxious and poisonous gases in underground coal mines are addressed in 30 CFR 75.301-2. This ventilation standard incorporates by reference an outdated national consensus standard. MSHA would replace the incorporation by reference with updated standards that are more specific to the mining industry. These standards would be recodified with other health standards for underground coal mining in 30 CFR 70.

Abstract: The Nation's number one injury problem is back injuries. These injuries account for one of five compensation claims and one of four dollars expended for compensation. The purpose of the proposed request for comments and information is to enable OSHA to determine a course of action--possibly either rulemaking or informal guidance-aimed at reducing the number of back-related injuries which result from improper manual lifting. The request will identify a number of approaches to improving manual lifting, and invite public comments and suggestions. Specific engineering and administrative controls should reduce the pain, suffering, and lost time of the workforce as well as reduce the associated economic costs.

Significance: Regulatory Program

Legal Authority: 29 USC 653; 29 USC 655; 29 USC 657

Abstract: The Carcinogen Policy describes the criteria and procedures OSHA will use to identify, classify, and then regulate carcinogens. The Policy also establishes a process for screening chemicals and for setting priorities for potential rulemaking activities. The Carcinogen Policy explicitly recognizes that periodic revisions are necessary in order to incorporate the latest scientific advances and techniques into the regulatory process. Hence, it is time for OSHA to review and modernize the carcinogen policy. The original standard was issued in 1980 before the Supreme Court "benzene" decision on significant risk. Thereafter, a final rule deleting provisions of the Carcinogen Policy that were inconsistent with the benzene decision was published on 1/19/81 (46 FR 4889). A proposal was published on 1/23/81 (46 FR 7402) to permit alternatives to the risk analysis section of the carcinogen policy to be addressed. The proposal was withdrawn on 3/27/81 (46 FR 19000). An advance notice of proposed rulemaking was published on 1/5/82 (47 FR 187) with comments due by 4/5/82. That document (cont'd)

Abstract: One of the greatest hazards associated with concrete and masonry structures in the construction industry is the collapse or failure of the entire structure or its forms and shoring. The catastrophic failures of recent years indicated that revision of the existing standard applicable to such construction operations was necessary. The previous concrete standard contained outdated referenced standards, gaps in coverage, redundant provisions, and provisions which needed clarification. The referenced standards have been updated and placed in the body of the standard. New standards have been added to cover precast concrete erection and masonry wall construction. The provisions that were identified as being redundant have been removed and the ambiguous provisions have been clarified. However, the record will be reopened to allow information and evidence obtained from the investigation of a recent major accident to be included in the record pertaining to lift-slab operations. Revised lift-slab rules will then be proposed.

Abstract: On June 17, 1986, OSHA issued revised standards governing occupational exposure to asbestos, tremolite, anthophyllite, and actinolite in general industry and in the construction industry. These standards replaced OSHA's previous asbestos standard promulgated in 1972. Since the issuance of the revised standards OSHA has received letters and petitions, from both rulemaking participants and nonparticipants, that contain additional comments, assertions and information that the rulemaking record may not fully reflect. These letters and petitions concern the appropriateness of regulating nonasbestiform tremolite, anthophyllite and actinolite as presenting the same health risk as asbestos.

OSHA has granted a temporary stay of the effective dates of the current standards as they apply to nonasbestiform varieties of tremolite, anthophyllite and actinolite. This action was taken, in part, to enable the Agency to review letters and memoranda from the National Institute for Occupational Safety and Health as well as submissions by the R.T. Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1000(e); 29 CFR 1910.134(a)(1)

Abstract: OSHA's policy concerning the use of engineering controls and respirators was targeted for review by the President's Task Force on Regulatory Relief in 1981. Current OSHA regulations require that employers implement feasible engineering controls to maintain air contaminant concentrations in the workplace at or below the prescribed permissible exposure limits. The use of respirators is permitted only in those cases where engineering controls are not feasible, not yet installed, or not adequate. This policy has been criticized as being inflexible, not cost-effective, and often unnecessary for employee health protection. OSHA believes that any changes to the policy for use of engineering controls must be

closely coordinated with revisions in the respiratory protection regulations (29 CFR 1910.134). This rulemaking does not address the assessment and reduction of any absolute existing risks, but rather addresses the possible change in risk abatement associated with the use of respirators instead of engineering controls.

Abstract: OSHA has amended its standard for occupational exposure to benzene by reducing the permissible exposure limit from 10 parts benzene per million parts of air (10 ppm) to an eight-hour time-weighted average of 1 ppm and by adding appropriate industrial hygiene and medical surveillance provisions necessary for the protection of employee health. This action is based on OSHA's determination that the amendments are needed to reduce the risk of leukemia and other adverse health effects associated with occupational exposure to benzene.

OSHA published its final amendment to the standard on September 11, 1987. Due to technical problems associated with the completion of a detailed study of feasibility in barge and tanker cleaning and repair operations, however, OSHA exempted these operations from certain provisions of the standard. OSHA intends to issue a proposal to amend the benzene standard which will address the factors specific to the barge and tanker cleaning and repair industry.

1496. LOGGING (PART 1910)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.266, (Revision)

Legal Deadline: None

Abstract: Logging is a very hazardous industry. It has an incidence rate nearly twice that of manufacturing, and reflecting the seriousness of the injuries incurred, a lost workday rate nearly four times as high. The purpose of the standard will be to protect workers from the ever-present hazards of chain saw operation, falling objects (trees, branches), rolling or sliding logs, falls from trees, and materials handling accidents. At present there is no OSHA standard specifically applicable to logging in general. There is a standard, 29 CFR 1910.266, applicable only to pulpwood logging; however, pulpwood logging is estimated to account for less than half of the logging activity in the United States. Development of a national OSHA standard addressing all types of logging will provide coverage for those loggers not now protected. The new regulation will provide coverage where there is no approved state regulation and will set a minimum safety level for those states that chose to develop a state regulation.

1497. SAFETY AND HEALTH REGULATIONS FOR LONGSHORING (PART 1918)

Significance: Regulatory Program

Legal Authority: 29 USC 655 Occupational Safety and Health Act of 1970; 33 USC 941 Longshoremen's and Harborworkers Compensation Act

CFR Citation: 29 CFR 1910.16; 29 CFR 1918, (Revision)

Legal Deadline: None

Abstract: The purpose of this regulatory action would be to update and revise a standard first issued in 1960. The current language in many instances addresses the hazards to cargo handling involving methods long since abandoned, and fails to address the serious hazards of newer methods. Because much of the current standard is out of date, there are problems with compliance. These revised requirements will provide both employers and employees with a blueprint for effective and safe workpractices in the cargo handling industry. No alternative other than revision is contemplated. The annual cost of the revision is expected to be minimal -- less than five million dollars.

1498. 4,4'-METHYLENEDIANILINE

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: 29 CFR 1910

Legal Deadline: None

Abstract: 4,4'-Methylenedianiline (MDA) is a chemical used primarily to manufacture methylenediphenyl diisocyanate, which is used to make polyurethane foams and elastomers. Recent scientific data indicate that MDA is a carcinogen in animals and a potential carcinogen in humans. In 1983, OSHA and the Environmental Protection Agency participated in a joint effort to publish an advance notice of proposed rulemaking to solicit information on MDA production and use, estimates of environmental and occupational exposure, and studies of its toxic and carcinogenic effects. EPA evaluated the data received in response to the advance notice and concluded that the chemical presents an unreasonable risk of injury to the health of exposed workers. Under the provisions of section 9(a) of the Toxic Substances Control Act, EPA referred MDA to OSHA for action. OSHA responded to the EPA referral on 2/26/86. OSHA established a mediated rulemaking advisory committee composed of interested parties from labor, industry and government to assist the agency in developing a proposed standard. The Committee completed its work in June 1987 (Cont'd)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.269

Legal Deadline: None

Abstract: A major area of coverage not addressed in the current OSHA electrical standards for general industry (29 CFR 1910) involves the maintenance and operation practices associated with electrical transmission and distribution lines, substations and generating stations. It is intended that the proposed standard fill this void by establishing minimum requirements for electrical safety work practices for qualified employees working on or near installations whose purpose is the generation and distribution of electricity.

Abstract: Existing standards for eye, face, head, and foot protection reference outdated national consensus standards which have been updated and improved. Consequently, criteria for personal protective equipment for eye, face, head, and foot would be revised to reflect improved developments in these types of equipment. This would allow the use of better personal protective equipment and would result in improved employee protection from eye, face, head, and foot hazards.

Abstract: OSHA proposes to revise and update its existing Subpart Q covering welding, cutting and brazing operations, and to develop performance-oriented standards designed to reduce the number of deaths and injuries due to unsafe equipment and unsafe operations. There has been no substantial revision to Subpart Q since its adoption in 1971. A complete and comprehensive revision is needed at this time to bring the standard into line with the current state-of-the art and updated consensus standards.

Abstract: On October 10, 1985, EPA referred 1,3-butadiene (BD) to OSHA for possible regulatory action under section 9(a) of the Toxic Substance Control Act. On April 11, 1986, OSHA responded to the EPA referral indicating that the Agency has preliminarily concluded that BD poses risk to the occupationally exposed population at the current OSHA permissible exposure limit and that the risk can be reduced or prevented through the promulgation of a revised standard. OSHA intends to initiate rulemaking to revise the standard for BD pursuant to section 6(b) of the Occupational Safety and Health Act.

Abstract: On May 20, 1986, the Environmental Protection Agency (EPA) issued a report to OSHA, under Section 9(a) of the Toxic Substances Control Act, stating that EPA has reasonable basis to conclude that the risk of injury to worker health from exposure to four glycol ethers during their manufacture, processing and use is unreasonable, and that this risk may be prevented or reduced to a significant extent by OSHA regulatory action. EPA gave OSHA 180 days in which to respond to its report. OSHA published its response on December 11, 1986, stating that OSHA had preliminarily concluded that occupational exposures to the subject glycol ethers at the current OSHA permissible exposure limits may present significant risks to the health of workers. OSHA announced that it would begin rulemaking proceedings for these chemicals.

Abstract: In its May 7, 1987, Federal Register notice the Agency requested information to assist in the possible revision of 29 CFR Part 1919. Part 1919, entitled "Gear Certification," implements requirements located in each of OSHA's maritime standards which cover work carried out within the Federal maritime jurisdiction. Changes in the design and composition of cargo handling gear which have evolved since these rules were last amended (1969) provided questions as to the efficacy of the current rules. Additionally, the Agency sought comments that would suggest ways in which the administrative function of the accreditation program could be improved. Comment period ended: August 5, 1987.

Abstract: In July 1985, OSHA was petitioned by the United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) to issue a hazard alert; issue an emergency temporary standard; and to begin work on a new permanent standard for methylene chloride (DCM). This request was based on information obtained from the Environmental Protection Agency and the National Toxicology Program indicating that DCM is an animal carcinogen and may have the potential to cause cancer in humans. In November 1986, OSHA notified the UAW that its petition had been granted, in part, and denied, in part. Specifically, OSHA has issued a set of guidelines for controlling occupational exposure to DCM and has decided to proceed with rulemaking to develop a new permanent standard. OSHA denied that portion of the petition requesting the issuance of an emergency temporary standard.

Abstract: OSHA promulgated a final rule on August 24, 1987, that extended the protections of its Hazard Communication Standard (HCS) from the manufacturing sector to all other workplaces where employees are exposed to hazardous chemicals. The HCS requires covered employers to establish hazard communication programs for their employees, including labels on containers, material safety data sheets, and training programs. As the final rule was published pursuant to a court order without having published a NPRM, OSHA invited additional comment on the final rule for 60 days. The Agency is now proposing some modifications to the final rule to address issues of concern.

Abstract: Many health-care workers are exposed to blood and body fluids from patients who have active bloodborne infections or are carriers of these infections. Such exposure presents a potential risk of disease for the health-care workers. One such disease, hepatitis B, has been shown to present a substantially increased risk for health-care workers. Data received by OSHA indicate that of the approximately 300,000 cases of hepatitis B diagnosed in the U.S. each year, approximately 6.0 percent, or 18,000 cases, are among health-care workers. It has been estimated that 222-265 health-care workers die each year as a result of hepatitis B and associated complications. About half of the nation's five million health-care workers are at increased risk from exposure to bloodborne infectious diseases. The highest risks are experienced by emergency room workers, dialysis unit workers, operating room personnel, intensive care unit workers and blood bank employees. OSHA's personal protective equipment standard, 29 CFR 1910.132(a), provisions for general housekeeping, 29 CFR 1910(a)(1) and waste disposal, 29 CFR 1910. 141(a)(4)(ii)) along with Section 5(a)(i) of the Act (Cont'd)

Additional Information: ABSTRACT (CONT'D): requiring employers to provide employment and a place of employment free of recognized hazards ..., will be used to reduce some, but not all of the hazards of bloodborne diseases. In 1983, the Agency issued voluntary guidelines for reducing the occupational risk of hepatitis B infection. In September 1986, OSHA was petitioned by the American Federation of State, County and Municipal Employees and other unions for the issuance of an emergency temporary standard to protect workers from occupational exposure to bloodborne infectious diseases, such as hepatitis B and acquired immune deficiency syndrome (AIDS). The agency is currently drafting a proposed standard.

1517. CADMIUM

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR 1910, (Table Z-2)

Legal Deadline: None

Abstract: On June 18, 1986, the International Chemical Workers Union and the Public Citizen Health Research Group petitioned OSHA to issue an emergency temporary standard reducing the permissible exposure limit for cadmium to one microgram of cadmium per cubic meter of air. On June 25, 1987 the union and HRG filed a petition with the Court of Appeals requesting the Court to order OSHA to promulgate an ETS. In its July 1, 1987, response to the petitioners, OSHA stated that issuance of an emergency standard was not warranted, but that exposure to cadmium at levels permitted under the current standard represented a significant risk to worker health which would be addressed through section 6(b) rulemaking procedures. OSHA is in the process of developing a proposed standard.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910, (Subpart H)

Legal Deadline: None

Abstract: Standards in 29 CFR Part 1910, Subpart H, which address the storage, handling and use of hazardous materials, such as compressed gases, acetylene, hydrogen, oxygen, liquified petroleum gases, and flammable and combustible liquids, will be revised. This regulatory action will provide a new approach to the revision of Subpart H and will occur in three phases in an expanded timeframe. The three phases will be (1) Process Hazards Management, (2) Flammable and Compressed Gases, and, (3) Hazardous Liquids. The first phase of the proposed action is intended to better protect employees from unexpected releases of significant quantities od dangerous substances. The remaining phases are intended to simplify, clarify and consolidate standards on hazardous materials and assist employers and employees in general industry to better understand and better focus on the hazards inherent in the use, handling, and storage of such materials.

Abstract: This regulatory action will complete the consolidation and updating of Parts 1915 and 1910 by providing shipyard employees with coverage under one comprehensive OSHA standard. This revision will involve the promulgation of 16 maritime subparts and their 1910 counterparts. Its completion will relieve shipyard owners from the burden of having to comply with two sets of rules that are complex, prescriptive, confusing and, in some cases, conflicting. OSHA will establish an Advisory Committee to assist the agency in reviewing and revising these subparts. Experts from government, industry, unions and the states will be asked to work with OSHA on this project. A previously identified project, Surface Preparation and Preservation (RIN: 1218-AA96), will be included in this project.

Abstract: Public Law 99-499 requires the Secretary of Labor to promulgate a final standard for Hazardous Waste Operations and Emergency Response. Section 126 of Public Law 99-499 was amended by Congress on December 22, 1987 to require the Secretary of Labor to include in the final rule a training course certification program at least as comprehensive as the EPA's model program for asbestos abatement in public buildings. This proposed revision would add criteria and requirements for training course certification of training for workers involved in hazardous waste operations.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1450

Legal Deadline: None

Abstract: Existing OSHA standards are designed to protect employees who are engaged in work involving exposure to only a few toxic chemicals during relatively standardized, continuous or repetitive processes. In contrast, laboratory workers are exposed to a multitude of toxic substances under frequently changing or unpredictable conditions. During this rulemaking, OSHA will examine whether prudent work practices and protective equipment, chosen for the specific facility and task, are more effective, feasible and economical for laboratory work than adhering to OSHA's current substance-specific standards. Accordingly, OSHA has proposed a special performance-oriented work practices standard that, if promulgated, would apply to laboratory workers and would contain provisions specifically designed for laboratory conditions.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

Abstract: Recent scientific studies have reported that ethylene dibromide causes cancer when administered orally, by inhalation and by skin application in laboratory animals. In addition, other studies have shown the chemical to be a mutagen, teratogen and testicular toxin in experimental animals. On the basis of these reports, OSHA has determined that its current permissible exposure limit of 20 ppm does not provide exposed workers adequate protection against cancer and other adverse health effects. A proposed standard for ethylene dibromide was published 10/07/83 (43 FR 45956). Public hearings were held in February 1984. OSHA is currently in the process of decisionmaking on the provisions to be included in the final standard.

Abstract: Standards are currently under review for the second part (Subpart S of Part 1910) of OSHA's electrical standard which would establish a performance-oriented standard for electrical safety- related work practices to complement the existing electrical installation standards. Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.66

Abstract: The present standard, which requires positive engagement of a powered platform with a building face to provide stabilization, may need to be revised because many variance designs have been submitted which do not provide positive engagement of the platform, yet claim equal stability. The agency believes there may be merit to this claim. The proposal provides flexibility in compliance through performance-oriented provisions as alternatives to positive engagement. It would also expand the scope of the current standard to include requirements covering additional suspension equipment, fall protection, and employee training.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.147. (New)

Legal Deadline: None

Abstract: The proposed standard will fill a major gap in our current regulations which now depend for enforcement on the general duty clause, 5(a)(1). It will apply to those situations where the unexpected energization, start up or the release of stored energy could cause injury to employees. Providing comprehensive and uniform control procedures is also expected to reduce significantly the potential for injury and death of employees because the hazards targeted for control exist in virtually every workplace. Further, the proposed standard will respond to the concerns of organized labor who petitioned OSHA in 1979 and again in 1982 for regulatory action to protect employees and to the American National Standards Institute's petition for OSHA to adopt its consensus standard ANSI Z244.1-1982. Regulatory options involve developing a comprehensive standard covering all potentially hazardous energy sources or limiting the scope and application to those certain machines or industries that are causing most of the injuries.

Abstract: Public Law 99-499 requires the Secretary of Labor to promulgate a final standard for Hazardous Waste Operations and Emergency Response by October 17, 1987. The law requires the proposed rule to address eleven areas: site analysis, training, medical surveillance, protective equipment, engineering controls, maximum exposure limits, informational programs, handling and labeling, new technology programs, decontamination procedures, and emergency response. The agency has developed a Preliminary Regulatory Impact Analysis which is available in the docket. The analysis estimates that the benefits are significant and that annualized costs are $71 million for training, $17 million for medical surveillance, $12 million for decontamination, $11 million for protection suits and $37 million for other requirements. OSHA held public hearings in Washington, D.C. and Seattle, Washington to enhance public comment and participation in this rulemaking.

On December 22, 1987 Congress amended SARA to require the Secretary of Labor to develop a training certification program at least as comprehensive as the EPA's Model Program for (CONT'D)

1532. PERMISSIBLE EXPOSURE LIMIT UPDATE

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR 1910.1000, (Tables Z-1 to Z-3)

Legal Deadline: None

Abstract: In 1972, OSHA promulgated permissible exposure limits (PELs) for a number of toxic substances, pursuant to authority granted by section 6(a) of the Act, which allowed OSHA (for a limited period) to adopt existing Federal standards or industry consensus standards as enforceable OSHA standards. Accordingly, the lists of toxic substances now codified at 29 CFR 1910.1000, Tables Z-1 and Z-3, were Federal standards adopted under the Walsh-Healey Public Contracts Act, which, in turn, were adopted from the American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Values (TLVs) for 1968. The substances listed at 29 CFR 1910.1000, Table Z-2, were adopted from American National Standards Institute standards. Industrial experience, new developments in control technology, and scientific data acquired since 1968 have led the ACGIH to make changes in its TLVs over the years. Many of the TLVs have been lowered, and limits for additional chemicals have been established. During this period, OSHA has promulgated revised standards for toxic substances on a substance-by-substance basis. This process, however, has not kept up with (Cont'd)

1533. LEAD (RECONSIDERATION OF THE FEASIBILITY OF COMPLIANCE IN NINE INDUSTRY SECTORS)

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR 1910.1025

Legal Deadline: Final, Judicial, November 28, 1988.

Abstract: On December 11, 1981 (46 FR 60758), OSHA published a Revised Statement of Reasons concerning the feasibility of compliance with paragraph (e)(1) of the standard for occupational exposure to lead, which had been promulgated in 1978. In this revised statement, OSHA stated that it could not reach a conclusion regarding feasibility, on the basis of the existing rulemaking record, for eight specific industry sectors: lead chromate pigments, lead chemicals, nonferrous foundries, brass and bronze ingot production, secondary copper smelting leaded steel, shipbuilding and ship repair, stevedoring, and battery breaking separate from secondary smelting, and that in addition, it wished to reexamine the applicability of the lead standard to the stevedoring industry. OSHA requested that the record (which was under review by the U.S. Court of Appeals for the District of Columbia Circuit) be remanded for supplementary administrative proceedings. The Court granted OSHA's December 1981 request on March 31, 1987, and remanded the record to OSHA for further administrative proceedings to determine the feasibility of section (e)(1) for the nine industry sectors OSHA had (Cont'd)

Additional Information: ABSTRACT (CONT'D): listed. The Court further ordered OSHA to return the record on or before October 1, 1987. On June 17, 1987, OSHA filed with the Court a motion requesting a 90-day extension to January 1, 1988. On July 31, 1987 the Court granted OSHA's motion. OSHA published in the Federal Register on August 3, 1987, a notice of a limited reopening of the rulemaking record (limited to the issue of feasibility) and specified September 2, 1987 for the receipt of comments from the public and September 15, 1987 for public hearings. Thereafter, at the request of industry and labor, OSHA deferred the

relevant dates for the rulemaking until September 16 and 29, 1987, respectively.OSHA requested, and was granted by the Court, an extension for final action until July 15, 1988.Because of the complexity of the issues, OSHA petitioned the court on July 15 for an extension of time for the return of the record until the end of November 1988.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: 29 CFR 1910.20

Legal Deadline: None

Abstract: The existing record access rule was promulgated in May 1980. The rule requires employers to preserve and maintain exposure and medical records pertinent to employee exposure to toxic substances, and to ensure access to these records by employees, designated employee representatives and OSHA. As a result of numerous requests and suggestions for changes to the standard, OSHA published a proposal to revise the standard in 1982. OSHA intends to publish soon a final rule that resolves many of the issues raised in the 1982 proposal. This regulation will be similar to the regulation promulgated in 1980 with certain exceptions relating to: (1) first-aid records and medical records of short-term employees; (2) the microfilm storage of employee X-rays; (3) employer trade secrets; (4) employee exposure record requirements for other records; and (5) unconsented access to employee exposure records by union representatives.

Abstract: The use of cranes and derricks to suspend personnel in platforms is a hazardous operation that was not previously covered by OSHA Construction Standards. OSHA has issued administrative instructions on this practice, but this alternative to rulemaking was not successful. This final rule has been developed to reduce the number of accidents, many of which involve multiple fatalities, that result from equipment inadequacies and failures or improper work practices.

The United States Court of Appeals for the District of Columbia Circuit ordered OSHA's reconsideration of the STEL issue be completed within 60 days of the issuance of the mandate (Cont'd)

Abstract: In June 1986, OSHA promulgated revised standards governing exposure to asbestos in general industry and construction. OSHA reduced the 8-hour Time Weighted Average (TWA) Permissible Exposure Limit (PEL) to 0.2 f/cc, but did not issue a short term exposure limit (STEL). OSHA's principal reason for not issuing an excursion limit was that the rulemaking record failed to show a dose-rate effect. Subsequently, in July 1986, the Court of Appeals for the District of Columbia, in reviewing the EtO standard, held that OSHA may not base its determination to not issue a STEL on the lack of a "dose-rate effect" and that the "OSH Act compels the Agency to adopt a STEL if the record shows that it would further reduce a significant health risk and is feasible to implement." To conform to this judicial decision OSHA plans to amend the Asbestos standards by the issuance of an appropriate excursion limit for all workplaces affected by the revised Asbestos standards.

Unified Agenda of Federal Regulations

AGENCY: Department of State.

ACTION: Semiannual publication of regulatory agenda.

SUMMARY: As required by Executive Order 12291 and the Regulatory Flexibility Act of 1980 (Pub. L. No. 96-354), the October 1988 agenda of regulations of the Department of State is set forth below. This agenda was prepared under the guidelines of OMB Bulletin 88-15, dated June 24, 1988. The purpose of the agenda is to provide information to the public on the Department's regulatory plans.

FOR FURTHER INFORMATION CONTACT: James H. Thessin, Assistant Legal Adviser for Management, Department of State, Room 4427A, 2201 C Street, NW., Washington, DC 20520, telephone (202) 647-2350.

Abstract: Executive Order 12532 of September 9, 1985 required U.S. firms operating in South Africa to take good faith measures with respect to certain fair labor standards. A final rule was promulgated for this purpose after receiving public comments. The requirements of this Executive Order were later codified in the Comprehensive Anti-Apartheid Act of October 2, 1986, and amendments to the regulations were promulgated as a final rule on October 22, 1986. The first annual review of the labor practices of U.S. firms was published in September 1987. The Department of State revised the questionnaire after the first report was published. The Department will review the regulations and questionnaire in the last quarter of 1988 after the second report is issued in September 1988.

Abstract: The Foreign Missions Act Amendments of 1983 amended the Diplomatic Relations Act of 1978 and the Foreign Missions Act to enforce more effectively a requirement that persons connected with foreign missions carry liability insurance against risks arising from the operation in the U.S. of automobiles, vessels or aircraft by persons entitled to diplomatic or consular immunity. The Department issues and enforces pertinent regulations with the aim of ensuring that the objectives of this program are achieved. The regulations are designed to carry out the obligations of the U.S. to foreign diplomatic and consular missions, to induce concessions for U.S. diplomatic and consular missions abroad, and to protect the U.S. public against uninsured foreign drivers. The expected potential benefits to society will greatly outweigh potential costs. We continue our analysis and discussions to ensure that regulatory mechanisms chosen maximize net benefits and minimize net costs. We seek to set priorities for our regulatory goals and objectives to maximize aggregate net benefits to society. In that connection, the liability insurance regulations have first priority.

Significance: Regulatory Program

Legal Authority: 22 USC 4301 et seq; 22 USC 254(e)

CFR Citation: 22 CFR 151

Abstract: The Foreign Missions Act creates certain authorities for the Secretary of State relating to the regulation of foreign missions, diplomatic, consular, and international organizations. Exercise of those authorities could involve restricting or controlling the access of such missions to American vendors of goods and services. Exercise of other authorities in the Foreign Missions Act could affect the location of premises of foreign missions. Exercise of authority in the Diplomatic Relations Act, 22 USC 254(a) et seq., as amended by Title VI of PL 98-164, will have an impact on the acquisition of liability insurance coverage for the operation of motor vehicles, vessels, and aircraft by personnel of foreign missions, and could in certain situations, subject foreign missions to surcharges or fees. The regulations under consideration would provide procedures for exercise of these authorities. These regulations are at the stage of preliminary consideration. Agenda

Background

Improvement of government regulations is a prime goal of the Reagan Administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation ("Department") achieve these goals, and in accordance with Executive Order 12291 ("Federal Regulation"; 46 FR 13193; February 19, 1981) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semiannual Regulations Agenda for publication in the **Federal Register**. The agenda summarizes all current and projected rulemaking, reviews of existing regulations and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding twelve months or such longer period as may be anticipated or for which action has been completed since the last agenda.

The agendas are based on reports submitted by the initiating offices in January and July each year. After these reports are consolidated for, and reviewed by, the Department Regulations Council, the Department's Regulations Agenda is prepared and published in the **Federal Register**. The Department's last agenda was published in the **Federal Register** on April 25, 1988 (53 FR 14039). The next one is scheduled for publication in the **Federal Register** in April 1989.

Regulatory Flexibility Act

In 1980, Congress passed the Regulatory Flexibility Act (RFA), Pub. L. 96-354, which requires the designation of those regulations for which a Regulatory Flexibility Analysis will be prepared, i.e., those regulations that would have a significant economic impact on a substantial number of small entities. A Regulatory Flexibility Analysis is required for a rulemaking which, in the heading "Small Entities Affected," indicates an effect on small businesses, governmental jurisdictions, or organizations. If a Regulatory Flexibility Analysis will be prepared for a particular rulemaking, that fact also will be noted under the heading "Analysis."

The RFA also requires that each year the Department publish a list of those regulations that have a significant economic impact on a substantial number of small entities and are to be reviewed under the Act during the succeeding twelve months. The agenda includes those regulations to be reviewed under the RFA or those for which review has been concluded since the last agenda. However, it should be noted that, after a preliminary assessment of the regulations listed for RFA review, it may be found that the regulations, in fact, do not have a significant economic impact on a substantial number of small entities and a full RFA review will be unnecessary.

Regulatory Impact Analysis

A preliminary and final Regulatory Impact Analysis is required for each proposed and final regulation, respectively that

(1)Is likely to result in:

(a)An annual effect on the economy of $100 million or more;

(b)A major effect on the general economy in terms of costs, consumer prices, or production;

(c)A major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions;

(d)Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets; or

(2)The Secretary or head of the initiating office has determined requires such an analysis.

Definitions

The agenda covers all rules and regulations of the Department, including those that establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation* means a regulation that is not an emergency regulation and that in the judgment of the head of the initiating office, or the Secretary, or the Deputy Secretary

(a) Is a major regulation;

(b) Concerns a matter on which there is substantial public interest or controversy;

(c) Has a major impact on another operating administration or other parts of the Department or other Federal Agency;

(d) Has a substantial effect on State and local governments;

(e) Has a substantial impact on a major transportation safety problem;

(f) Initiates a substantial regulatory program or change in policy;

(g) Is substantially different from international requirements or standards; or

(h) Otherwise involves important Department policy.

(3) *Major regulation* means a significant regulation for which a Regulatory Impact Analysis is required to be prepared.

(4) *Emergency regulation* means (a) a regulation that, in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the **Federal Register**; or (b) is governed by short-term statutory or judicial deadlines.

(5) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

Explanation of Information on the Agenda

The format for this agenda is required by Office of Management and Budget Bulletin No. 86-16 (July 2, 1986).

First, the agenda is divided by initiating offices. Then, in accordance with the OMB Bulletin, for each initiating office the agenda is divided into four categories: (1) Prerule stage, (2) proposed rule stage, (3) final rule stage, and (4) completed actions. For each entry, the agenda provides the following information: (1) The "significance" of the action (i.e., whether it is significant because it is on the Regulatory Program or because of agency priority; or whether it is nonsignificant or routine and frequent); (2) a short descriptive title; (3) the legal basis for the action being taken or the regulation being reviewed; (4) the related regulatory citation in the Code of Federal Regulations; (5) an indication of any legal deadline and, if so, for what type of action (e.g., NPRM, final rule); (6) an abstract of the review or the proposed or final regulation; (7) a timetable, including the earliest expected date for a decision on whether to issue the proposed or final regulation, or complete the review and determine the corrective action to be taken. (The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12291 and the Department's Regulatory Policies and Procedures.); (8) an indication as to whether the rulemaking will affect small entities and/or levels of government and which categories of small entities or governments will be impacted; (9) if there is information that does not fit in the other categories, it will be included under a separate heading, entitled "Additional Information"; (10) a listing, where determined, of any analyses an initiating office will prepare or has prepared for the rulemaking document; e.g., a Regulatory Impact Analysis or Evaluation, an Environmental Impact Statement (EIS), a Regulatory Flexibility Analysis, or an Urban Impact Analysis. (It should be noted that, even though a Regulatory Impact Analysis is not required for some items on the agenda, the Department requires an economic analysis for all of its regulations. This economic analysis is contained in the Regulatory Evaluation if a Regulatory Impact Analysis is not prepared.); (11) an agency contact office or official who can provide further information, including advice on how to obtain documents referenced in the agenda; and (12) a Regulation Identifier Number (RIN) assigned to identify an individual rulemaking in the agenda and facilitate tracing further action on the issue in the **Federal Register** which may occur between agenda publications. (Departmental rulemaking documents published in the **Federal Register** now contain RIN numbers.)

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules) to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it may be provided under the "Additional Information" heading. If a member of the public desires further information regarding a particular proposal or regulation, reference should be made to this docket number.

In the "Timetable" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, NPRM for Notice of Proposed Rulemaking, and FR for Final Rule. Listing a future date in this column is not an indication that a proposed or a final rule will be issued on that date; it is the earliest date on which a decision is expected to be made

on whether to issue the document listed. Submittal of any proposed or final rule to the Office of Management and Budget for review, under Executive Order 12291, must follow such a decision. For major rules, this review could take 60 days or more. If any document is issued, publication in the **Federal Register** would follow within a few days. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (●) preceding an entry indicates that the entry appears in the agenda for the first time.

Mailing Lists for Regulatory Documents

To assist the public in obtaining regulatory documents issued within the Department of Transportation, an Appendix A has been included in this document. The appendix contains instructions on how to be placed on mailing lists for, or to obtain, copies of regulatory documents, including the Department's Semiannual Regulations Agenda, issued by the operating administrations of the Department and the Office of the Secretary. There is no charge for this service; however, because of the costs involved, the number of copies of a document forwarded to an individual requestor may be limited. Persons already on mailing lists for particular documents within the Department will remain on those lists and should not reapply.

By following the instructions specified in the appendix, a person can be placed on a mailing list for future copies of the Department's Regulations Agenda, which will be updated and published in the **Federal Register** every year during April and October. By using the agenda, individuals can determine which Notice or Advance Notice of Proposed Rulemaking, to be issued by elements of the Department, is of interest to them. Then, using the instructions in the appendix, such persons also can be placed on a mailing list to ensure that, after the document of interest is issued, a copy will be mailed to them for their review and comment. In this way, individuals will be relieved of the burden of having to review the **Federal Register**, perhaps on a daily basis. The Department expects that this process will ensure that those people placed on mailing lists will receive early notice so that their views on the document can be adequately prepared and presented within the established comment period.

General Rulemaking Contact Persons

To assist persons desiring to obtain general information concerning the rulemaking process within the Department's operating administrations, an Appendix B has been added to the agenda. This appendix sets forth the addresses and the telephone numbers of the persons who can respond quickly to requests for general rulemaking information. Please note, however, that questions related to particular rulemaking actions should still be referred to the contact person listed with the particular rulemaking on the agenda.

Public Rulemaking Dockets

To facilitate the inspection of docket files and the submission of comments by the public, an Appendix C sets forth the addresses and working hours for the Rules Docket for each operating administration.

Request for Comments

Agenda

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information as well as make the agenda easier to use. We would also like you, the public, to make suggestions or comments on how the agenda could be further improved. For example, do you find the information presented in an easily understandable manner? Do you find it easy to follow a regulation's development from agenda to agenda? Do you find that the format for setting out the information enables you to use the agenda easily? Do you find that the presentation of the information in the agenda is clearly explained in the preamble to the agenda? Your responses to these questions or any other comments or suggestions you may have should be sent to Neil R. Eisner, whose address appears above.

Reviews

In an effort to comply further with the spirit of Executive Order 12291 and the Regulatory Flexibility Act, we are also seeking suggestions on existing regulations that should be included in our review of existing regulations; that is, which existing regulations issued by an operating administration of the Department or the Office of the Secretary do you believe need to be reviewed to determine whether they should be revised or revoked? The Department is particularly interested in obtaining information on requirements that have a "significant economic impact on small entities" and therefore must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please send them, along with your explanation of why they should be reviewed, to the concerned operating administration or the Office of the Secretary, at the appropriate address noted in the "Addresses" paragraph above.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that are targeted for review under the RFA. Those comments should be addressed to the "contact" person of the operating administration involved, at the appropriate address noted in the "Addresses" paragraph above.

Purpose

The Department is publishing this Regulations Agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible. This publication in the **Federal Register** does not impose any binding obligation on the Department, or any of the offices within the Department, with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded. If further information is desired on any of the items listed in the

agenda, the public is encouraged to contact the individual listed for the particular item. Additional information concerning the agenda, in general, or the Department's Regulatory Policies and Procedures may be obtained from Neil R. Eisner, whose address and telephone number appear above.

Issued in Washington, DC on September 24, 1988.

Jim Burnley,

Secretary of Transportation.

Appendix A - Instructions for Obtaining Copies of Regulatory Documents

Some Administrations within the Department differ in procedures, or as to inclusion on a mailing list. For the offices listed below, persons desiring to obtain a copy of any regulatory document to be issued, that is listed in this agenda, should communicate, either by telephone or by letter, with the contact person listed with the regulation, at the following addresses:

United States Coast Guard (USCG)

(Name of contact person), United States Coast Guard, 2100 Second Street, SW., Washington, DC 20593.

Federal Highway Administration (FHWA)

(Name of contact person), Federal Highway Administration, 400 7th Street, SW., Washington, DC 20590.

Federal Railroad Administration (FRA)

(Name of contact person), Federal Railroad Administration, 400 7th Street, SW., Washington, DC 20590.

National Highway Traffic Safety Administration (NHTSA)

(Name of contact person), National Highway Traffic Safety Administration, 400 7th Street, SW., Washington, DC 20590.

Urban Mass Transportation Administration (UMTA)

(Name of contact person), Urban Mass Transit Administration, 400 7th Street, SW., Washington, DC 20590.

Saint Lawrence Seaway Development Corporation (SLSDC)

(Name of contact person), Saint Lawrence Seaway Development Corporation, 400 7th Street, SW., Room 5424, Washington, DC 20590.

Research and Special Programs Administration (RSPA)

David A. Watson, Training Unit, DHM-51, OHMT/RSPA, 400 7th Street, SW., Washington, DC 20590.

Maritime Administration (MARAD)

James Saari, Secretary, Maritime Administration, 400 Seventh Street, SW., [Room 7300B], Washington, DC 20590, (202) 366-5746.

Federal Aviation Administration (FAA)

The FAA has a mailing list system for Notices and Advance Notices of Proposed Rulemaking (NPRMs and ANPRMs). Persons interested in obtaining future copies of all of those documents to be issued by the FAA or only of those concerning certain parts of the Federal Aviation Regulations should request a copy of Advisory Circular No. 11-2, which describes the application procedure, by calling 202-267-3479 or by writing to: Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-200, 800 Independence Avenue, SW., Washington, DC 20591.

Office of the Secretary (OST)

Persons desiring to receive future copies of the Department's Regulations Agenda should submit their request to: Assistant General Counsel for Regulation and Enforcement, C-50, Office of the General Counsel, Department of Transportation, Washington, DC 20590, (202) 366-4723.

Persons who have an interest in specific regulatory documents to be issued by the Office of the Secretary should forward requests for copies of those documents to the same address. These requests should fully identify the document desired. Persons interested in a rulemaking document on an aviation matter (of the kind formerly handled by the CAB) will be placed on a mailing list for all OST aviation-related rulemakings if they so request.

Appendix B - General Rulemaking Contact Persons

The following is a list of persons who can be contacted within the Department for general information concerning the rulemaking process within the various operating administrations.

USCG - Bruce Novak, Marine Safety Council, USCG Headquarters Building, Room 2110, 2100 Second Street, SW., Washington, DC 20593. Telephone: 202/267-1477.

FAA - John H. Cassady, Office of Chief Counsel, Regulations and Enforcement Division, 800 Independence Ave., SW., Room 915A, Washington, DC 20591. Telephone: 202/267-3073.

FHWA - Michael J. Laska, Office of the Chief Counsel, 400 7th Street, SW., Room 4223, Washington, DC 20590. Telephone: 202/366-1383.

FRA - Mike Haley, Office of Chief Counsel, 400 7th Street, SW., Room 8201, Washington, DC 20590. Telephone: 202/366-0767.

NHTSA - Steve Kratzke, Office of Chief Counsel, 400 7th Street, SW., Room 5219, Washington, DC 20590. Telephone: 202/366-2992.

UMTA - Linda Hart, Office of Chief Counsel, 400 7th Street, SW., Room 9316, Washington, DC 20590. Telephone: 202/366-4011.

SLSDC - Fredrick A. Bush, General Counsel's Office, 400 7th Street, SW., Room 5424, Washington, DC 20590. Telephone: 202/366-0101.

1552. + REVIEW OF DEPARTMENT-WIDE DRUG REGULATIONS

Significance: Agency Priority

Legal Authority: Not yet determined

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Department will review existing regulations to determine whether changes are necessary for each of the Modal Administrations' drug regulations. The Department seeks to address the use of drugs through its regulatory authority. The review will encompass each Model Administration's program. This rulemaking is considered significant because of substantial public interest.

1553. + CONSUMER PROTECTION FOR DEFAULT BY SCHEDULED AIR CARRIERS

Significance: Regulatory Program

Legal Authority: 49 USC 1371; 49 USC 1372; 49 USC 1381

CFR Citation: None

Legal Deadline: None

Abstract: Transamerica petitioned the CAB to investigate ways to protect consumers against service defaults by scheduled air carriers in domestic, overseas, and foreign air transportation. Transamerica suggested that the Board condition the award of operating authority to perform direct carrier scheduled service on air carriers developing a default protection plan. For foreign air travel, it suggested that the obligation be limited to outbound flights. The petitioner argued that prompt action is necessary in order to ensure continued public confidence in scheduled air service and to protect passengers from unnecessary financial hardship. DOT is considering what action should be taken on the petition.

1554. + ESCROW/BOND PROTECTION FOR AIRLINE TICKETS

Significance: Agency Priority

Legal Authority: 49 USC 1371; 49 USC 1372; 49 USC 1381

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: This petition, filed by Mr. Theodore Harris, addresses the problem of airline passengers whose airline goes bankrupt after they bought their ticket but before they use it. The petitioner

asks that airlines be required to protect such "unearned revenue" by escrowing it or by posting a bond in an amount equal to 150% of average unearned revenue. Exemptions could be granted to airlines which file evidence of ticket insurance plans or which enter into agreements with other airlines to accept the tickets of bankrupt carriers. This rulemaking is considered significant because of substantial public interest.

1555. AIR CARRIER CARGO TARIFF PUBLICATIONS

Significance: Nonsignificant

Legal Authority: 49 USC 1324; 49 USC 1373; 49 USC 1482

CFR Citation: 14 CFR 221.171; 14 CFR 221.173

Legal Deadline: None

Abstract: This petition proposes to amend the requirement that air carriers post cargo tariffs at stations, offices, and locations other than their principal office. The petitioners proposed to allow carriers to maintain a memorandum tariff at each location and have a toll-free number for shippers to obtain access to complete tariff information. Petitioners alleged that such a change would substantially reduce the cost and time burden of maintaining and continually updating voluminous files of current and past tariffs at each location. Further action on the proposal will depend on final action in RIN 2105-AB38.

1556. OVERSEAS MILITARY PERSONNEL AIR-CHARTER TARIFFS

Significance: Nonsignificant

Legal Authority: 49 USC 1373; 49 USC 1386

CFR Citation: 14 CFR 372

Legal Deadline: None

Abstract: The reference to tariffs in the rule governing Overseas Military Personnel Charters (OMPC) has become obsolete, at least with respect to domestic air transportation. The CAB was considering whether to eliminate the tariff requirement for all OMPC's and replace it with consumer-protection requirements similar to those in its Public Charter rule in Part 380. This proposal is still being considered by DOT.

Abstract: Donald L. DOT—OST **Prerule Stage**

Abstract: This rule would amend regulations to allow cargo tariffs which are within the zones established under 14 CFR 399.41 to be filed on 30 days' notice. There are two alternatives: either maintain the status quo (60 days' notice) or change cargo tariff filing regulations to 30 days' notice to be consistent with passenger tariff-filing requirements. Standardization of the regulatory tariff-filing requirements for both cargo and passenger tariffs would benefit the industry.

Legal Deadline: None

Abstract: The Civil Aeronautics Board was an independent agency; its rules have now been transferred to DOT, a cabinet department. This review will identify any CAB rules which are not consistent with Department or Administration regulatory criteria, such as those that impose an unnecessarily high cost or those with paperwork burdens that can be reduced or which involve a level of benefits or costs which are either higher or lower than necessary. The review will examine all alternatives, from strengthening a given rule to eliminating it. Nonregulatory approaches, including the supplying of information by the Government, or regulation by another level of government, will be also considered. The benefits and costs will be known only after these alternatives have been developed.

Abstract: The DOT rules cited above state that any price stated for air transportation, a tour or a tour component must be the entire price for that transportation, tour or component. In this petition, Mr. Donald Pevsner complains that some tour operators advertise prices which do not include additional features which must be purchased and which cost extra. He asks that the rules be amended to state that such additional features may only be priced separately if they may be purchased separately, i.e., if they are optional rather than mandatory.

Abstract: Persons authorized to conduct commercial launch activities by a license issued by OCST are required to have in effect at least that amount of third-party liability insurance prescribed by DOT for the licensed activity. In addition, launch firms must secure an amount of insurance, or offer other assurance, that will be adequate to protect the Government when its property or personnel are directly involved in the conduct of commercial launch activities. Rulemaking sets out the criteria OCST will consider in setting the appropriate amount of third-party liability and other insurance firms subject to its authority must carry.

Abstract: The Department is reviewing its regulation establishing a minority business enterprise (MBE) program in its financial assistance programs (49 CFR Part 23). This regulation has been controversial, is of interest to most DOT grant recipients and contractors, and affects the operations of all DOT financial assistance programs. Section 106(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA) extended and modified the program as applied to FHWA and UMTA; similar legislation applied the same requirements to the FAA. The Department issued a final rule to make the STURAA changes in October 1987; a similar rule for FAA programs was published in May 1988. The Department intends subsequently to issue an NPRM that would propose further changes in the regulation.

Significance: Regulatory Program

Legal Authority: 29 USC 794; Section 404(a) of the Federal Aviation Act of 1958, as amended

CFR Citation: 49 CFR 27; 14 CFR 382

Legal Deadline: NPRM, Statutory, January 30, 1987.

Abstract: The Civil Aeronautics Board (CAB) had a regulation providing protection of the rights of handicapped air travellers. Based on recent Congressional action, DOT began enforcing this regulation on January 1, 1985. The Supreme Court's decision in U.S. Department of Transportation v. Paralyzed Veterans of America held that Section 504 of the Rehabilitation Act of 1973 does not apply to nonsubsidized air carriers. This decision left the existing regulation intact. The Air Carrier Access Act of 1986 directed DOT to publish new regulations prohibiting disability-based discrimination in air travel. The Department will use comments received in response to its August 1986 information notice on issues affecting blind passengers as part of the record for this rulemaking. The Department convened an advisory committee to pursue the rulemaking through a negotiated process. The negotiations have concluded and an NPRM has been published.

1569. + ELECTRONIC FILING OF TARIFFS

Significance: Regulatory Program

Legal Authority: 49 USC 1373

CFR Citation: 14 CFR 221

Legal Deadline: None

Abstract: This project is examining whether conversion from a paper document system to a computerized system of filing and monitoring air carrier tariffs can reduce paper flow, speed up processing, and allow the industry to utilize computer and technology to communicate with DOT. The alternative is to maintain the current paper tariffs system. Potential savings to the industry may be greater than to the Government, since airlines already utilize automated fare and rate systems. In addition, airlines may be able to implement changes faster, thus responding more quickly to market conditions, and may be less burdened with the cost of producing and transmitting paper documents. The Department may reduce paper flow, experience savings in processing time and staffing, and improve the accuracy and control of tariff data. In order to assure that users' needs are taken into consideration and that the private sector is involved to the maximum extent in the design, implementation, and operation of such a system, the Department established an Advisory Committee to make continuing recommendations on technical, operational, and policy objectives of the electronic tariff system.

Abstract: The CAB proposed new charter rules for direct and indirect air carriers. The proposed rules retain the financial protections of existing rules for direct air carriers while eliminating rules restricting the types of groups (such as "affinity" or "single-entity") to whom charters may be sold. The proposal would also retain a security instrument and depository system for indirect air carriers, along with contract rules for public protection. The proposal also highlights depository bank and travel agent responsibilities in handling passenger funds. The proposal replaces one made earlier. DOT is considering what action should be taken. Abstract: DOT is proposing to allow carriers an alternative to the current requirement that they post their entire tariffs for passenger and cargo foreign air transportation in printed hard copy at each ticket sales location. Carriers would be able to provide more useful information to consumers using summaries, computer terminals, and printed copies of tariff information. This proposal would permit international carriers the option of making their tariff information available to consumers in a manner similar to that currently used to provide notice of incorporated contract terms to airline passengers traveling in domestic air transportation. Specifically, it would permit the airlines to satisfy the posting requirements quickly and economically by largely eliminating the costly and onerous medium of paper at their sales locations. The airlines would be able to furnish information on fares, rates and rules subject to frequent change through the use of electronic transmissions to display terminals at their sales locations. Abstract: In 1981, the Department proposed a consolidation and expansion of its existing Title VI regulation (49 CFR Part 21). Few comments were received on this NPRM, and a final regulation was never published. The Department reviewed the existing regulation to determine if changes were needed. 1580. DIRECT AIR CARRIER RESPONSIBILITY FOR RETURNING STRANDED CHARTER PASSENGERS

Significance: Nonsignificant

Legal Authority: 49 USC 1324; 49 USC 1371

CFR Citation: 14 CFR 207; 14 CFR 208

Legal Deadline: None

Abstract: This rule would make direct air carriers responsible for returning charter passengers stranded by strikes or other interruptions of their services by eliminating the force majeure clause from charter contracts. However, the Department is considering a comprehensive proposal (RIN 2105-AA41 in this agenda) to revise and simplify air charter rules. The Department's final action in this proceeding will be consistent with the comprehensive review of the charter rule.

Significance: Nonsignificant

Legal Authority: 49 USC 1302; 49 USC 1324; 49 USC 1376; 49 USC 1551(b)(1)(D)

CFR Citation: 14 CFR 233, (Proposed)

Legal Deadline: None

Abstract: This proposed rule would end the current practice of prescribing fixed rates for the transportation of mail by air, and in its place establish zones for each category of mail. Each zone would be defined by maximum and minimum rates prescribed by DOT, and airlines would be free to contract with the Postal Service for the carriage of mail at any price within the zone. The rule is now moot with regard to domestic mail rates except in Alaska.

1582. AIR TRAVELERS: AGE DISCRIMINATION

Significance: Nonsignificant

Legal Authority: 42 USC 6102

CFR Citation: 14 CFR 376, (Proposed)

Legal Deadline: None

Abstract: This rule will prohibit discrimination against air travelers on the basis of age and implement the Age Discrimination Act of 1975. A final rule was adopted by the CAB on April 10, 1980, and was forwarded to the Secretary of HHS for approval, as required by the Age Discrimination Act. The rule was approved by HHS on July 13, 1984, with changes. However, these changes have not been incorporated. DOT is considering combining this rulemaking with a broader DOT age discrimination rule on which work is now under way.

Abstract: This rule will set out Department policies for regulation of the rates, routes, and services of airlines that have interstate authority. The CAB concluded that under section 105 of the Federal Aviation Act of 1958 it, not the States, was responsible for economic regulation (or deregulation, as the case may be) of all the routes, rates, or services of any airline holding either (i) a certificate of public convenience and necessity to provide interstate air transportation, or (ii) an exemption under section 416 of the Act from the requirement for such a certificate.

Abstract: This rule would set the minimum per-person aircraft accident liability insurance limits for U.S. and Canadian on-demand air taxi operators at $150,000, instead of at $300,000 as it is for other air carriers. The NPRM further includes alternative proposals to set the per-person limit at $75,000 or $100,000 or to eliminate all minimum amounts, requiring a public notice instead. Other rules for insurance coverage for these carriers would be as in 14 CFR Part 205, including the prohibition on safety-related exclusions.

CFR Citation: 14 CFR 253; 14 CFR 399

Legal Deadline: None

Abstract: The CAB proposed to amend its rules requiring notice of contract terms for domestic travel to require that actual notice be given passengers of terms absolving carriers from any responsibility to transport a passenger to the destination named on the ticket, or to reimburse the passenger for expenses in reaching the airport noted on the ticket when a flight is diverted to another airport in the same metropolitan area. Alternatively, the Board proposed to declare it to be an unfair and deceptive practice to divert a passenger without arranging and paying for alternate transportation to the destination airport named on the passenger's ticket. The Board considered a final rule but did not decide what action to take. DOT is now considering what action to take.

Legal Deadline: None

Abstract: The American Association of Airport Executives, the Airport Operators Council International and the Air Transport Association of America petitioned the CAB to simplify its counter-sign requirements. Presently, airlines are required to display four different consumer protection notices on their ticket counters. The petitioners alleged that the current notices are hard to read and, therefore, do not provide much notice to passengers. They proposed replacing the four notices with one simplified counter sign. The CAB adopted an NPRM that proposed a number of alternatives, such as a long and/or short notice, where the notices would be required to be posted and whether a smoking notice should be included. DOT is now considering what action to take in response to the notice and comments filed.

The Freedom of Information Act of 1986, Pub. L. 99-570, Title I, Subtitle Q, requires agencies to promulgate regulations implementing the Act's new fee schedule, and establish guidelines

Abstract: This final rule revises DOT's Freedom of Information Act regulations. Specific areas addressed include fees to be charged for search and reproduction costs and the establishment of more precise criteria to enable the Department to determine when a waiver of fees is in the public interest. It also addressed records relating to those functions of the Civil Aeronautics Board that were transferred to DOT. This rulemaking was significant because of substantial public interest. It was needed to comply with recent statutory changes, including OMB and Department of Justice guidance, and periodic revisions to keep current with policy changes.

Abstract: The Department has made final its proposal to reissue its rules for the use and change of names by airlines. The final rule replaces detailed requirements with a simple name-registration provision. Airlines are required under this rule to notify other airlines with similar names. The rule encourages carriers to resolve potential problems in the use of similar names among themselves, without unnecessary Government intervention. The rule will now apply to commuter air carriers. The Department retains its authority to take enforcement action, when necessary, against unfair and deceptive practices in the use of names.

1599. ● AIRLINE SERVICE QUALITY PERFORMANCE

Significance: Nonsignificant

Legal Authority: 49 USC 1302; 49 USC 1324; 49 USC 1374; 49 USC 1377; 49 USC 1381; 49 USC 1389; 49 USC 1502; 5 USC 553(e)

CFR Citation: 14 CFR 234; 14 CFR 255

Legal Deadline: None

Abstract: This rule amends the Department's airline service quality performance rule, issued Sept. 9, 1987 (52 FR 34056) to allow computerized reservations system (CRS) vendors 10 days, instead of 5 days, to include in their CRS displays the flight delay and cancellation information submitted by participating carriers. It responds to a request from the Air Transport Association (ATA) for more flexibility to accommodate the carrier computer loading schedules that are set up a year in advance. The rule also requires the participating carriers to assign a letter code to flights scheduled to operate three times or less during a month in their reports to CRS vendors.

Significance: Nonsignificant

Legal Authority: 49 USC 322; EO 12549

CFR Citation: 49 CFR 29

Legal Deadline: None

Abstract: EO 12549 provides that agencies shall participate in a system for debarment and suspension from programs and activities involving Federal financial aid and benefits. The Order directs agencies to issue implementing regulations that are consistent with OMB guidelines. This rulemaking established DOT's requirements and procedures for suspension and debarment in financial-assistance programs, consistent with the Executive Order.

Abstract: The Coast Guard is proposing regulations that will establish safety standards for self-elevating offshore service vessels commonly known as liftboats. The high rate of casualties which have been experienced by these vessels has emphasized the need for specific regulations addressing the hazards inherent in their operations. These vessels support the offshore mineral and energy industry by performing a multitude of services such as dive support, painting, sandblasting and well servicing, among others. In performing these services, these vessels fall within the statutory definition of Offshore Supply Vessels (OSV) and are therefore subject to inspection as OSVs. The Coast Guard will consider using existing standards wherever possible, particularly those that have and are being applied to conventional OSVs. However, because of the unique design and operating characteristics exhibited by these liftboats, many of the current regulations used to inspect and certificate conventional OSVs are inadequate to ensure the safe operation of these vessels. The Coast Guard believes that development and enforcement of standards specifically addressing these (CONT)

Additional Information: unique hull forms and operating characteristics will significantly improve their safety record. These rules are not expected to impose substantial costs on industry. On February 14, 1983, the Coast Guard published an ANPRM concerning new construction of Offshore Supply Vessels (OSVs)(48 FR 6636). The information in the ANPRM presents the Coast Guard's overall approach with respect to developing comprehensive standards for conventional offshore supply vessels as contrasted with liftboats and other nonconventional OSVs. On March 7, 1985, the Coast Guard published an ANPRM on Revision of the Regulations on Outer Continental Shelf Activities (50 FR 9290). That ANPRM (CGD 84-098) solicited specific comments regarding appropriate standards that should be applied to the various types of vessels used for OCS activities. Some comments were received that addressed liftboats. These comments will be considered with the comments received in response to this rulemaking effort.

Abstract: This proposal would enumerate selected Coast Guard services for which user fees would be charged, indicate how the charges are to be made, and how they are to be paid. User fees are being considered for the following services to small passenger vessels and sailing school vessels: initial inspection for certification, inspection for certification, reinspection, drydock examination, licensing/certification, and documentation. Abstract: The Coast Guard periodically issues rules listing additional cargoes which may be carried on tank vessels. Since this action is recurrent, the Coast Guard has established a continuing docket for this type of action. Notices for this rule are anticipated in Jan./Feb. of each year. Final rules will be completed prior to September 30 of each year.

Legal Deadline: None

Abstract: Limited visibility from the navigation bridge of vessels has been identified as a factor in vessel casualties and near-misses. This action would establish standards for acceptable limits of visibility based on existing international guidelines. Because the primary focus is on new vessel design, costs are estimated to be minimal compared to potential benefits in casualties prevented.

Significance: Nonsignificant

Legal Authority: 33 USC 1223(a)(5)

CFR Citation: 33 CFR 160

Legal Deadline: None

Abstract: This revision to 33 CFR 160 Subpart C would require advance notices from all foreign commercial vessels of less than 1600 gross tons bound for parts or places in the Miami Captain of the Port zone. Currently 33 CFR 160.201(c)(1) excepts all vessels of less than 1600 gross tons from reporting advance notices of arrival. The revision would require vessels of more than 1600 gross tons to provide to the COTP crew makeup and charter information at least 24 hours prior to entering ports or places within the COTP zone.

CFR Citation: 46 CFR 31; 46 CFR 71; 46 CFR 91; 46 CFR 167; 46 CFR 176; 46 CFR 189

Abstract: Various laws, international agreements, and Coast Guard regulations require the posting of specific certificates, licenses, plans, operating instructions, and warnings onboard vessels. Some of these contain essential operational data which must be accessible at all times; others are primarily informational. This rulemaking project will seek to reduce posting requirements for nonessential operational data to reduce the burden on the public. Alternatives such as having items readily available rather than being posted are being considered.

Abstract: Rulemaking would redefine and establish more stringent qualifying criteria for individuals engaged in transporting and transferring various categories of oil and dangerous liquid cargoes. The Port and Tanker Safety Act of 1978 mandated the establishment of personnel qualification and manning standards for tank vessels. In addition, the International Convention on the

Standards for Training, Certification, and Watchkeeping for Seafarers (STCW), 1978 has entered into effect and establishes international standards for tank vessel personnel qualifications. This project is significant because of its impact on the environment in a publicly sensitive area.

Legal Authority: 43 USC 1333(d); 43 USC 1348(c); 43 USC 1356

CFR Citation: 33 CFR 140; 33 CFR 146

Legal Deadline: Final, Statutory, September 1, 1987.
Omnibus Budget Reconciliation Act of 1986 (PL 99-509)

Abstract: Would modify 33 CFR Subchapter N to require evacuation procedures for all Outer Continental Shelf (OCS) facilities on the U.S. OCS. This would apply to MODUs, both foreign and U.S.-flag; Fixed Platforms and Floating Facilities. Any designated standby vessel used as part of a plan would have to meet specific equipment requirements. This action is considered significant because of substantial public interest.

1674. + PROGRAMS FOR CHEMICAL DRUG AND ALCOHOL TESTING OF COMMERCIAL VESSEL PERSONNEL (CGD 86-067)

Significance: Agency Priority

Legal Authority: 46 USC 2103; 46 USC 3306; 46 USC 7101; 46 USC 7503; 46 USC 7701; 46 USC 6101

CFR Citation: 46 CFR 5; 46 CFR 16; 46 CFR 4

Legal Deadline: None

Abstract: Due to the safety and health concerns associated with drug abuse by merchant marine personnel, as well as legal restrictions on drug use, the Coast Guard is proposing drug abatement programs which include periodic drug tests (urinalysis) as part of required physical examinations, preemployment testing and random sampling programs for all marine employees as well as post- accident and reasonable-cause testing. The post-accident and reasonable cause portions of the program will also involve testing for alcohol use. This rulemaking is considered significant because of substantial public interest.

Significance: Nonsignificant

Legal Authority: 46 USC 4310

CFR Citation: 33 CFR 179.01 to 179.19

Legal Deadline: None

Abstract: This rulemaking would require marine dealers to furnish boat and engine manufacturers with serial numbers of new boats and engines sold and the names and addresses of retail first purchasers of those products. Manufacturers would use the information to locate purchasers of boats and engines recalled for defects which create a substantial risk of personal injury to the public and for failures to comply with applicable regulations. Currently many manufacturers cannot obtain sufficient first-purchaser information and their attempts to notify during recalls are inadequate.

Abstract: Rule proposes to amend current regulations on electrical systems for new boats by incorporating Underwriters Laboratories (UL) Standard 1426 by reference to replace UL Standard 83 in Subpart I of Part 83. The proposed rule would also delete a general reference to acceptable wire types in circuits of 50 volts or more. The intended effect is to recognize one of the most widely used wire types, UL boat cable, and to delete a very general reference that is not considered useful.

Significance: Nonsignificant

Legal Authority: 33 USC 1233

CFR Citation: 33 CFR 100.15

1695. ALTERNATIVE PROVISIONS FOR REINSPECTIONS OF OFFSHORE SUPPLY VESSELS IN FOREIGN PORTS (CGD 82-004A)

Significance: Nonsignificant

Legal Authority: 46 USC 3306; 33 USC 1321(j)(1)

CFR Citation: 46 CFR 91

Legal Deadline: None

Abstract: The Coast Guard is proposing to amend the regulations concerning the reinspection of offshore supply vessels (OSVs) in foreign ports. Currently OSVs holding two year certificates of inspection are reinspected between the 10th and 14th month of the certificate's period. In recent years, more OSVs have been based overseas in remote locations. Vessel owners must reimburse the Coast Guard for inspector travel and per diem costs in connection with foreign inspections. This action would propose an alternative to the traditional Coast Guard mid-period reinspection. The benefits would be flexibility and financial savings to the OSV industry and more effective use of Coast Guard resources.

Significance: Nonsignificant

Legal Authority: 50 USC 191; 33 USC 1231

CFR Citation: 33 CFR 6

Legal Deadline: None

Abstract: Following the 1986 reorganization of the Coast Guard, Area Commanders do not have authority to establish security zones, control vessels, or perform other necessary actions. This rule would delegate that authority to the Area Commanders. Since this proposal deals with agency procedure, it will be issued as a rule with no notice of proposed rulemaking.

Legal Authority: 49 USC 1354; 49 USC 1421; 49 USC 1423; 49 USC 1431

CFR Citation: 14 CFR 36

Abstract: Part 36 prescribes noise standards for type certification of airplanes. A new generation of aircraft powered by prop-fan engines may present a noise problem that is not currently addressed by Part 36 in that en route noise at cruise altitude (25,000 to 30,000 ft) may require a new standard. Abstract: This action proposes to revise the regulation dealing with the required number of flight attendants to clarify the original intent of the regulation. The current regulations are confusing and not clearly understood. The proposed amendments would clarify the number of flight attendants required when passengers are onboard an airplane, during specified periods, and proposals would allow for a reduced number of flight attendants onboard an airplane during specified periods. The proposals would specify the conditions to be met to reduce the number of flight attendants at these stops. Additionally, the proposals would allow other authorized persons to be substituted for the required flight attendants at these stops, and would clearly establish the requirements for training for those authorized persons. A proposed new rule would clarify where the required flight attendants and other persons must be located when they are onboard the airplane. This action is considered significant because of the substantial public interest.

1738. + TYPE AND NUMBER OF PASSENGER EMERGENCY EXITS REQUIRED IN TRANSPORT CATEGORY AIRPLANES

Significance: Agency Priority

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g); PL 97-449; 49 CFR 1.47(a)

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This notice will propose to revise the current requirements for passenger emergency exits and to adopt two new exit types into the regulations. These proposals are intended to provide more consistent standards with respect to exit types and quantities required for passenger seating configurations while retaining the same level of safety. This notice also will propose to reduce the maximum inflation time of an escape slide to reflect the current state of the art. These proposals resulted from the Public Technical Conference on Emergency Evacuation of Transport Airplanes held in Seattle, Washington on September 3-6, 1985. This rulemaking is considered significant because it involves an important cabin-safety issue.

PL 100-223 Sec 303

Abstract: This notice proposes new requirements for water-survival equipment carried aboard airplanes and rotocraft. The requirements would apply, after specified dates, to US-certificate holders that conduct common-carriage operations with airplanes and rotocraft. This proposal is in response to the Airport and Airway Safety and Capacity Enhancement Act of 1987 (PL 100-223) and relates to safety recommendations by the National Transportation Safety Board. The proposed requirements are intended to increase the likelihood of aircraft passengers surviving a crash landing in water and, thus, this rulemaking is significant because of the safety implications.

PL 100-223 Sec 303

Abstract: The FAA proposes to require that all seats of transport category airplanes used in air carrier operations and transport category airplanes used in scheduled intrastate service comply with improved crashworthiness standards. The Airport and Airways Safety and Capacity Expansion Act of 1987 directs the Secretary of Transportation to initiate a rulemaking proceeding to consider requiring all seats onboard all air carrier aircraft to meet improved crashworthiness standards based upon the best available testing standards. The intended effect of this action is to increase passenger protection and survivability in survivable impact accidents. CFR Citation: 14 CFR 67

Legal Deadline: None

Abstract: These regulations specify the medical standards which must be met before a medical certificate is issued to an airman. For example, a medical certificate is required before a person can obtain a pilot license. During rulemaking involving these regulations, a considerable number of commenters expressed the belief that the current standards should and could be revised to state, in generally applicable objective terms, all those circumstances in which the FAA will issue medical certificates. In the past, some certificates have been issued on a case-by-case basis, with appropriate limitations, under exemption and waiver provisions where strict compliance with the existing standards was not essential in the interest of safety. A comprehensive review of these regulations is necessary to determine if the commenters' arguments are correct. If they are and the requested regulatory changes are possible, it could greatly reduce burdens, both on the FAA and airmen, associated with the processing of medical certificates.

Abstract: This notice will propose to amend the regulations that deal with passenger information, safe passenger egress, child restraint, and emergency equipment. The proposals would prohibit smoking at any time in any location displaying a "no smoking" sign or placard. They would require that passengers wear safety belts at any time a "fasten seatbelts" sign is turned on. They would require that the "fasten seatbelts" sign be turned on during taxi. They would clearly establish a requirement for an assisting means of egress and the stowage of passenger service equipment prior to taxi. They would make the pilot in command or, in the case of operations under Part 121, the certificate holder responsible for informing the passengers that they may be liable for a civil penalty should they fail to comply with FAA regulations. They would require that supplementary child restraint devices be accepted by a certificate holder when requested by the child's attendant.

Significance: Nonsignificant

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603

CFR Citation: 14 CFR 33

Legal Deadline: None

Abstract: Advance notice proposed the addition of a new paragraph, FAR Section 33.35(f), to incorporate requirements for the fuel mixture to go to full-rich if a disconnect occurs in the mixture linkage. NPRM would require both the fuel-air mixture control device and throttle control device to move automatically to an acceptable position for continued safe operation in event control linkage of these levers become disconnected.

Abstract: The FAA proposes to update and clarify the certification and operations specifications requirements for persons who operate aircraft for

compensation or hire by (1) codifying the Special Federal Aviation Regulation pertaining to the certification requirements and (2) consolidating into one part the certification and operations specifications requirements for persons who operate under Part 121 or Part 135. The proposal responds to the termination of the Civil Aeronautics Board (CAB) and to changes in the air transportation industry since the Airline Deregulation Act of 1978. The proposal would provide a guide enabling persons who operate aircraft for compensation or hire to determine the certification and operations requirements with which they must comply.

Legal Deadline: None

Abstract: This notice proposes to amend the airworthiness standards for transport category airplane landing gear aural warning systems and the operating rules for air carrier and air taxi operators of transport airplanes by updating the present requirements to make them more functionally oriented. This proposal is prompted by reports of nuisance or inappropriate aural warnings which have occcurred in modern transport airplanes when strictly adhering to the present regulations. It is intended to enhance flight safety while decreasing the regulatory burden associated with making an equivalent level of safety finding or exemption, for those systems that do not meet the existing requirements. This proposal will not affect existing certified airplanes.

Significance: Regulatory Program

CFR Citation: 14 CFR 135; 14 CFR 121

Legal Deadline: None

Abstract: This notice proposes to require that all turbojet-powered airplanes operated in accordance with Part 121 have airborne systems that warn a flightcrew of the presence of low-altitude windshear conditions and then provide flight guidance to follow that would produce the optimal flight path for a missed approach procedure. This proposal would require that any Part 121 operator using an approved simulator as a part of its training program develop a specific windshear-related simulator flight training course for its flightcrews. This proposal would require that Part 121 and 135 operators using an approved training program include training concerning the low-altitude windshear phenomenon as a part of their normal ground training. Low-altitude windshear has been a prime causal factor in numerous air carrier accidents and possibly has contributed to a number of general aviation accidents.

Abstract: This notice proposes to require domestic, flag, and supplemental air carriers, commercial operators of large aircraft, air taxi operators, commercial operators, certain contractors to these operators, and air traffic control facilities not operated by, or under contract with the FAA or the U.S. military to have an anti-drug program for employees who perform specific safety-related functions. The proposals are intended to ensure a drug-free aviation environment and to eliminate drug abuse in commercial aviation.

Abstract: This notice proposes to require the installation and use of a Traffic Alert and Collision Avoidance System (TCAS) in large transport type airplanes and certain turbine powered smaller airplanes. TCAS, which utilizes the signal from existing transponders, would provide for a collision avoidance capability in the cockpit independent of the ground Air Traffic Control (ATC) system, or where there is no ATC coverage. Additionally, the notice proposes that all operators of TCAS-equipped airplanes have an FAA-approved TCAS training program for flight crewmembers.

CFR Citation: 14 CFR 145

Abstract: This notice proposes to update the regulations for certificating foreign repair stations to accommodate the increasing demand for maintenance and alteration of U.S.-registered aircraft manufactured worldwide. This proposal would (1) modify the requirement for determination of need before a foreign repair station may be considered for U.S. certification, and (2) modify the limitations on the scope of work that a foreign repair station may perform on U.S.-registered aircraft, engines, propellers, appliances, and component parts for use on U.S.-registered aircraft. In addition, it is proposed that a foreign or domestic manufacturer, or a product for which it holds a U.S. type certificate and that is certificated by the FAA as a repair station, be allowed to return to service a component maintained or altered by a noncertificated source subject to specified conditions. Lastly, to be consistent with the air carrier operating rules, the air taxi/commercial operator rules would be amended to permit the airworthiness release to be signed by a person authorized by a U.S.-certificated foreign repair station.

Abstract: This notice supplements NPRM 81-14, which proposed to permit the operation of powered aircraft with certain inoperative instruments and equipment that are not essential for the safe operation of the aircraft. After further review of the comments from the public, the FAA concluded that provisions in that notice could be accomplished with less paperwork, and the concept could be further modified to conform to other pertinent regulations. The supplemental NPRM proposed to permit rotorcraft and nonturbine powered airplanes (for which a master minimum equipment list has not been developed), that are not being utilized in an air carrier operation, to be operated with certain inoperative instruments and equipment. Furthermore, this supplemental NPRM proposed to permit flight operations with certain inoperative instruments and equipment for small multiengine rotorcraft and nonturbine-powered small multiengine airplanes (for which a master minimum equipment list has been developed and that are not being utilized in an air carrier operation) the option of selecting the minimum equipment (cont)

CFR Citation: 14 CFR 61

Legal Deadline: None

Abstract: This final rule would establish a recreational pilot certificate which would allow a student pilot to receive certification to fly certain aircraft after fewer hours of training than are currently required of a private pilot applicant. The recreational pilot certificate is intended to be a low-cost alternative to a private pilot certificate for persons interested in flying basic, experimental, or homebuilt aircraft in close proximity to a home airport that is not in airspace in which communication with an air traffic control facility is required. The rule would also establish an annual flight review requirement for noninstrument-rated private pilots with fewer than 400 flight hours. This rulemaking is significant because of substantial public interest and safety implications.

CFR Citation: 14 CFR 27; 14 CFR 29

Legal Deadline: None

Abstract: This project proposes to amend the rotorcraft airworthiness standards in Parts 27 and 29 of the FAR. These proposals would add two dynamic crash-impact design requirement conditions for seat and occupant restraint systems, increase the static design load factors for seating devices and items of mass in the cabin or adjacent to the cabin as prescribed, prescribe a shoulder harness for each occupant, and add human impact injury criteria for the dynamic crash-impact conditions. These proposals are intended to significantly improve occupant protection levels in a survivable emergency landing impact. This rulemaking is significant because of the obvious safety improvements in crash situations, but also because of industry and operator concerns as to incurred costs due to increased weight and design effort.

Abstract: This proposal was part of a Department of Energy (DOE) contemplated action to enhance protection of nuclear research and production facilities, whereby helicopter operations over the designated sites would be prohibited without prior DOE authorization. A summary of written and oral comments received in response to notices and hearings was sent to the DOE February 22, 1985, for them to address. DOE has conducted an indepth review of security at all sites, and has concluded that further regulatory action is not necessary. The proposal will be withdrawn.

Significance: Agency Priority

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603; 49 USC 1431 Federal Aviation Act of 1958, Sec. 611

CFR Citation: 14 CFR 21; 14 CFR 36

Legal Deadline: None

Abstract: Would revise noise certification standards for propeller-driven small airplanes to substitute the use of actual takeoff tests for the level flyover tests currently specified. This proposal would revise test procedures applicable to noise certification tests conducted on or after January 1, 1988. It would also revise the noise-level limit numbers to approximate the equivalent of the sound levels measured and corrected in accordance with the current standard. These proposals result from industry requests for certification to be more directly based upon typical inservice noise measurements and from studies conducted in several nations over a three-year period under the auspices of the International Civil Aviation Organization. In addition, the FAA proposes to exempt antique airplanes and changes involving the addition of floats or skis from the acoustical change measurement and documentation requirements of Part 21. This regulation is significant because of substantial public interest.

CFR Citation: 14 CFR 36; 14 CFR 91

Legal Deadline: None

Abstract: This proposal would revise both noise certification standards and operating noise rules to ensure that aircraft certificated within certain broad noise groups or "stages" remain within those stages. Those proposals would apply to transport category large aircraft and to turbojet powered aircraft regardless of category. The proposed rule would prohibit modification of both individual airplanes and whole airplane types where those modifications would result in the growth of noise beyond the limits of the airplane's current stage. While the proposal would not restrict airplane changes that result in lower noise, it would in some cases prohibit remodification of those aircraft to return to their original noise levels. The FAA believes that these rules are necessary to correct a defect in the current regulations and to protect airports, aircraft operators, and the public from the effects of that defect. This rulemaking is significant because of intense public interest.

Abstract: The proposal would require that all civil aircraft operating into, within, or out of the United States through a coastal air defense identification zone be operated under a filed flight plan regardless of true airspeed. Each such operation by an aircraft equipped with a functioning air traffic control (ATC) transponder would have to be conducted with that transponder on and replying on the appropriate code or on a code assigned by ATC. Abstract: This action would propose requirements to improve cargo compartment fire protection for transport category airplanes operated under Parts 121 and 135 after a specified date. This action would propose a new rule which would require, within two years, replacement of ceiling and sidewall (including door and bulkhead) cargo compartment fire resistant liner panels in Class C and D cargo compartments greater than 200 cubic feet in volume in certain transport category airplanes. This rulemaking is significant because of substantial public interest in crashworthiness criteria.

CFR Citation: 14 CFR 21; 14 CFR 25; 14 CFR 121

Legal Deadline: None

Abstract: This notice proposes to limit increases in passenger emergency escape path distance by establishing a new standard limiting the distance any passenger seat may be from the nearest emergency exit and the distance any exit may be from an adjacent exit. The proposal would make the standard applicable to type certification of new transport category airplane models, regardless of the date of original application for type certificate, and to airplanes operating under Part 121, except those already in operation. The standard would be applicable for issuance of standard airworthiness certificates for airplanes manufactured after the NPRM date. The proposal is a result of the recent public Emergency Evacuation Task Force and is intended to improve the likelihood of passengers safely escaping an airplane during an emergency evacuation; for this reason the rulemaking is considered significant.

Abstract: This rulemaking proposes to establish a single-class TCA, require all aircraft to be equipped with an automatic altitude reporting transponder when operating within 30 miles of a TCA primary airport, require student pilots to receive TCA training and instructor pilot endorsement in order to conduct operations in a TCA, require helicopters to be equipped with appropriate navigational aid equipment, and require a private pilot license for operations at certain TCA primary airports. A draft final rule is being prepared to extract all of the Mode C issues which have been disposed of in Amendment No. 91-203. This rulemaking is considered significant because it is controversial, involving substantial public interest.

CFR Citation: 14 CFR 135

Legal Deadline: None

Abstract: The FAA amends its regulations to require digital flight data recorders and cockpit voice recorders (CVRs) to be installed in a broad category of airplanes and rotorcraft operated by air carriers and commuters, as well as in selected aircraft operated in general aviation. The amendments are in response to legislation which mandates the FAA to amend its flight recorder and CVR requirements in accordance with recommendations from the National Transportation Safety Board (NTSB). The intent of this rulemaking is to provide more information to accident investigators in determining the causes of accidents and the measures needed to correct the causes. In addition, the FAA also requests additional comments regarding the general aviation requirements. This rulemaking is considered significant because of substantial public and congressional interest.

CFR Citation: 14 CFR 25; 14 CFR 121

Legal Deadline: None

Abstract: This notice proposes to require that the fuel-tank access panels of transport category airplanes be designed to minimize penetration by likely foreign objects and be fire resistant. This proposed change is based on service experience and is intended to reduce the hazards associated with the loss of access panels. This notice also proposes to require that the panels of all turbine powered airplanes operated in air carrier service after a specified date meet these standards. This rulemaking is considered significant because it involves an important crashworthiness safety issue.

Abstract: This notice proposes to require certain airport operators to submit to the Administrator, for approval and inclusion in their approved security programs, a plan for the installation and use of a computer-controlled card system for access to secured areas of the airport. This notice proposes that airport operators submit a plan for a computer-controlled card system according to a schedule based on the number of passengers screened at the airport each year or as designated by the Director of Civil Aviation Security for the first phase of the schedule not withstanding the number of passengers screened annually. The proposal is significant because it is critical to aviation and airport security.

Abstract: This action would amend various sections of the regulations. Some of the amendments are clarifying or editorial in nature or correct improper or obsolete references. Others relax certain existing requirements. Others allow issuance of special flight permits for an additional purpose, relax a requirement for passenger information signs, and eliminate the bulk erasure device on cockpit voice recorders. This action is in response to numerous complaints, suggestions, and petitions for exemption concerning several regulatory requirements received from users of the National Airspace System. These users state that these sections contain obsolete references and vague, complex, and inadequate language and that, in some instances, the cost of compliance is not justified by the benefits derived.

1811. IMPROVED STRUCTURAL REQUIREMENTS FOR PRESSURIZED CABINS AND COMPARTMENTS IN TRANSPORT CATEGORY AIRPLANES

Significance: Nonsignificant

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: Notice proposes to amend Part 25 of the Federal Aviation Regulations (FAR) to upgrade the structural requirements for transport category airplane pressurized cabins by (1) amending the criteria for evaluation of the secondary effects of openings in the pressure vessel, and (2) extending the area of consideration to include openings anywhere within the pressure vessel. The required opening sizes to be considered would not be changed. The proposal is the result of an FAA review of the pressurized cabin load requirements and is intended to make the pressurized cabin load requirements less design-dependent and more objective. It would require evaluation of openings in any pressurized compartment and examination of the effects of differential pressure loads on any critical structure inside or outside of the pressurized cabin.

Legal Deadline: None

Abstract: Special Federal Aviation Regulation (SFAR) 27 prescribes standards and test procedures for fuel venting and exhaust emissions for the turbine powered airplanes. This proposal would replace SFAR 27, as amended through SFAR 27-6, with a new Part 34 of the Federal Aviation Regulations which will include all of the standards and test procedures of 40 CFR 87 previously included in SFAR 27. This will codify in a single part all of the applicable requirements of 40 CFR 87, Control of Air Pollution from Aircraft and Aircraft Engines; Emissions Standards and Test Procedures, as amended, December 30, 1982, and insert requirements to comply with Part 34 in the other affected Parts where applicable.

PL 100-202

Abstract: This rule requires the "no smoking" sign to be turned on at all times on scheduled airline flights, except for flights between the United States and other countries, which are scheduled to be two hours or less in duration. This rule carries out a ban on smoking on such flights mandated by PL 100-202. The rule also makes minor changes in other, related sections of Parts 121 and 135 which affect smoking aboard air carrier aircraft during flights not covered by a total ban. Smoking in lavatories is prohibited on all air carrier flights. By December 31, 1988, aircraft lavatories must have placards which notify passengers that tampering with smoke detectors is prohibited by Federal law. Finally the required passenger briefing must include more detailed instructions on smoking, including all these changes and the new statutory ban on tampering with smoke alarms in aircraft lavatories.

CFR Citation: 14 CFR 25; 14 CFR 121

Legal Deadline: None

Abstract: These amendments upgrade the fire safety standards for cabin interior materials in transport category airplanes by establishing refined fire test procedures and apparatus and a new requirement for smoke emission testing. The refined test procedures and apparatus are the result of additional research and fire testing and are intended to improve the reproducibility of test results. The refinement for smoke emission testing is intended to minimize the possibility that emergency egress will be hampered by smoke

obscuration. In addition, the operating rules for air carrier (Part 121) and air taxi (Part 135) operators, which were adopted in the original final rule, are amended to enable additional compliance time to be granted for the few interior components for which timely compliance cannot be achieved.

The FAA findings concerning the requested additional comments on the final flammability criteria are also presented. These amendment actions were considered significant because of public safety factors.

CFR Citation: 14 CFR 91

Legal Deadline: Final, Statutory, June 30, 1988.

Abstract: This rulemaking requires a transponder and automatic altitude reporting equipment in terminal airspace of certain airports where air traffic control radar service is provided. Implementation will be in two phases: Phase I, effective June 1, 1989, requires a transponder with Mode C at and above 10,000 feet MSL, and within 30 miles of TCA primary airports. Balloons, gliders, and aircraft without an electrical system are excluded when operating outside a TCA below the altitude of the TCA ceiling and when operating between 10,000 and 18,000 feet MSL. Phase II, effective December 30, 1990, implements a transponder with Mode C requirement in and above the airspace of an ARSA up to 10,000 feet. This rulemaking was significant because of substantial public interest and statutory requirement.

PL 100-91 requires a final rule within 90 days of the date DOI submitted recommendations to the FAA, or by 3/28/88. However, if the recommendations would have adverse impacts on aviation

Abstract: PL 100-91, signed on August 18, 1987, required the Department of Interior to submit recommendations to the FAA for regulation of aircraft overflight of the Grand Canyon. DOI submitted its recommendations to FAA on December 29, 1987. The law further requires that FAA adopt regulations

which implement the DOI recommendations. This rulemaking fulfills that requirement. This rule is significant because of the direct effect on programs of the National Park Service, Department of the Interior.

CFR Citation: 14 CFR 36

Legal Deadline: None

Abstract: Part 36 prescribes noise type certification standards for turbo jet powered airplanes and propeller driven small airplanes regardless of category. This rule reorganizes and realigns the noise standards to make them more understandable and easier to use. Other improvements are deleting redundancies, obsolete compliance dates, and other minor changes.

Legal Authority: 49 USC 10927 Note

CFR Citation: 49 CFR 387

Legal Deadline: None

Abstract: The FHWA has determined that the issues associated with its authority to permit motor carriers to self-insure need to be examined in light of the insurance crisis affecting the motor carrier industry. The FHWA is seeking public comment from interested parties concerning self-insurance as a viable and effective mechanism for demonstrating financial responsibility as required by the Motor Carrier Act of 1980. This rulemaking action is considered significant because of the public interest in the issue being considered.

Abstract: Sections 207-209 of the Motor Carrier Safety Act of 1984 establish a process whereby any State law or regulation pertaining to commercial motor vehicle safety in interstate commerce will be reviewed and analyzed by the Commercial Motor Vehicle Safety Regulatory Review Panel (Safety Panel). The Safety Panel is to determine if such law or regulation has the same effect as, is less stringent than, or is additional to or more stringent than the Federal Motor Carrier Safety Regulations. Based on the determination of the Safety Panel, the Secretary is to initiate a rulemaking proceeding to determine if such a law or regulation may remain in effect and enforced. This advance notice of proposed rulemaking is the initial rulemaking action for any possible preemptive action by the Secretary. It will contain alternatives for comment on ways the Secretary may satisfy the requirements of section 208 of the Act.

Abstract: This regulation proposes to consolidate and amend existing air quality requirements for transportation projects into a single amended air quality regulation. The amended regulation is intended to streamline and simplify (1) the process of determining which highway projects are exempt from the Federal assistance limitations of section 176(a) of the Clean Air Act (CAA), and (2) the conformity and priority procedures contained in 23 CFR 770. The amendments are also intended to provide more authority and flexibility to States and to meet the objectives of the CAA in the most cost-effective and expeditious manner. The amendments are significant because they involve important departmental policy.

Abstract: The FHWA is considering proposing revisions to the requirements for private motor carriers of passengers and the drivers of private motor vehicles of passengers. The proposed revisions would require private motor carriers of passengers and drivers of private motor vehicles of passengers to operate under the Federal Motor Carrier Safety Regulations (FMCSR). However, the paperwork burden of these requirements will be minimized and several parts of the FMCSR will not apply to either private motor carriers of passengers or to drivers of such vehicles. This rulemaking is significant in that it is controversial, involving bringing new carriers under the regulatory scheme.

Abstract: The FHWA is requesting comments on a proposal which would mandate chemical testing of interstate drivers of commercial motor vehicles for the use of drugs. The impetus for this action is the safety and health concern associated with the use of drugs by these personnel. The goal of the proposed rule is to reduce accidents and casualties that result from the use of drugs. This NPRM was preceded by two drug rulemaking actions which were published in the Federal Register on 5/13/86 (BMCS Docket No. MC-116, Amendment No. 83-17, 51 FR 17568; BMCS Docket No. MC-120, Notice No. 86-3, 51 FR 17572). The latter of those actions proposed a drug test plan (much less comprehensive than proposed here) for drivers of hazardous materials. The former requested comments on specific questions regarding the various aspects of a drug control program applicable to interstate drivers. The intent of this NPRM is to consolidate the subject matter of the previous actions and propose a comprehensive drug control program applicable to all drivers in interstate commerce. Because the impact of this proposal (cont)

Abstract: The FHWA is seeking public comment concerning the development of Federal commercial motor vehicle inspection standards which would be applicable to motor carriers engaged in interstate or foreign commerce. This action is required by section 210 of the Motor Carrier Safety Act of 1984. The proposed revisions will require motor carriers to comply with Federal inspection standards, a State inspection program or an authorized self-inspection program.

Significance: Regulatory Program

Legal Authority: 49 USC 3102; PL 98-554, Sec 110

CFR Citation: 49 CFR 393

Legal Deadline: None

Abstract: This rulemaking action responds to section 210 of the Motor Carrier Safety Act of 1984. Section 210 requires the Department to open Part 393 of the Federal Motor Carrier Safety Regulations (FMCSR), which concerns the parts and accessories necessary for the safe operation of commercial motor vehicles for public comment and review. In essence, Part 393 is the basis for the vehicle inspection currently performed on vehicles operated by motor carriers subject to DOT jurisdiction.

Significance: Regulatory Program

Legal Authority: PL 98-554, Sec 215; 49 USC 3102

CFR Citation: 49 CFR 385

Legal Deadline: None

Abstract: Section 215 of the Motor Carrier Safety Act of 1984 requires the FHWA, in cooperation with the Interstate Commerce Commission, to establish a procedure to determine the safety fitness of owners and operators of commercial motor vehicles including persons seeking new or additional operating authority as motor carriers. Comments were requested regarding the proposed changes in the current safety rating procedures and a new proposal for those carriers who have not previously been assigned a safety rating or who intend to be a new entrant into the motor carrier industry. It has been determined that this rulemaking action is a significant regulation under the regulatory policies and procedures of the Department of Transportation because of the total estimated indirect benefits that may result.

Abstract: FHWA sought comments on a request to designate boat transporters as specialized equipment under provision of section 411(d) of the Surface Transportation Assistance Act of 1982 (STAA). Of prime concern were comments and information on the following issues relating to boat transporters: maneuvering characteristics, safety, control, offtracking, crosswind effects, and the need for overall length limits on boat transporters. Information on the similarities and dissimilarities between boat transporters and auto transporters was also solicited, as well as information on the consistency of truck configurations used for hauling boats. Comments were requested regarding the need to preempt current State regulation of this vehicle, as well as an actual definition and description of boat transporters, and on the types of vehicles that should be considered as specialized equipment as well as an actual definition.

Abstract: Sections 12005 and 12006 of Pub. L. 99-570 require certain requirements to be in place by July 15, 1988 regarding minimum Federal standards which States must use for testing and licensing commercial motor vehicle drivers. FHWA issued a NPRM on December 11, 1987 proposing the standards. Included in the proposal are requirements placed on the State in section 12009 pertaining to a check with the information system before issuing a license. This rulemaking action is considered significant because of the substantial public interest involved.

Abstract: In response to Section 12008 of the Commercial Motor Vehicle Safety Act of 1986, the FHWA requested comments on the establishment of a commercial driver blood alcohol concentration (BAC) standard for "driving under the influence." Also in response to Section 12008 of the Act, the National Academy of Sciences (NAS) conducted a study on the appropriateness of selecting one of several alternative BAC levels as the level at which a person operating a commercial motor vehicle would be deemed to be driving under the influence of alcohol. Based on the results of the study and the rulemaking comments, the Secretary of Transportation must promulgate a commercial driver BAC standard. States would be required to enact laws providing that any driver who operates a commercial motor vehicle at the Federal BAC level or above it is deemed to be driving under the influence of alcohol. States not enacting a BAC-level law for commercial motor vehicle drivers risk the loss of Federal-aid highway funds. The comments received were available to the NAS and served as the docket comments, along with the NAS study for the Notice of Proposed Rulemaking issued on May 10, 1988.

Significance: Agency Priority

Legal Authority: 42 USC 4601 et seq; PL 100-17, Sec 4

CFR Citation: 49 CFR 24

Legal Deadline: Final, Statutory, April 2, 1989.
A final rule must be promulgated by 4/2/89.

Abstract: This rulemaking action addresses the implementation of Title IV of the Surface Transportation and Uniform Relocation Assistance Act of 1987, Pub. L. 100-17, 101 Stat. 132 (STURAA). Title IV of STURAA amends the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act), 42 U.S.C. sections 4601 to 4655 (1982). Title IV establishes: a lead agency (FHWA) to insure consistent Federal implementation; an increase in the maximum monetary benefits that can be provided to persons forced to relocate by Federal or federally assisted projects; an expansion of the Uniform Act's coverage to insure more types of displacing activities; and an allowance for a State certification program. This rulemaking action is considered significant because of substantial public interest involved.

Significance: Agency Priority

Legal Authority: 49 USC App 2505; 49 USC 3102

CFR Citation: 49 CFR 395

Legal Deadline: None

Abstract: The FHWA has initiated rulemaking to address the use of onboard recording devices in motor vehicles operating in interstate commerce. This action is being taken in response to a petition filed by the Insurance Institute for Highway Safety (IIHS) on 2/25/87. The original IIHS petition (10/86) requested that the FHWA require motor carriers to use onboard recording devices for recording the driver's hours of service. This rulemaking is considered significant because of the substantial public interest involved.

Significance: Agency Priority

Legal Authority: 23 USC 141; 23 USC 154; 23 USC 315; PL 100-17, Sec 174

CFR Citation: 23 CFR 659

Abstract: The FHWA and the National Highway Traffic Safety Administration (NHTSA) are amending the regulations on certification of speed limit enforcement in order to streamline the sanction process and to take into account the provisions mandated by section 174 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA). Section 174 of STURAA amended 23 U.S.C. 154 by giving the States the authority to increase, without loss of Federal-aid funds, the maximum speed limit to no more than 65 miles per hour (mph) on certain Interstate System highways. A notice of proposed rulemaking will be issued proposing revisions to the sanction process contained in 23 CFR Part 659. A separate final rulemaking action has been issued in order to provide the States the authority to adjust the speed sampling and analysis plan required for determining the level of 55 mph noncompliance.

Initially, FHWA had considered issuing a new regulation as a vehicle for accelerating Federal-aid projects pursuant to Section 129 of the STAA of 1982. However, it has been determined that the objectives of Section 129 can be best implemented by revisions to existing regulations. Therefore, separate regulations will not be issued regarding the acceleration program. This approach received the concurrence of Deputy Administrator Lamm on April 11, 1984. This regulation will be withdrawn.

Abstract: The existing regulation on pavement design would be modified to eliminate unnecessary requirements and duplicative provisions. Currently, the Federal Highway Administration (FHWA) uses the "American Association of State Highway and Transportation Officials (AASHTO) Interim Guide for Design of Pavement Structures, 1972," Chapter III Revised, 1981, to evaluate the adequacy of the proposed pavement designs for Federal-aid projects. AASHTO has approved a new Pavement Design Guide. FHWA will solicit public comment on the revised guide and adopt it for application on Federal-aid projects as a guide, not standard. It will be acceptable for State highway agencies to design pavement structures based upon other procedures and practices that by past performance have proven satisfactory for the pertinent conditions. If a State highway agency elects to use procedures other than AASHTO's, the procedures will require FHWA approval. The FHWA will check or review pavement design in accordance with procedures approved by the State highway agency. Each State highway agency will be required to have a pavement management system.

Abstract: In May, 1985, the American Association of State Highway and Transportation Officials (AASHTO) approved its publication entitled "Standard Specification for Structural Supports for Highway Signs, Luminaires, and Traffic Signals," which is incorporated in 23 CFR 625 as a specification. FHWA proposed to adopt the AASHTO publication for Federal-aid application. An interim final rule adopted all of the 1985 AASHTO sign and luminaires specifications except section 7, Breakaway Supports. The SNPRM contained the results of FHWA's crash testing of previously accepted luminaire support systems and opened the docket for further comments.

Abstract: The FHWA is amending its regulations on contract procedures to implement the provisions of Section 111(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA). Section 111(c) of STURAA amends 23 USC 112 to require a standardized contract clause in all Federal-aid contracts unless otherwise provided for by State law. The standardized contract clause is to provide for the equitable adjustment of contract terms: (1) where site conditions differ from those specified in the contract; (2) where work has been suspended by order of the contracting agency (other than a suspension of work caused by the fault of the contractor or by weather); and (3) where there are material changes in the scope of the work.

Significance: Nonsignificant

Legal Authority: 23 USC 315; 49 USC 303

CFR Citation: 23 CFR 771

Legal Deadline: None

Abstract: The need for rulemaking in this area has been caused by recent court decisions. The courts have delayed or halted several important Federal-aid highway projects on the grounds that the proximate effects or impacts from a given highway would constructively use land from a park or historic site. In each instance the FHWA had determined that there existed no constructive use. This determination was based on an analysis of proximity impacts and whether the impacts would substantially impair the functions or values which qualified the property for protection under Section 4(f) of the DOT Act. The FHWA has been operating under an informal policy directive on constructive use since 11/12/85. This rulemaking action would formalize existing policy on constructive use, and future court decisions would address the regulation rather than be based on ad hoc interpretations of specific project facts.

Abstract: Section 414 of the Surface Transportation Assistance Act of 1982 (Pub. L. 97-424) states that Congress declares the visibility on wet roadways in the Interstate System should be improved by reducing splash and spray from truck tractors, semitrailers and trailers. Congress instructed the Secretary to establish, by regulation, minimum standards with respect to the performance and installation of splash and spray suppression devices on truck tractors, semitrailers and trailers. Further, Congress mandated that all vehicles in use 5 years from date of enactment be equipped with such devices. This rulemaking was considered significant because of its economic impact on the motor carrier

industry. Section 205 of the Surface Transportation Assistance Act of 1987 (P.L. 100-17) established a deadline of 4/2/88 for final action unless the Secretary determines that insufficient technology exists upon which to base a final rule. On 5/25/88, the FHWA determined that insufficient technology existed upon which to base a final rule. A termination notice was published.

Abstract: The FHWA has provided a statement of FHWA interpretation and policy addressing the size and weight provisions contained in the Tandem Truck Safety Act of 1984 (TTSA) which amended the Surface Transportation Assistance Act of 1982 (STAA). This action addresses (1) conditions under which segments of the National System of Interstate and Defense Highways may be deleted from the National Truck Network, (2) conditions affecting the designation of new routes on the Federal-Aid Primary System as part of the National Truck Network, and (3) new provisions for 102-inch wide 28 1/2-foot semi-trailers. Abstract: FHWA has interpreted 23 CFR 658.13 so that a combination of vehicles described as a truck-tractor semitrailer-semitrailer be considered as a truck-tractor semitrailer-trailer for purposes of 23 CFR 658. It is FHWA's intent to implement the Surface Transportation Assistance Act of 1982 so that all configurations that offer safety and productivity advantages will be recognized under the regulations. This action is significant because of industry interest and that of the general public.

Abstract: The FHWA considered the need for a new Manual on Uniform Traffic Control Devices (MUTCD) and a new format. The MUTCD is incorporated by reference in 23 CFR Part 655, Subpart F and is recognized as the national standard for traffic control devices on all public roads. Upon further review the FHWA determined that no action was necessary at this time. A termination of rulemaking and closing of docket was published on 1/6/88.

Significance: Nonsignificant

Legal Authority: 23 USC 109(h); 23 USC 116(d); 12 USC 144; 23 USC 315

CFR Citation: 23 CFR 650

Legal Deadline: None

Abstract: These revisions to the bridge inspection standards will retain the existing 2-year frequency as the basic requirement. The States will also be expected to inspect some bridges more often than once every two years when the condition, age, load capacity, or monitoring is needed. However, for certain types or groups of bridges the States would be permitted, under the proposed revisions, to request FHWA approval for appropriate inspection intervals that are longer than the basic 2-year interval. The modified inspection interval can be appropriate for groups of relatively new structures in good condition, which have safe laod capacities at least equal to the State legal load, in low traffic volume areas, with proven performance histories, provided that the inspection plan is approved by the FHWA.

Abstract: The Federal Highway Administration (FHWA) was incorporating into its regulations the cargo preference requirements as mandated by the Cargo Preference Act of 1954 (Act) and its implementing regulations (46 CFR 381) developed by the Maritime Administration (MARAD). On 2/2/88, the Department of Justice made a legal determination that Cargo Preference was not authorized to be imposed on Federal-aid highway projects. Significance: Nonsignificant

Legal Authority: 49 USC 10927 note

CFR Citation: 49 CFR 387

Legal Deadline: None

Abstract: The FHWA issued a final rule to redefine "environmental restoration" as that term is used in FHWA's financial responsibility regulations. This action was taken in response to a joint petition filed by the American Insurance Association (AIA) and the American Trucking Associations (ATA), and because of the current insurance crisis facing the motor carrier industry. This action made clear the motor carriers are required to provide evidence of financial responsibility to satisfy claims for damage to human health and to the environment, including necessary restoration costs, but not for potential or speculative damages for which they would not otherwise be found liable.

Abstract: The rule technically amends Appendix A of 23 CFR Part 658 which identifies interstate and other Federal-aid primary routes designated as part of the National Network for trucks available to vehicles described in the Surface Transportation Assistance Act of 1982 (STAA). Specifically this rule removes the footnotes related to time of day and other restrictions on interstate highway segments in New York which are no longer valid. This amendment is in response to recent revisions to 23 CFR Part 658 which established specific approval requirements for use restrictions on interstate highways.

Abstract: The purpose of this advance notice is to announce that the NHTSA is considering the proposal of requirements for light trucks, vans, and multipurpose passenger vehicles intended to reduce the risk of fatalities and injuries in side impacts and other crashes where the side protection of the vehicle is a relevant factor, and to request comments to assist the agency in developing the proposal. The contemplated requirements would be part of the agency's efforts to address the serious problem of side impacts. As another part of those efforts, the agency earlier this year proposed requirements for passenger cars intended to reduce the risk of injuries to the thorax and pelvis in side impact crashes between vehicles. This rulemaking is considered significant because of the public safety implications.

Abstract: This standard, which is applicable to passenger cars, light trucks, and school buses, specifies requirements for the integrity of motor vehicle fuel systems. The purpose of the standard is to reduce deaths and injuries caused by fires which result from fuel spillage after motor vehicle crashes. This evaluation follows up and expands on a prior study on passenger cars which showed that, while the regulation was effective in preventing deaths and injuries, the incidence of crash fires appeared to be increasing. This evaluation will also provide the initial assessment of the regulation as it applies to light trucks.

Significance: Agency Priority

Legal Authority: 15 USC 1392 National Traffic & Motor Vehicle Safety Act of 1966; 15 USC 1407 National Traffic & Motor Vehicle Safety Act of 1966

CFR Citation: 49 CFR 571.121; 49 CFR 571.105

Legal Deadline: None

Abstract: Proposed action would establish a new brake standard for all trucks, buses, and trailers with a Gross Vehicle Weight Rating (GVWR) over 10,000 pounds. This standard would replace Standard No. 121, Air Brake Systems, and that portion of Standard No. 105, Hydraulic Brake Systems, that applies to vehicles with a GVWR over 10,000 pounds. It would also establish new requirements for heavy trailers having other than air-actuated brakes. In developing the standard, the agency will consider compatibility with international regulations. Research programs in support of this new standard and possible future upgradings of the standard will investigate such long-term advanced braking system concepts as antilock systems, automatic brake adjustors, load-sensing proportioning values, air driers, and retarders for heavy trucks, buses, and trailers. This rule is considered

significant because of the level of public and Congressional interest. It is necessary to prevent and reduce the severity of accidents involving heavy vehicles by providing increased accident avoidance capability.

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1401; 15 USC 1403; 15 USC 1407

CFR Citation: 49 CFR 571.105

Legal Deadline: None

Abstract: Federal Motor Vehicle Safety Standard No. 105 requires vehicles to have one or more brake system indicator lamps in the instrument panel area, to warn drivers about certain types of brake failure and to indicate when the parking brake is in the applied position. Section S5.3.2 of the standard requires that the brake system indicator lamps be activated automatically when the vehicle is started, to enable the driver to check whether the lamp bulb is burned out. That section also provides that in a vehicle equipped with an automatic transmission, the activation of the lamp as a check of lamp function is not required when the transmission shift lever is in a forward or reverse drive

position, since the vehicle cannot be started when the transmission shift lever is in those positions. In response to a petition for rulemaking submitted by Mazda, this notice proposes to amend the standard to provide that the activation of the lamp as a check of lamp function is not required whenever the starting of a vehicle is prevented by an interlock switch.

Significance: Nonsignificant

Legal Authority: 15 USC 1407; 15 USC 1410

CFR Citation: 49 CFR 552; 49 CFR 571

Legal Deadline: None

Abstract: Federal Motor Vehicle Safety Standard (FMVSS) No. 301 specifies requirements for the integrity of motor vehicle fuel systems so that fires that result from fuel spillage during and after motor vehicle crashes may be reduced. This standard applies to passenger cars and school buses, and to multipurpose passenger vehicles, trucks, and buses that have a gross vehicle weight rating of 10,000 pounds or less. The California Highway Patrol (CHP) petitioned the agency to specify requirements in FMVSS No. 301 to reduce fuel spills from the fuel tank or fuel lines on heavy trucks and truck tractors over 10,000 pounds. The fuel spills, according to the CHP, are due to damage caused by road debris. On May 2, 1988, the agency published a grant of petition for rulemaking in the Federal Register for the CHP petition. However, the agency is granting the petition pending the results of its forthcoming investigation of fuel-tank fires in over-the-road trucks.

Abstract: NHTSA proposes a comprehensive review of headlighting requirements of FMVSS No. 108 which may be simplified, while being consistent with motor-vehicle safety. The agency has concentrated its efforts into five principal areas. This action addresses the first of these, which is the feasibility of a standard directed toward onboard original-equipment headlighting performance rather than toward performance of individual aftermarket headlamps in a laboratory environment. This action is considered significant because of safety implications. Based on comments received, an SNPRM will be issued.

1961. + STANDARD NO. 108, LAMPS, REFLECTIVE DEVICES, AND ASSOCIATED EQUIPMENT

Significance: Agency Priority

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.108

Legal Deadline: None

Abstract: Volkswagen of America petitioned to change Federal Motor Vehicle Safety Standard No. 108, Lamps, Reflective Devices, and Associated Equipment to permit an additional standardized replaceable light source for motor vehicle headlamps. The type of light source proposed was that currently used in European headlamps, the type H-4. Review of the merits of the petition found that, as used in Europe, the light source was not capable of achieving the level of performance required of U.S. light sources and NHTSA subsequently proposed a U.S. version to be known as the type HB2, which would have interchangeability and performance aspects compatible with U.S. safety needs. Comments by the U.S. and foreign lighting and vehicle manufacturers led to a supplemental notice. This rulemaking is considered significant because of substantial public interest.

Abstract: Action proposes a New Standard No. 135. "Passenger Car Brake System," which would replace Standard No. 105, "Hydraulic Brake System," as it applies to that vehicle type. New Standard would differ from the existing one primarily in that it contains a revised and shortened test procedure based on a draft harmonized international procedure developed by the United Nations Economic Commission for Europe (ECE).

Abstract: An amendment to Federal Motor Vehicle Safety Standard (FMVSS) No. 114 to prevent the inadvertent knocking out of gear of the gear shift lever and potential accidents, injuries and fatalities from vehicles rolling out of control. This amendment is in response to a petition for

rulemaking relating to an inadvertent knock-out-of-gear accident resulting in a fatality. In addition, FMVSS 114 is proposed to be amended to insure that, if a steering column locking device is employed, the device cannot be activated until the key is removed and the vehicle must be in park on automatic transmission to remove the key and reverse for manual transmissions.

Abstract: The current stated purpose of Federal Motor Vehicle Safety Standard No. 102 is to reduce the likelihood of shifting errors. Manufacturers have provided a permanently displayed shift lever position indicator to meet the requirement of S3.2 of this Standard. Chrysler and General Motors petitioned the agency to amend the Standard to allow the use of electronic "PRNDL" displays. As the proposed requirements would facilitate the use of electronic displays, while ensuring the information is displayed at all times, an NPRM was issued.

Abstract: The agency proposed to amend Federal Motor Vehicle Safety Standard No. 115 and Part 567 with regard to vehicles not originally manufactured for sale in the United States and that do not comply with Federal motor vehicle safety standards, but that are imported into this country by businesses unaffiliated with the original manufacturer. These vehicles often are labelled with "homemade" 17 digit Vehicle Identification Numbers (VIN). Under the proposal, the importer would label the vehicle partially exempt from Standard No. 115 and direct interested parties to the location of the original manufacturers's number to be used in lieu of the VIN. The agency is taking this action in response to a petition from the National Automobile Theft Bureau (NATB).

Significance: Regulatory Program

Legal Authority: 49 USC 2314

CFR Citation: 49 CFR 583

Legal Deadline: None
Standard for new vehicles is now required to take effect one year after final rule is published.

Abstract: In accordance with the mandate of section 414 of the Surface Transportation Assistance Act of 1982, this rulemaking proposed to establish minimum standards with respect to the performance of splash and spray suppression devices on truck tractors, semitrailers, and trailers. It also proposed to establish minimum standards with respect to the installation of splash and spray suppression devices on new vehicles. This regulation was significant because it was potentially controversial. After careful consideration, this proposal was withdrawn, as no available technology has been demonstrated as meeting the statutory criteria for establishing minimum performance standards.

Abstract: Standard No. 121, "Air Brake Systems," specifies braking requirements for trucks, buses, and trailers equipped with air-brake systems. The standard specifies various criteria, typically concerning configuration, speed, or weight, for excluding certain vehicles whose attributes result in restricted highway operation. In response to a petition submitted by Corpac Industries, the final rule eliminates from the standard the exclusion based on vehicle width, except for trailers exceeding the 102.36-inch width with extendable equipment in the retracted position and equipped with two short-track axles across the trailer width. The width exclusion is unnecessary to achieve the purpose of ensuring that the standard does not apply to certain vehicles that are appropriately excluded from it.

Significance: Nonsignificant

Legal Authority: PL 97-364, Sec 408

CFR Citation: 23 CFR 1309

Abstract: This final rule revises the agency's regulation implementing section 408 of the Highway Safety Act of 1966, relating to the criteria States must meet to be eligible for alcohol incentive grants. The agency believes some portions of the regulation are unnecessarily restrictive in defining the manner in which a State may demonstrate compliance with the statutory criteria. This action is intended to increase flexibility for the States, by establishing alternative methods of demonstrating compliance with the section 408 criteria to qualify for alcohol incentive grant funds.

Abstract: FRA's interpretive guidance concerning compliance with an hours-of-service statute will be extended by operation of law unless FRA acts within 6 months. FRA guidelines specify a maximum noise level for the interior of facilities used to give train crews required periods of rest under the Hours of Service Act. The statute will make the noise level applicable to on-track vehicles used as dormitories for other railroad employees unless FRA alters its guidance on this matter for the on-track vehicles. Significance: Agency Priority

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

CFR Citation: 49 CFR 225

Legal Deadline: None

Abstract: This project addresses possible problems of bias and inaccuracy in FRA's railroad data base. Although FRA investigates about 400 accidents a year and receives unsolicited information on a few more accidents, FRA's sole source of information on the great majority of railroad accidents is the railroad company itself. The proposed rule would require that the railroad provide written notification to any employee whom the railroad alleges to have caused a certain type of accident, informing the employee of the relevant allegations and of his or her right to file an accident statement with FRA. The proposed rule also would establish the format and filing procedures for such statements. Alternatives being considered are: (1) revising the reporting form itself to include boilerplate language regarding what, where, and how to file the employee statement and (2) requiring a separate notice to the employee with the same information. Potential costs have yet to be determined. This action is considered significant because of Departmental policy.

2008. ● + JURISDICTIONAL CONFORMITY AMENDMENTS

Significance: Agency Priority

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

CFR Citation: 49 CFR 229; 49 CFR 231; 49 CFR 232

Legal Deadline: None

Abstract: FRA is amending three of its older safety regulations to conform their applicability provisions to statutory changes. The older statutes and rules describe their applicability in terms of "common carrier by rail subject to the Interstate Commerce Act" until they were amended to use the more common word "railroad". This action is considered significant because of Departmental policy.

Significance: Agency Priority

Legal Authority: PL 100-342, Rail Safety Improvement Act of 1988

CFR Citation: Not yet determined

Legal Deadline: Final, Statutory, June 22, 1989.

Abstract: FRA is required to adopt qualification standards for locomotive operators. Major elements that could be included in such standards involve initial training, retraining, performance monitoring, testing and retesting, and general fitness criteria. Issues being explored include the structure of the program to resolve questions of whether a Federal license program or a railroad licensing program meeting Federal criteria will best achieve the statutory intent. This rulemaking is significant because of Departmental policy.

Significance: Regulatory Program

Legal Authority: 45 USC 431; 45 USC 438

CFR Citation: 49 CFR 219

Legal Deadline: None

Abstract: Based on experience derived from the first year of administration of FRA's rule on Control of Alcohol and Drug Use in Railroad Operations, FRA has identified the need for additional capability to detect and control drug use that can impact on the safety of rail transportation. Accordingly, FRA is developing a proposed rule prohibiting any unauthorized use of controlled substances by employees subject to the current rule and mandating random testing of those employees for controlled substances. FRA has also conducted a special safety inquiry on the administration of the present rule and is developing a notice of proposed rulemaking to refine and enhance the existing regulatory requirements.

Legal Deadline: Final, Statutory, December 22, 1988.
Statute requires both a generic change within 30 days of enactment and a detailed change within 6 months of enactment.

Abstract: The Rail Safety Improvement Act raised the maximum civil penalty amount for violations of FRA rules. It also authorized the imposition of penalties against individuals for willful violations. In a two-stage process, FRA is conforming its rules to the new statute. In an interim rule, FRA is amending the language of its applicability and responsibility provisions. FRA is also stating its policies on what it considers "willful violations" and its procedural approach for handling allegations of noncompliance. In a second document, FRA will provide specific changes to its existing penalty schedules and any appropriate changes to its interim enforcement procedures. Because of the substantial public interest associated with issuance of the final rule, this project is considered significant.

2012. ● + CERTIFICATION OF PREDEPARTURE INSPECTIONS OF SIGNAL DEVICES MOUNTED ON LOCOMOTIVES

Significance: Agency Priority

Legal Authority: PL 100-342 Rail Safety Improvement Act o1 1988

CFR Citation: 49 CFR 236

Legal Deadline: Final, Statutory, September 20, 1988.

Abstract: FRA is required to issue necessary rules requiring that tests of automatic train control, train stop, and cab signal be certified in writing. Anyone testing that equipment must certify that the required test was properly performed. FRA's current rule requires that virtually all such tests be certified; FRA proposes an expansion of that provision to cover all personnel. Although involving technical amendment with minimal cost implications, this rulemaking is considered significant due to substantial public interest and safety factors.

Abstract: DOT lacks comprehensive data on the number, volume, and other statistics characterizing the transportation of hazardous materials in commerce. Comments will be requested on the burdens and benefits associated with various alternatives that could be used to obtain such information. The registration of carriers and shippers is one such alternative.

2031. + OST-FAA INFORMATION RULES: STANDARDIZED REGULATORY FLEXIBILITY REQUIREMENTS

Significance: Agency Priority

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1387

CFR Citation: 14 CFR 241; 14 CFR 298; 14 CFR 399

Legal Deadline: None

Abstract: The threshold for the aviation-information program for regulatory flexibility analysis is 60 seats or maximum payload of 18,000 pounds or less. Carriers operating aircraft under these limits are considered small carriers. FAA, on the other hand, uses a threshold based on the operational certificate requirements (Part 121 versus Part 135) with the threshold established at 30 seats or maximum payload of 7,500 pounds for a Part 135 certificate. FAA regulatory analysis for safety, congestion, etc., centers around the lower threshold which means much of the aviation economic information that they use has to be manipulated to fit their needs. This proposal of standardizing the threshold within the Department would save considerable resources and would eliminate much confusion in the air transportation industry. Most carriers, especially the newer ones, are familiar with FAA's requirements. This rulemaking is significant because it will achieve consistency in departmental treatment.

Significance: Agency Priority

Legal Authority: 49 USC 1804; 49 USC 1805

CFR Citation: 49 CFR 173.177; 49 CFR 397

Legal Deadline: None

Abstract: Currently, except for certain radioactive materials, DOT has not promulgated uniform, national standards for the highway routing of hazardous materials. The proposal would establish such standards and provide guidance to States and localities to minimize the promulgation of State and local routing requirements that are inconsistent with the Hazardous Materials Transportation Act. This rulemaking is significant because of the safety implications.

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1374; 49 USC 1386

CFR Citation: 14 CFR 298

Legal Deadline: None

Abstract: Currently commuter air carriers providing scheduled passenger service file two quarterly traffic schedules. One schedule summarizes nine traffic elements while the other schedule provides the origination and destination for all the carriers' on-line passengers. The Department is considering proposing a new traffic and

market data system for certificated and foreign air carriers. This system could be used for commuter air carriers, providing the Department with one automated traffic and market data system for all carriers. This system would be less burdensome for the commuter air carriers and be more efficient for the user.

Significance: Nonsignificant

Legal Authority: 49 USC 1324; 49 USC 1373

CFR Citation: 14 CFR 241

Legal Deadline: None

Abstract: The present definition of revenue and nonrevenue passengers for aviation reporting purposes is stated in terms of the exemptions for free and reduced-rate transportation in section 403(b) of the Federal Aviation Act of 1958. These definitions have become outmoded in the process of air-fare deregulation. In addition, first class and coach passengers are defined in terms of the type of fare paid with premium or standard fares being the benchmark for first class. With deregulation and the proliferation of new air fares in the marketplace, these definitions may also be outmoded. The DOT is considering several options for revising these definitions.

2047. + OPERATION AND MAINTENANCE PROCEDURES FOR GAS PIPELINES

Significance: Agency Priority

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: Adequate procedures for pipeline operation and maintenance, backed up by personnel training, have proven effective in minimizing the potential for accidents. Gas operators are required to have such procedures, but the existing requirements lack the clarity and specificity needed to assure a uniform, broad-based level of safety for all pipelines. Therefore, this proposal would clarify the existing requirements, make them more comprehensive, and, where appropriate, similar to the more detailed requirements applicable to the operation and maintenance of hazardous liquid pipelines. This is a significant action because of the need for adequate procedures to provide a basis for training and qualifying operator personnel.

Significance: Agency Priority

Legal Authority: 49 USC 2002

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: Recent accidents involving petroleum product pipelines demonstrate the potential for catastrophic losses if a large spill occurs in a populated area. Studies have shown that accidents attributable to hidden material or construction defects can be prevented by restricting operation to not more than 80 percent of a prior test or operating pressure. In this regard, significant results have been achieved by imposing such an operating restriction on those product pipelines that carry highly volatile liquids. This rule would extend this existing safety standard to all product pipelines. This rulemaking is significant because of substantial public interest in the safety implications.

Significance: Agency Priority

Legal Authority: 49 USC 1672; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: Maintenance of appropriate information about pipelines is essential for emergency response, compliance with safety standards, and other purposes. As part of a continuing policy to adopt similar requirements for gas and hazardous liquid pipelines where appropriate for safety, this action proposes to equalize as far as possible the requirements that gas and liquid operators keep maps and records to show the location and other characteristics of pipelines. In addition, operators would be required to provide this information to State agencies upon request. This is a significant action because of Congressional and State concerns about the need for appropriate public officials to have pipeline information.

Abstract: This proposal would revise the placarding requirements in the Hazardous Materials Regulations (HMR) to recognize the requirements of the Environmental Protection Agency (EPA) which address the placarding of commodities which have been fumigated. Those portions of the HMR which address the fumigation placard would be removed from the HMR to avoid duplication with EPA's requirements for placarding commodities which have been fumigated.

Significance: Nonsignificant

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: Leaking gas accumulating inside an inadequately ventilated compressor station building is a serious safety problem that has caused recent deaths and injuries. This rulemaking action explores the need for additional regulations to lessen this potential for harm. Installation of gas detection and alarm systems and more specific operation and maintenance procedures for compressor stations are the alternatives being considered.

2061. DETERMINING THE EXTENT OF CORROSION ON EXPOSED GAS PIPELINES

Significance: Nonsignificant

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: Corrosion is a major cause of gas and hazardous liquid pipeline accidents. A safety standard applicable to liquid pipelines requires operators to examine exposed pipe for evidence of external corrosion and, if harmful corrosion is found, to investigate further to determine the extent of the corrosion. As part of a continuing policy to adopt similar requirements for gas and liquid pipelines where appropriate for safety, this action proposes that exposed gas pipelines with evidence of harmful corrosion be investigated to determine the extent of the corrosion.

Significance: Regulatory Program

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1808

CFR Citation: 49 CFR 171; 49 CFR 172; 49 CFR 173; 49 CFR 176; 49 CFR 178; 49 CFR 179

Legal Deadline: None

Abstract: To develop performance-oriented packaging standards and hazardous material classification based on the United Nations Committee of Experts on the Transport of Dangerous Goods. Also includes former non-significant rulemakings entitled "Consolidation of Specifications and Establishment of Performance Standards for Specification Bags" (Docket No. HM-153), "Specifications for and use of Specification 17 Steel Drums" (Docket No. HM-182), and "Organic Peroxide Requirements" (Project 186-72). The rulemaking is significant because a large number of specifications for packaging in the Hazardous Materials Regulations would be affected by this project. To a large extent the complexity and mass of the present Hazardous Materials Regulations are due to the detailed specification-type packaging standards contained in these regulations. To replace these with standards based on the U.N. system would both simplify the present regulations and facilitate international trade.

Significance: Regulatory Program

Legal Authority: 49 USC 1301; 49 USC 1374; 49 USC 1381; 49 USC 1386; 49 USC 1482

CFR Citation: 14 CFR 217; 14 CFR 241

Legal Deadline: None

Abstract: DOT has proposed a rule that would require submission to DOT of nonstop market data from foreign carriers providing scheduled service between their home countries and the United States. This information is needed to evaluate existing bilateral agreements and reciprocity between U.S. and foreign countries. In addition, international charter data currently collected from carriers would be incorporated with this reporting. This nonstop market data should replace much of the data collected by the Immigration and Naturalization Service (INS) on Form I-92. Although there will be some start-up costs, it is anticipated that over the long run there will be substantial savings for both the industry and the government. See 2137-AB01 for companion rule for U.S. air carriers.

Significance: Regulatory Program

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1387

CFR Citation: 14 CFR 241

Abstract: Large U.S. air carriers file detailed service segment data in ADP format for scheduled operations, while smaller carriers file a condensed version on a hardcopy form. Charter data is filed on another form. The Department has issued a rulemaking proposing to incorporate all three systems onto one automated data system by standardizing the reporting between scheduled and charter operations. Much of the data currently collected is proposed for elimination. Also, much of the data reported on the hardcopy Form 41 T-Schedules is proposed for elimination, since data for these schedules can be extracted from the automated system. Further, the foreign air carrier traffic and market reporting (2137-AA97) will be incorporated into this automated system providing a uniform traffic and market system for the Department.

Significance: Agency Priority

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1809

Abstract: The current regulations require reports of hazardous material incidents. The objective of this review is to determine if the current data requirements can be modified to reduce the burden on industry but still result in the collection of the information needed for the hazardous materials safety program. Although safety programs, such as the one covered by these regulations, require data in order to function properly, it is possible that the data collection can be made less burdensome. This rulemaking is significant because of substantial public interest due to safety implications.

Significance: Agency Priority

Legal Authority: 49 USC 2002(e)

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: Each year a large percentage of hazardous liquid pipeline accidents are caused by excavation damage. Experience has shown that excavation accident rates diminish when operators participate in "one-call" damage prevention programs. The Federal gas pipeline safety regulations now require that gas operators participate in such programs. This action would apply a similar requirement to operators of hazardous liquid pipelines. This is a significant action because of the widespread interest in the use of "one-call" programs to prevent damage to buried pipelines.

Abstract: RSPA proposes to amend the Hazardous Materials Regulations to permit the continued use of packagings that do not meet the requirements of the American National Standards Institute (ANSI) Standard N 14.1 - 1987, DOT Class 106 A multi-unit tank car tanks, and certain packagings not manufactured in accordance with ANSI N 14.1-87. These latter packagings will be required to be manufactured in accordance with an earlier edition of ANSI 14.1, or be manufactured and stamped in accordance with Section VIII, Division 1 of the ASME Code. RSPA has determined that these packagings, which have been used safely in the past, should be permitted to continue in use.

Significance: Nonsignificant

Legal Authority: 49 USC 1672; 49 USC 1804

CFR Citation: 49 CFR 192.611(a)

Abstract: This action proposes an alternate method for confirmation or revision of the maximum allowable operating pressure of pipelines previously tested to less than 90 percent of specified minimum yield strength. The alternate method would allow operators to establish a maximum allowable operating pressure in proportion to the level permitted for pipelines tested to 90 percent of specified minimum yield strength, or more, without retesting the pipeline. Considerable cost savings are expected.

Significance: Nonsignificant

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1805; 49 USC 1806

CFR Citation: 49 CFR 173

Legal Deadline: None

Abstract: This notice proposes to allow the use of railroad tank-car tanks with shell thicknesses in localized areas of less than the minimum currently allowed. The rule would require that tank shells be measured under specific conditions to ensure that the results of repairs do not further decrease shell thickness or result in a reduction in the level of safety. Under the existing rule, owners are required to bring tanks into conformance or remove them from hazardous materials service. This proposal would allow the tank cars to conform to a less stringent standard thereby avoiding the substantial costs associated with complete restoration or purchase of a new tank car, while still ensuring an adequate level of safety.

Abstract: This regulation now establishes conditions for MARAD approval of tanker vessels over 100,000 dwt built with CDS, for participation in the carriage of Alaskan oil from Alaska to the Panama Canal. MARAD is reassessing the need for this regulation in light of the experience in administering its provisions, its policy of allowing total repayment of CDS (46 CFR Part 276) and litigation challenging these policies. Significance: Regulatory Program

Legal Authority: 46 USC 1114, (Appendix)

CFR Citation: 46 CFR 252

Legal Deadline: None

Abstract: The Maritime Administration (MARAD) has entered into operating-differential subsidy contracts (ODSA) with operators of bulk cargo vessels that provide for the subsidized carriage of commercial cargo in the oceanborne foreign commerce of the United States and between foreign ports. These ODSAs specifically exclude the carriage of statutory-preference cargoes, but are silent about the cargoes that, while not preference cargoes according to a district court decision that was affirmed by the Court of Appeals for the District of Columbia, are reserved to U.S.-flag carriers by agreement of a foreign country that is a recipient of United States foreign assistance, in the form of cash transfers or grants. MARAD intends to propose a rulemaking that states the policy of not paying ODS on these cargoes that are reserved to U.S.-flag vessels at premium rates and are not subject to foreign competition, based on the conclusion that these are not "commercial" cargoes within the contemplation of the ODSA provisions.

Significance: Regulatory Program

Legal Authority: 46 USC 1241(b); 46 USC 1114(b)

CFR Citation: 46 CFR 382, (New)

Legal Deadline: None

Abstract: This regulation would require provision of rate and cost data to MARAD so it can determine fair and reasonable rates for carriage of preference cargo in bulk vessels at the request of concerned Federal agencies. MARAD would calculate guideline fair and reasonable rates using a methodology which would base those rates on a vessel's actual or constructed costs as determined from data submitted by the operator. It would establish requirements for submission of data on which the methodology would be based. This rulemaking is significant because it concerns a matter on which there is substantial public interest. It would clarify the meaning of a statutory term.

Small Entities Affected: None

Government Levels Affected: Federal

Sectors Affected: 441 Deep Sea Foreign Transportation of Freight

Analysis: Supplemental Draft Evaluation 12/17/86 (51 FR 45135)

Additional Information: This rulemaking has split from an earlier rulemaking: Cargo Preference - U.S. Flag Vessels - Determination of Fair

and Reasonable Rates for Liners (RIN 2133-AA02). Cargo preference regulation was last revised in 1977 (46 CFR 381).

2103. SUSPENSION OF ODS AGREEMENTS FOR ALL OR PORTION OF THE VESSELS INCLUDED THEREIN

Significance: Nonsignificant

Legal Authority: 46 USC 1184; 46 USC 1114(b); PL 97-35

CFR Citation: 46 CFR 295, (New)

Legal Deadline: None

Abstract: These regulations would implement Sec. 1603 of the Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35), which adds a new Sec. 614 to the Merchant Marine Act, 1936 (46 App. U.S.C. 1184).

Sectors Affected: 441 Deep Sea Foreign Transportation of Freight

Additional Information: NPRM being withdrawn because the Maritime Subsidy Board final Opinion and Order in Docket S-764, that does not require CDS repayment for bulk vessels carrying preference cargoes, is a more attractive alternative for operators than ODS suspension that requires CDS repayment. Also, operator of only liner vessels to make election is in bankruptcy.

2104. MARINE PROTECTION AND INDEMNITY INSURANCE INSTRUCTIONS UNDER GENERAL AGENCY AND BERTH AGENCY AGREEMENTS

Significance: Nonsignificant

Legal Authority: 46 USC 1114(b)

CFR Citation: 46 CFR 326

Legal Deadline: None

Abstract: These amendments would reflect existing Maritime Administration (MARAD) practices, office names and addresses concerning the handling of marine protection insurance (P&I) claims by Agents under Agreements with the United States, acting by and through the Director, National Shipping Authority in MARAD, with respect to vessels under MARAD control in the National Defense Reserve Fleet.

2105. GENERAL PROCEDURES FOR DETERMINING OPERATING DIFFERENTIAL SUBSIDY FOR LINER VESSELS

Significance: Nonsignificant

Legal Authority: 46 App USC 1114(b)

CFR Citation: 46 CFR 282

Legal Deadline: None

Abstract: The Maritime Administration (MARAD) proposes to amend the procedure for determining ODS for liner vessels operating in the foreign commerce of the United States. In determining rates for wage subsidy, MARAD proposes to use the U.S./foreign cost relationship at a point in time that is one year earlier than the date now used, and would also use a different and longer period as the basis for calculating the respective currency exchange rates.

Significance: Agency Priority

Legal Authority: 46 USC 1241

CFR Citation: 46 CFR 381.8

Legal Deadline: None

Abstract: This regulation establishes procedures governing the evaluation by U.S. shipper agencies of bids from subsidized U.S.-flag-liner vessel operators for the carriage of open rated civilian and military preference cargoes. This rulemaking is considered significant because of substantial public interest.

Significance: Nonsignificant

Legal Authority: 46 USC 1175

CFR Citation: 46 CFR 207

Legal Deadline: None

Abstract: Rulemaking would have proposed procedures that would assist preparation of standard forecasts of liner cargo (if a Final Rule covering CDS procedures is issued) in which forecast procedures would be included. It is being terminated as no longer considered necessary to development of the principal rulemaking under consideration.

2115. REVISION OF 31 CFR PART 205 (TDC NO. 1075), PAYMENTS BETWEEN THE FEDERAL GOVERNMENT AND RECIPIENT ORGANIZATIONS

Significance: Agency Priority

Legal Authority: 31 USC 6503

CFR Citation: 31 CFR 205

Legal Deadline: None

Abstract: Revision of 31 CFR 205 will implement a new funding technique for Federal programs. The regulation would require a State to pay interest on Federal funds from the time they are deposited to the State's account until the time those funds are paid out to redeem checks or warrants or make payments by other means. This new "Checks Issued-Interest Remitted" technique was developed in response to statutes in some States that require that funds reside in a bank account prior to the issuance of checks. This revision also provides for the remittance of interest by the Federal Government if a State disburses its own funds for program purposes in accordance with Federal law, regulation or Federal/State agreement.

2116. FEDERAL PAYMENTS THROUGH FINANCIAL INSTITUTIONS BY THE AUTOMATED CLEARING HOUSE METHOD

Significance: Agency Priority

Legal Authority: 5 USC 5525; 12 USC 391; 31 USC 321

CFR Citation: 31 CFR 210, (Revision)

Legal Deadline: None

Abstract: Revision of 31 CFR Part 210 will clarify the breadth of payments governed by the regulations. These include non-benefit payments such as vendor payments, miscellaneous payments. Internal Revenue Service (IRS) tax refunds, savings bonds, grants and loans. It will also include the payment of discretionary allotments of net pay of Federal employees' salaries by DD/EFT. Electronic funds thus transferred through the Federal Reserve System eliminate the possibility of checks being lost, stolen, or forged. The Federal Government's operating efficiency will be improved, productivity will be increased, and the costs associated with the current methods will be reduced.

Significance: Agency Priority

Legal Authority: 31 USC 9301 to 9309

CFR Citation: 31 CFR 223, (Revision)

Legal Deadline: None

Abstract: The revision makes editorial changes, and contains substantive changes to sections concerning business experience, collateral and reinsurance requirements. Substantive changes include: 1) a 3-year aging requirement in order to qualify for Treasury certification, 2) elimination of the alternative to use collateral for protecting excess risks, and 3) a requirement that all reinsurance on Federal bonds be placed with companies recognized by Treasury for reinsurance purposes. The proposed regulations provide provisions for exceptions to the aging and reinsurance regulations under certain circumstances. These regulations will help Treasury ensure that certified companies are capable of carrying out their surety contracts.

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: General notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section 5 of Executive Order 12291, entitled "Federal Regulations," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an agenda of existing regulations that are being reviewed under the terms of the Executive Order, within the next six months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 3(a) of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have a significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations will be published in the **Federal Register** of April 1989.

FOR FURTHER INFORMATION CONTACT: For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact," for the regulatory project.

For general information about this general notice, contact Lori Weins, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, Ariel Rios Federal Building, 1200 Pennsylvania Avenue, NW., Washington, DC 20226; (202) 566-7626.

TREAS—BATF

Issuance

By Direction of the Secretary of the Treasury, this general notice reads as set forth below.

Dated: August 17, 1988.

2122. GRAPE HARVEST LABELING FOR WINE

Significance: Agency Priority

Legal Authority: 27 USC 205(e); 27 USC 205(f)

CFR Citation: 27 CFR 4.29

Legal Deadline: None

Abstract: Late harvest designations, based on the Brix (percent by weight) level of the grapes at harvest would indicate to consumers that the grapes used to produce the wine were left on the vine for express purpose of increasing the sugar content. The designations would indicate additional techniques and processes were used in the production of the wine.

Significance: Agency Priority

Legal Authority: 27 USC 205(e); 27 USC 205(f)

CFR Citation: 27 CFR 4; 27 CFR 5; 27 CFR 7

Legal Deadline: None

Abstract: "Light (Lite)" was addressed to a limited extent in Notice No. 362 (45 FR 83530). However, subsequent to its publication ATF was petitioned by the Center for Science in the Public Interest (CSPI), requesting mandatory caloric labeling on all alcohol beverages, as well as the establishment of upper limits on calories in products labeled as "light (lite)." Comments will be requested on CSPI's petition as well as other issues involving use of the term "light (lite)."

2126. NON-GENERIC DESIGNATIONS OF GRAPE WINE HAVING GEOGRAPHICAL SIGNIFICANCE

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4.24

Legal Deadline: None

Abstract: This proposal expands the list of names officially recognized under 27 CFR Part 4, as being non-generic for the purposes of labeling and advertising of wine. This proposal is the result of petitions from numerous foreign countries for ATF recognition of non-generic wine designations which, in their view, denote distinctive national products. This proposal is also an outgrowth of one of the commitments made by the United States, in the Exchange of Letters of July 26, 1983 with the Commission of the European Communities, to work within the regulatory framework of 27 CFR Part 4, to prevent erosion of non-generic designations of geographic significance. For practical reasons it is being proposed that only "examples" of non-generic designations be listed in Part 4 while a complete list of all non-generic designations be listed in a new Part 12.

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4.32; 27 CFR 5.32; 27 CFR 7.22

Legal Deadline: None

Abstract: ATF is proposing to amend the regulations by requiring the mandatory disclosure of FD & C Yellow No. 6 on labels of alcoholic beverages, because of evidence indicating the possibility of allergic-type reactions to the color additive. As in the case of FD & C Yellow No. 5, which also requires label disclosure under existing regulations FD & C Yellow No. 6 is used infrequently in the production of alcoholic beverages being limited to mostly cocktails, liqueurs, and other specialty products.

Semiannual Agenda of Regulatory Actions

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: As required by the Regulatory Flexibility Act and Executive Order 12291, the Office of the Comptroller of the Currency (Office) has prepared this semiannual agenda of its rules and regulations currently under review and scheduled for review. Regulatory actions taken since the publication of the Office's previous semiannual agenda on April 25, 1988 (53 FR 14192) are also included. It is expected that this semiannual agenda will enable the public to be more aware of, and allow it to more effectively participate in, the Office's regulatory activity.

ADDRESS: The mailing address for all contacts: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, SW., Washington, DC 20219.

FOR FURTHER INFORMATION CONTACT: For general information about this semiannual agenda, contact Nancy Lowther, Financial Analyst, Legislative and Regulatory Analysis Division, (202) 447-1177.

For additional information about a particular item on this semiannual agenda, contact the individual identified as the contact person.

SUPPLEMENTARY INFORMATION: The Office has determined that none of the rulemakings discussed in this semiannual agenda requires a regulatory flexibility analysis; all entries have been determined not to have a "significant impact on a substantial number of small entities," and therefore are not subject to the provisions of the Act. Additionally, none of the rules is a "major" rule as defined by Executive Order 12291. Executive Order 12291 defines a "major" rule as one likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Dated: August 16, 1988.

Robert L. Clarke,

Comptroller of the Currency.

Legal Authority: Sec 1, 77 Stat 668; 12 USC 92a; 12 USC 481

Abstract: Comments in response to a prior rulemaking Final Rule Docket No. 80-16 (46 FR 71571) published October 29, 1980 included recommendations that additional amendments should be made to 12 CFR 9. The OCC believes that the issues raised by the commenters can best be addressed through a comprehensive review of its regulations concerning national bank fiduciary powers and collective investment funds. The OCC requested comments from the public as to the desirability and feasibility of a comprehensive review of its trust regulations pertaining to collective investment funds, including specific matters which should be addressed. In view of the favorable disposition of litigation impacting on the fiduciary powers of national banks and collective investment funds (Investment Company Institute v. Clarke, 789 F.2d 175 (2d Cir. 1986), cert. denied, 55 U.S.L.W. 3316 (U.S. Nov. 4, 1986); Investment Company Institute v. Conover, 790 F.2d 925 (D.C. 2150. SECURITIES EXCHANGE ACT DISCLOSURE RULES

Legal Authority: 15 USC 78

CFR Citation: 12 CFR 11, (New Subsection)

Legal Deadline: None

Abstract: The proposed rule would require that more detailed and meaningful information be provided to shareholders and the OCC concerning banks' loan portfolios, including loans to borrowers in foreign countries experiencing liquidity problems, other sources of income and exposure to risks. This will assist shareholders in evaluating proposals for mergers, consolidations, acquisitions and similar matters and will assist the OCC in administering and enforcing the Securities Exchange Act of 1934 as it applies to national banks. The OCC considered not proposing the additional amendments or proposing them as a general guide rather than a rule. However, the OCC determined it was appropriate to propose the additional requirements as amendments to Part 11 because the OCC believes the proposed requirements will help to clarify the types of disclosures which the OCC, shareholders and the public would consider material in analyzing various Exchange Act filings and statements. The proposed rule will also include amendments to update Part 11 to conform with recent amendments by the Securities and Exchange Commission to its Securities Exchange Act Disclosure Rules. Legal Authority: 5 USC 552; EO 12600

CFR Citation: 12 CFR 4

Legal Deadline: None

Abstract: This proposed regulation implements recent amendments to the Freedom of Information Act (FOIA). The amendments concern Exemption 7 of the FOIA (relating to law enforcement records) and the provisions of the FOIA concerning fees and fee waivers. In addition, the proposed regulation implements Executive Order 12600, which deals with predisclosure notification procedures for confidential commercial information. This proposed regulation also makes technical changes to the OCC's existing FOIA regulation. The proposed regulation, and the OCC's FOIA regulations in general, affect public disclosure of information by the OCC. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 481; 12 USC 482; 12 USC 3102; 26 DC Code 102

CFR Citation: 12 CFR 8

Legal Deadline: None

Abstract: The OCC is proposing a 14 percent increase in its semiannual assessment schedule for national banks, District of Columbia banks and federally licensed branches and agencies of foreign banks. This action is necessary to avoid OCC revenue shortfalls. It is intended to ensure that OCC can continue to fulfill its statutory, regulatory and supervisory responsibilities. National bank fees will be raised only to the extent necessary to support OCC's increasing and evolving supervisory responsibilities. This proposed rule, if adopted as a final rule, will not have a significant economic impact on a substantial

number of small banks or other small entities.

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 7.3400

Legal Deadline: None

Abstract: The proposed regulation will interpret new statutory lease financing authority provided to national banks by Section 108 of the Competitive Equality Banking Act of 1987, codified at 12 USC 24(10). The OCC is considering what prudential guidelines, if any, are needed, in order to ensure that national banks conduct this new activity safely. Abstract: The proposed guidelines provide for a common framework of capital adequacy measurement to remove a source of competitive inequality for banks operating internationally. However, the OCC believes the risk-based capital ratio is a useful tool for measuring capital adequacy at all national banks. The framework of measurement is mainly directed to the credit risk of balance sheet and off-balance sheet assets as they relate to bank capital. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: PL 97-35, Sec 1342(a); 12 USC 24(7); PL 98-473, Title I

CFR Citation: 12 CFR 1

Abstract: The OCC is amending 12 CFR 1 to make two nonsubstantive changes in the regulation. The first change in the regulation incorporates the existing statutory authority of national banks to underwrite and deal in obligations of the African Development Bank and the Inter-American Investment Corporation. The second change deletes from the regulation an outdated and unnecessary provision describing procedures for banks to request OCC rulings. This final rule will not have a significant economic impact on a substantial number of small entities.

Significance: Agency Priority

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 5

Legal Deadline: None

Abstract: The OCC is engaged in a continuing review of its rules, policies, and procedures governing corporate activities. The OCC proposes to provide clarification of the OCC's ability to impose conditions on transactions between a bank and its subsidiaries; to add 12 CFR 5.36 to require notification to the OCC of certain equity investments which national banks are authorized by statute to make; to outline the responsibility of the applicants for accurate and complete filings; to centralize the OCC's distribution of forms; and to make several miscellaneous technical amendments. These proposals are expected to benefit the OCC by assisting the OCC in fulfilling its responsibility for maintaining the safety and soundness of national banks and the national banking system, and to improve OCC efficiency. The effect on small entities is considered in the development of each rulemaking. If adopted as final rules, the changes to Part 5 will not have a significant economic impact on a substantial number of small entities.

Semiannual Agenda

AGENCY: Customs Service, Treasury.

ACTION: Semiannual agenda.

SUMMARY: In response to Pub. L. 96-354, the "Regulatory Flexibility Act," and Executive Order 12291, "Federal Regulations," Customs has prepared and is publishing for public information a list of regulations either under development or under review.

FOR FURTHER INFORMATION CONTACT: For additional information regarding the substance of any particular regulatory project described in the agenda, please communicate with the person identified as the "Agency Contact." All agency contact persons are located at U.S. Customs Service Headquarters, the address of which is noted below. Comments or inquiries of a general nature about the agenda itself should be directed to Gertrude A. Bresnahan, Regulations and Disclosure Law Branch, Office of Regulations and Rulings, Headquarters, U.S. Customs Service, Room 2119, 1301 Constitution Avenue, NW., Washington, DC 20229 (202-566-8237).

SUPPLEMENTARY INFORMATION:

Background

Public Law 96-354, the "Regulatory Flexibility Act" (RFA) and Executive Order (E.O.) 12291 of February 17, 1981, "Federal Regulations," require semiannual publication, in April and October of each year, or an agenda of regulations which are "likely to have a significant economic impact on a substantial number of small entities" and "major" regulations, respectively. The RFA and E.O. 12291 also require agencies to include in their agendas currently effective rules which are under agency review. Customs agenda includes a brief abstract of each regulatory project ("project") being considered, an indication of whether the project will have an RFA impact, the section(s) of the Code of Federal Regulations affected, the legal authority for the action being taken, the name, title, and telephone number of an agency contact and, where applicable, an approximate timetable of completing action on any project for which Customs has published a notice of proposed rulemaking. In addition, the status of projects referred to in previously published agendas is shown. It has been determined that none of the projects listed as being under development meets the standards required of a "major" regulation provided in E.O. 12291.

General statutory authority for the development or review of regulations relating to Customs matters is found in section 301, title 5, United States Code (5 U.S.C. 301), and in sections 66 and 1624, title 19, United States Code (19 U.S.C. 66, 1624). When appropriate, additional specific statutory authority is indicated as the legal authority for the project.

Dated: August 17, 1988.

John E. Elkins,

Acting Director, Office of Regulations and Rulings.

Abstract: Amendment to the Customs Regulations relating to the country of origin marking of jewelry. More permanent methods of marking are proposed to avoid removal of country of origin identifications after importation, but before sale to consumers often for the purpose of deceptively representing the merchandise as made in the U.S. Previous methods permitting country of origin marking for jewelry using adhesive labels or string tags would be permitted under the proposed changes only where the size of the article does not permit more permanent marking methods. For other articles, the changes will require that jewelry be indelibly marked with the country of origin by cutting, die-sinking, engraving, stamping, or some other equally permanent methods, or with a similarly marked plastic or metal tag.

Additional Information: A proposed interpretive rule was published on July 15, 1986 (51 FR 25574) soliciting comments on a proposal to require that all foreign-made Native American-style jewelry be indelibly marked with the country of origin by cutting, die-sinking, engraving or stamping. Numerous comments were received which generally were in favor of the proposal; most indicated that the proposal did not go far enough and many commenters thought that the change should extend to all jewelry. On August 23, 1988, Congress enacted Pub. L. 100-418, Omnibus Trade & Competitiveness Act of 1988, which among other things, requires the indelible and permanent marking on all imported Native American-style jewelry. Accordingly, we are revising our proposal to include jewelry in general, and the expanded proposal will have more general application.

Abstract: Amendment to the Customs Regulations to require that each bill of lading which accompanies a shipment of imported cargo carried by vessel possess a unique 12 character identifier. This identifier will serve to distinguish the particular bill of lading from other bills of lading issued by that carrier or issuer and from bills issued by others. The identifier is designed to enable Customs Automated Commercial System to more accurately track the progress of cargo from its arrival to its release.

Abstract: Amendment to the Customs Regulations to set forth revised special informal entry procedures applicable to the entry and clearance of cargo carried by the various entities which comprise the express consignment industry and to further refine and expand upon the existing procedures which recognize the special needs of the growing express consignment industry. The member countries of the Customs Cooperation Council have recently examined the industry and associated issues and have adopted international guidelines which established various definitions, including the term "Express Consignment Operators or Carriers." The overwhelming growth of this industry requires Customs to provide more expedited clearance procedures. The amendments will promote uniform, fair and consistent treatment of the various courier and express air services, while at the same time better assuring the protection of the revenue in accord with all applicable laws and regulations.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations that the Internal Revenue Service will be developing from October 1, 1988, through September 30, 1989. Determinations with respect to the agenda were made as of July 31, 1988. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Bob Boyer, Assistant Chief Counsel (Corporate), Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, DC 20224, Attention: CC:CORP:T:R (202-566-3918), not a toll-free call.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act both require that a semiannual agenda of regulations under development and review be published in the **Federal Register**. The next semiannual agenda of the Internal Revenue Service will be published in the **Federal Register** in April of 1989.

Description

This Semiannual Agenda of Regulations lists all projects within the Internal Revenue Service (I.R.S.) as of July 31, 1988, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Office of Associate Chief Counsel (Technical), the General Litigation Division and the Office of Associate Chief Counsel (International) of the Office of Chief Counsel, I.R.S. The following information is provided for each regulation project: The title; priority status; its effect, if any, on small entities and levels of government; the part of the Code of Federal Regulations affected; the legal authority for issuing the regulation; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under additional information there is provided the control number of the project within the Chief Counsel's Office, and the names and telephone numbers of the drafting and reviewing attorneys.

On October 1, 1988, the technical function of the Office of Chief Counsel reorganized in order to achieve greater mission integration in the formulation, implementation, and interpretation of the tax laws and regulations. As a result of this decision, four of the divisions previously constituting the technical function of the Office of Chief Counsel were abolished and realigned into four new organizations. These new organizations are: Assistant Chief Counsel (Corporate), Assistant Chief Counsel (Income Tax & Accounting), Assistant Chief Counsel (Financial Institutions & Products), and Assistant Chief Counsel (Passthroughs & Special Industries). Due to the abolition of the Legislation & Regulations Division because of the reorganization, a number of regulations projects in the former Legislation & Regulations Division were reassigned to various attorneys in the four newly-created organizations in the Office of Associate Chief Counsel (Technical). Please be aware that the current attorney assignments listed in this semiannual agenda may have changed due to the reorganization.

By direction of the Secretary of the Treasury.

Lawrence B. Gibbs,

Commissioner of Internal Revenue.

2178. STATEMENT OF PROCEDURAL RULES--MISCELLANEOUS AMENDMENTS

Legal Authority: 5 USC 301; 5 USC 552

CFR Citation: 26 CFR 601; 26 CFR 602

Legal Deadline: None

Abstract: The document contains miscellaneous amendments to the Statement of Procedural Rules (SPR). The SPR sets forth the procedural rules of the Internal Revenue Service for all taxes administered by the Service as well as certain rules that apply to the Bureau of Alcohol, Tobacco and Firearms. Some amendments update the SPR to reflect changes in nomenclature. The other amendments are described in the order of the sections of the SPR being amended.

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 eliminates the requirement that there be a mirrored system of taxation in Guam and the CNMI, and coordinates the tax system of these possessions and of American Samoa with the U.S. tax system. Guam the CNMI and American Samoa are granted full authority over their own local income tax systems, with respect to income of bona fide residents sourced within or effectively connected with the conduct of a trade or business within any of these possessions. This grant of authority is effective, however, only if and so long as an implementing agreement is in effect between the possession at issue and the United States which provides for elimination of double taxation, prevention of evasion or avoidance of U.S. tax exchange of information and other administrative matters. Regulations are needed to clarify who qualifies as a bona fide resident and to determine sourcing rules.

2201. COORDINATION OF U.S. AND VIRGIN ISLANDS TAXES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Prior to the Tax Reform Act of 1986, inhabitants of the Virgin Islands satisfied their U.S. tax liability by filing a return with the Virgin Islands. The Tax Reform Act of 1986 repealed the inhabitant rule to correct an erroneous interpretation of its operation in connection with the Virgin Islands mirror code. Section 1274 of the Tax Reform Act of 1986 clarifies the filing obligations of individuals in the Virgin Islands. Bona fide residents of the Virgin Islands are required to file only one return with the Virgin Islands in which they report worldwide income and identify the sources of income from the Virgin Islands will be required to file two identical tax returns one with the US and one with the Virgin Islands and pay a pro rata amount of tax to each. Regulations are needed to clarify who qualifies as a bona fide resident. It is anticipated that the regulations will provide a facts and circumstances test for determining bona fide resident status. It is unknown what the operational costs will be.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1441 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These regulations will modify a requirement of Treas. Reg. section 1.1441-6(c) regarding the time for filing of Form 1001. Section 1.1441-6(a) provides that the withholding rate shall be reduced as may be provided by a treaty with any country. To secure a reduced treaty withholding rate, subsection (c) of the regulation requires the recipient of the income to file Form 1001 (ownership, exemptions, or reduced rate certificate) with the withholding agent. The regulation further provides that each such Form 1001 filed with any withholding agent shall be filed "as soon as practicable". The "as soon as practicable" requirement will be changed to a narrowed and more objective time period.

2258. TRANSFER OF INTANGIBLES SUBJECT TO SECTION 367 OR 482 OF THE CODE

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Prior to the Reform Act of 1986, U.S. taxpayers were able to shift income out of the U.S. by transferring intangibles to Section 936 possessions corporations, contributing intangibles to related foreign corporations in Section 367 transactions or selling or licensing intangibles to related foreign parties at less than arm's-length prices and transactions subject to section 482. Valuing such transfers (at the time of transfer) has proven to be difficult and non-productive. The Reform Act of 1986 provides that payments to be received by the transferor of intangibles must be commensurate with the income from the intangible. Major issue - What portion of the income from the intangible will constitute "commensurate"? Provisions will raise large amounts of revenue.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 3406 Internal Revenue Code of 1986

CFR Citation: 26 CFR 31

Legal Deadline: None

Abstract: The regulations will provide that a tax equal to 20 percent of any reportable payment is required to be withheld if certain conditions exist. With respect to reportable interest or dividends, backup withholding applies if (1) no number is provided in the manner required, (2) the Service notifies the payor that the payee's taxpayer identification number is not correct, (3) the payee is subject to backup withholding due to a notified payee underreporting, and (4) the payee fails to certify when required that he or she is not subject to backup withholding due to notified payee underreporting. With respect to other reportable payments (such as rents, royalties, nonemployee compensation, broker transactions, or barter exchanges), backup withholding applies if (1) no taxpayer identification number is provided, or (2) the Service notifies the payor that the payee's taxpayer identification number is not correct.

2404. ● USE OF FACSIMILE SIGNATURES BY INCOME TAX RETURN PREPARERS OF FORMS 1041, U.S. FIDUCIARY INCOME TAX RETURNS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6695 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6695-1 (b)

Legal Deadline: None

Abstract: Section 1.6695-1 (b) currently requires that, with one exception, income tax return preparers must manually sign returns or claims for refund signed by them. The exception does allow preparers of returns and refund claims for nonresident aliens to use facsimile signatures under certain circumstances. Section 645 (a) of the Internal Revenue Code, added by section 1403 (a) of the Tax Reform Act of 1986, requires trusts, with certain limited exceptions, to use a calendar taxable year. The calendar year requirement means that, instead of being able to spread their duty to sign trust returns over the entire course of a year, preparers must now sign all trust returns before April 15 in order to present them to clients for timely filing. To alleviate this hardship, we are examining the advisability of permitting income tax return preparers of Forms 1041, U.S. Fiduciary Income Tax Returns, to use facsimile signatures and under what conditions such use would be permitted and appropriate.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7425 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: Section 301.7425-4(b)(3)(ii), which deals with excess expenses incurred by a purchaser of property after a foreclosure sale and before redemption, provides that the Service may request a written itemized statement from the purchaser regarding excess expenses with 15 days, it shall be presumed that no excess expenses are payable. However, even after the 15-day period expires, a payment for excess expenses shall be made after the redemption within a reasonable time following the verification by the district director of a written itemized statement submitted by the purchaser. There is no specific time frame set for the purchaser to submit his claim after the redemption and after the expiration of the 15-day period. We are examining the feasibility of establishing a 30-day time limit within which a final claim for excess expenses must be submitted by the purchaser after the sale of the property. This will eliminate claims for reimbursement of expenses that may be submitted after redemption and sale of the property, where the liens were fully

satisfied and released, and all surplus funds returned to the taxpayer.

Abstract: The proposal will clarify the information reporting requirements with respect to private activity bonds. Industrial development bonds must be publicly approved--failure to fulfill this requirement results in loss of tax exemption for the interest on these bonds. Issuers of student loan bonds, charitable use bonds and industrial development bonds are required to supply certain information to the Internal Revenue Service. Failure to comply with this requirement will result in the loss of tax exemption for the bond's interest.

Abstract: These regulations would provide guidance regarding the provision enacted by the Tax Reform Act of 1984 which generally denies Federal income tax exemption for a small issue of development bonds if any of its beneficiaries receives the benefits of more than $40 million of prior outstanding industrial development bonds allocated to itself, including its allocated portion of the small issue in question. These regulations would also provide guidance regarding how the proceeds of an issue of industrial development bonds are to be allocated among its beneficiaries.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 274 (b) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would reflect the modification by the Economic Recovery Tax Act of 1981 of the third exception to the term "gift" (i.e., the exception within certain dollar limitations for awards of tangible personal property). The regulations would define the term "qualified plan award." The regulations would clarify the existing regulations under section 274 (b) of the Internal Revenue Code of 1954 by excluding from the term "tangible personal property" any award of cash, or of a gift certificate, or of a right to choose among 5 or more different items.

2482. AMENDMENT OF THE INCOME TAX REGULATIONS UNDER SECTION 367 OF THE CODE (TRANSFERS TO FOREIGN CORPORATIONS) TO REFLECT SECTION 131 OF THE TAX REFORM ACT OF 1984 (P.L. 98-369)

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 367 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Income Tax Regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporations will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 382 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Except as provided in regulations, sections 382 (b) (3) (A) and (d) (1) of the Internal Revenue Code of 1986 provide for a ratable allocation of income or net operating loss, respectively, for the taxable year that includes the change date. Notice 87-79, 1987-2 C.B. 387, states that regulations will, in certain cases, provide taxpayers with an election to allocate income and loss between the periods ending with and after the change date on the basis of a closing of their books as of the change date (rather than on the basis of a ratable allocation). The notice also states that the regulations, in appropriate circumstances, will permit income that is realized after the date, but is properly attributable to the period ending with the change date, to be allocated to the pre-change period. The purpose of this regulation project is to provide guidance in the areas suggested by the notice and in related areas.

Abstract: On June 28, 1983, the Internal Revenue Service issued news release IR-83-88 requiring new information reporting by trustees of individual retirement accounts and issuers of individual retirement annuities (including accounts and annuities that are simplified employee pensions). Form 5498, Individual Retirement Arrangement Information, was prescribed in the news release as the information return to be used for this purpose. This regulation project will amend the regulations under section 408 to conform them to the reporting requirements announced in the news release. In addition, section 147 of the Tax Reform Act of 1984 amended section 408 (i) of the Code to require that contributions be identified as to the taxable year to which they apply. This amendment will be included in this regulation period.

2523. INCOME TAX--DETERMINATION OF AMOUNTS AT RISK WITH RESPECT TO CERTAIN ACTIVITIES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 465 Internal Revenue Code of 1986; PL 94-455, Sec 204 Tax Reform Act of 1976

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide guidance to taxpayers for purposes of determining the amount the taxpayer is at risk in certain activities. This guidance is necessary because a taxpayer's deductions are limited to the amount the taxpayer is at risk in the activity. This at risk limit applies to most activities except the holding of real property and certain equipment leasing by closely-held corporations.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; PL 99-514, Sec 1203

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Section 1203 of the Tax Reform Act of 1986 amends section 904 (f) by adding paragraph (5) at the end thereof which requires that foreign source losses with respect to any income category first offset the taxpayer's other foreign source income subject to a separate limitation for the taxable year on a proportionate basis before such losses offset the taxpayer's U.S. source income. Accordingly, the regulation will provide rules for the allocation of foreign source losses incurred in taxable years beginning before the effective date of the Tax Reform Act of 1986.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 905 (c) Internal Revenue Code of 1986; 26 USC 6689 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1; 26 CFR 301; 26 CFR 602

Legal Deadline: None

Abstract: The regulations will establish procedures for taxpayers by which they must notify the Service of a change in foreign tax liability for a taxable year for which they claimed the foreign tax credit. The regulations provide special rules for redetermining the taxpayer's United States tax liability when the dollar value of the foreign currency fluctuates between the time for which the foreign tax credit is originally claimed and the time for which the foreign tax credit is redetermined. In addition, the regulations set forth deadlines for compliance with the notification requirements.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Prior to the Tax Reform Act of 1986 importers could claim a transfer price for customs purposes that was too low to be consistent with the price they claim for income tax purposes. Section 1248 of the Tax Reform Act of 1986 addressed this problem by enacting Section 1059A of the Internal Revenue Code, under which importers cannot claim a transfer price for income tax purposes that is higher than would be consistent with the value they claim for customs purposes. Regulations will be needed to provide rules for coordinating customs and tax valuation principles. It is anticipated that as a result of Section 1059A of the Internal Revenue Code, some taxpayers will claim higher transfer prices for customs purposes. No estimate has been made of the revenue.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-3 (f) (2)

Legal Deadline: None

Abstract: Section 47 (a) (1) of the Internal Revenue Code and the regulations thereunder provide the general rule that if section 38 property is disposed of there shall be recapture of investment credit. Section 1.1502-3 (f) (2) provides an exception to that rule for the transfer of section 38 property between members of an affiliated group; such a transfer will not cause a disposition within the meaning of section 47 (a) (1). This exception is premised on treating the affiliated group, for investment tax credit purposes, as a single entity that continues to own the property after the transfer. Such a premise is not justified, and the exception does not apply, if at the time of the transfer there is an intent that the property subsequently leave the group in a transaction described in section 1.1502-13 (f). See Rev. Rul. 82-20, 1982-1 CB 6. In such a case, recapture is appropriate. The regulation will amend section 1.1502-3 (f) (2) to make this explicit.

Legal Authority: 26 USC 7805 Internal Revenue Code of1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-32(T)

Legal Deadline: None

Abstract: When a subsidiary declares a dividend while a member of a consolidated group, but pays the dividend after disaffiliation from the consolidated group, the basis of the subsidiary's stock is not reduced by the amount of the dividend. The problem is caused by a difference in timing of the two events in (payment of dividend and declaration of dividend) and its effect on earnings and profits and basis. This regulation will alleviate the problem by providing that basis of the subsidiary's stock will be reduced when the subsidiary declares a dividend.

2587. DUAL RESIDENT COMPANIES LIMITATION ON CONSOLIDATED LOSSES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1503(d) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: If a U.S. Corporation is subject to a foreign country's tax on worldwide income, or on a residence basis as opposed to a source basis, any taxable loss it incurs cannot reduce the taxable income of any other member of a U.S. affiliated group for any other taxable year. Where a corporation is subject to foreign tax on a residence basis, then for U.S. purposes, its loss will be available to offset income of that corporation in other years, but not income of another U.S. Corporation. Regulations may exempt a U.S. corporation from this rule to the extent that its losses do not offset the income of foreign corporations for foreign tax purposes.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 4996 Internal Revenue Code of 1986

CFR Citation: 26 CFR 51

Legal Deadline: None

Abstract: These proposed regulations would provide rules relating to the definition of "property" for purposes of the crude oil windfall profit tax. These regulations are important because the rate of tax depends, in part, on the characteristics of the property from which the crude oil is produced.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6045 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations in this project clarify the definition of the term "commodity" for purposes of broker reporting. Rules are provided for determining whether personal property (including gold and silver) is a commodity. Generally, the term "commodity" is defined as personal property that is deliverable in satisfaction of a regulated futures contract, certain specified personal property that the secretary determines is to be treated as a commodity or any form or quality of or any interest in such personal property. The term "commodity" does not include a security, regulated futures contract, forward contract, or a form of tangible personal property if the gross proceeds from its sale exceed by more than 15 percent its value as a commodity. The rules proposed include alternative methods (the "exact" and "approximate" methods) of tangible personal property valuation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6611 Internal Revenue Code of 1986; 26 USC 6601 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The regulation would provide rules for determining the period during which interest accrues on an underpayment or an overpayment of tax as provided in sections 6601 and 6611 of the Internal Revenue Code of 1954. The period would be determined, in part, by the dates the return and the claim for refund are filed and by whether they were filed in a way that they can be processed.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6621 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The regulations provide guidance to taxpayers subject to the increased rate of interest on substantial underpayments attributable to certain tax motivated transactions. The regulations define tax motivated transaction and accounting methods that may result in a substantial distortion of income. The regulations also provide rules for determining the amount of a tax motivated underpayment and the accrual of interest at the increased rate.

Significance: Regulatory Program

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7872 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These regulations provide guidance to taxpayers who enter into certain below-market interest rate loan transactions. The regulations explain what type of transactions are treated as loans and what type of loans are subject to the provisions of section 7872. If the loan is subject to section 7872, the below-market loan will be recharacterized as an arm's length market-interest rate loan coupled with a payment by the lender to the borrower in an amount generally equal to the amount of imputed interest. The regulations provide rules for determining the amount and the character of the imputed transfers.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 422A Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide guidance for taxpayers who either grant or receive incentive stock options. The grant of an incentive stock option to an employee by an employer will not be a taxable event. At the time such option is exercised by the employee no amount of the spread between the fair market value of the stock at exercise and the option price will be included in the employee's gross income. When the stock acquired through the exercise of the option is sold, the entire gain will be treated as capital gain and not ordinary income if certain holding period and employment relationship requirements are met.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 904 (f) Internal Revenue Code of 1986; PL 97-248, Sec 211

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide rules for determining the amount of and recapturing overall foreign losses. An overall foreign loss under any one of the separate limitations on the foreign tax credit may offset the taxpayer's United States tax on United States source income in the year of the loss. The recapture rules provide that a portion of the taxpayer's foreign taxable income under the same limitation in subsequent years is to be recharacterized as United States source income, thereby reducing the taxpayer's foreign tax credit and preventing a double tax benefit from the loss.

Semiannual Regulatory Agenda

ACTION (ACTION)

ACTION

45 CFR Ch. XII

Executive Order 12291, Federal Regulation, Semiannual Agenda of Regulations

AGENCY: ACTION.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to provide the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning ACTION regulations or this semiannual agenda, contact Stewart A. Davis, Acting General Counsel, ACTION, 806 Connecticut Avenue, NW., Washington, DC 20525, (202) 634-9333.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

ACTION has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

DATED: September 9, 1988.

Donna M. Alvarado,

Director.

2715. ● FREEDOM OF INFORMATION ACT REGULATIONS

Legal Authority: 16 USC 470 Nat. Historic Preservation Act of 1966, as amended

CFR Citation: 36 CFR 810.5

Legal Deadline: None

Abstract: The regulation will increase the fees charged to requesters of information to better reflect the cost to the Government of locating and copying the documents requested. Copying charges would be increased from $0.10 to $0.13 per page; fees for searches by professional staff from $2.00 to $4.65 per quarter hour; and fees for searches by clerical staff from $1.00 to $2.30 per quarter hour. The regulation would thus impose a "user's fee" to users of the Government FOIA system which is more consistent with other agencies' fees.

2716. DONATION OF AGRICULTURAL COMMODITIES/PRODUCTS TO ASSIST NEEDY PERSONS OVERSEAS (416 PROGRAM)

Legal Authority: 7 USC 1431; PL 97-253, Sec 110

CFR Citation: 22 CFR 210, (New)

Legal Deadline: None

Abstract: This regulation sets forth provisions of the Agency for International Development (AID), acting as an agent for the USDA/Commodity Credit Corporation (CCC), to carry out part of the responsibilities for selecting, approving, administering and implementing the Section 416 program of the Agricultural Act of 1949, as amended. This program will assist needy persons overseas and reduce surplus stocks of dairy and wheat products in CCC inventory. The donation of commodities under this new authority will be coordinated with, but not replace, assistance provided under the Agricultural Trade Development and Assistance Act of 1954, as amended, PL 83-480. The Agency is not considering any alternatives for addressing the problem. There are some minor costs in administering the regulation. The potential benefits will go to needy persons overseas.

2718. NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS OF THE AGENCY FOR INTERNATIONAL DEVELOPMENT -- EFFECTUATION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

Legal Authority: 22 USC 2381

CFR Citation: 22 CFR 209

Legal Deadline: None

Abstract: The regulation will address the problem of discrimination on the basis of race, color, or national origin in any program or activity receiving assistance from the Agency for International Development. The regulation provides that no person in the United States on the ground of race, color or national origin, be excluded from participation in, be denied the benefits of or be subjected to discrimination under any program or activity receiving Federal financial assistance from AID. The regulation provides procedures for 1) assuring that such discrimination does not occur and 2) effecting compliance. The Agency is not considering any alternatives for addressing the problem. There will be some minor costs in administering the regulation; there are potential benefits to individuals who might otherwise be discriminated against.

Commission on Civil Rights

Semiannual Regulatory Agenda

COMMISSION ON CIVIL RIGHTS (CCR)

COMMISSION ON CIVIL RIGHTS

45 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: Commission on Civil Rights.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the U.S. Commission on Civil Rights will have under development during the 12-month period from October 1, 1988 through September 30, 1989. The purpose for publishing this agenda is to give notice of any regulatory activity by the Commission in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the agenda in general, contact: William H. Gillers, Solicitor, U.S. Commission on Civil Rights, 1121 Vermont Ave., NW., Room 606, Washington, DC 20425, (202) 376-8514.

Specific: For further information about any particular item on the agenda, contact the individual listed under that item.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by the Commission are not "major" rules within the meaning of E.O. 12291 and no Regulatory Impact Analysis is required. The Commission has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; nor will the regulations have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required.

William H. Gillers,

Solicitor.

COMMISSION ON CIVIL RIGHTS (CCR)

Proposed Rule Stage

2723. IMPLEMENTATION OF FREEDOM OF INFORMATION REFORM ACT

Significance: Agency Priority

Legal Authority: 42 USC 1975 to 1975f; 5 USC 552

CFR Citation: 45 CFR 704.1, (Revision)

Legal Deadline: Final, Statutory, April 25, 1987.

Abstract: The regulation implements the 1986 statutory amendments to the Freedom of Information Act (FOIA) (5 USC 552). The revised provisions modify the terms of exemption 7 and also establish new procedures regarding the charging and waiving of fees pursuant to a FOIA request.

Semiannual Regulatory Agenda

ENVIRONMENTAL PROTECTION AGENCY (EPA)

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. I

[FRL-3440-3]

Regulatory Agenda

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA revises and issues the Regulatory Agenda semiannually, and it appears in the **Federal Register** each April and October. It provides specific information on the status of regulations that are under development, revision, and review at the Agency. The agenda is published to keep interested parties informed of the progress of EPA regulations.

ADDRESSES: If you want to be on the mailing list for future agendas, please call or write to Bridgette Dent, Regulation Management Branch, EPA, PM-223, Washington, DC 20460, (202) 382-5475.

If you have any suggestions for improving this publication, or need general information about the agenda, please call or write to Angela Suber, Regulation Management Branch, EPA, PM-223, Washington, DC 20460, (202) 382-7205.

FOR FURTHER INFORMATION CONTACT: For specific information on any item in the agenda, please contact the person listed with each entry.

SUPPLEMENTARY INFORMATION:

Statutes Covered in the Agenda

Asbestos Hazard Emergency Response Act (AHERA)
Atomic Energy Act (AEA)
Clean Air Act (CAA)
Clean Water Act (CWA)
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
Federal Food, Drug, and Cosmetics Act (FFDCA)
Hazardous and Solid Waste Amendments (HSWA)
Marine Protection, Research, and Sanctuaries Act (MPRSA)
Resource Conservation and Recovery Act (RCRA)
Safe Drinking Water Act (SDWA)
Superfund Amendments and Reauthorization Act (SARA)
Toxic Substances Control Act (TSCA)
Water Quality Act of 1987 (WQA)
General - Other Acts (including grant and procurement regulations that cut across several program areas)

Organization of the Agenda

The agenda is organized by statute, and in several cases it combines regulations with differing statutory authorities that have closely related subject matter. For example, the Asbestos-in-Schools Inspection, Abatement, and Disposal regulation is written under AHERA, but appears with regulations under TSCA.

Within each statutory listing, the regulations are ordered numerically, by section number of the authorizing legislation. For example, all RCRA regulations under section 3001 appear before those under section 3006.
